## About the Author

Entrepreneur, Philanthropist, Zero Therapy Founder, Strange man, Visionary, Technopreneur, Modern Day Mystic, Revolutionary, Vegetarian Guru – Shri Vipin Chand Bomb is many things to many people but to the thousands of Zero Therapy followers, he is just Uncleji

Vipin Chand Bomb has been single-handedly leading the movement for the recognition of the inimitable power of the human body to heal and regenerate itself. The followers of his Zero Therapy are living laboratories showcasing the miracles that happen when the marvellous powers of the human body are combined with the power of uncanny observation and uncommon common sense.

His book 'Hot and Cold' features 105 first hand experiences of people written in their own handwriting along with their photos and contact details. His ground breaking book 'Spiritual Food' uses Science, Language and Logic to change the entire meaning of Food as hitherto understood by the dictionary and encyclopedia. 'QUOTES', a compilation of his pithy observations on a variety of topics is a favourite among people of all ages.

In a singular honour to any Indian citizen, he was conferred with the honorary title of 'Wishwa Keerthi Sama Udana Lokattha Chari' at Sri Lanka. The Rotary club honoured him with their highest award, 'For the Sake of Honour Award'. His lectures, Seminars and Interviews have been widely covered in the media, in India and abroad. The doors of the highly guarded Central Prison, Colombo, Sri Lanka were thrown open for Vipin Chand Bomb's address to its inmates. He has also addressed a wide ranging section of people – Scientists, Doctors, Engineers, Press Reporters, School students and Fishermen, to name a few. The recordings of most of these are available on the website and social media.

For his living, Vipin Chand Bomb heads his company U-V Enterprise focussing on heating solutions for Industry and Research. His life mission is propagation of this more natural lifestyle for all human beings. He continues his crusade through his weekly interactive Monday lectures, websites [www.zerotherapy.com](http://www.zerotherapy.com), [www.vipinchand.com](http://www.vipinchand.com) and through seminars, press conference-s all over the country and abroad. He is available to address seminars on the Zero Therapy lifestyle, at his own cost, anywhere in the world.

## Origin of Zero Therapy

One question I regularly face is how did I start Zero Therapy. Did I learn it somewhere? Do I have a medical background ? Some people ask me is it past karma, present effort or something else.

I used to tell friends that it is past karma but they were not convinced. Collectively we thought then that it should be nature. Zero therapy itself is based on nature and our greeting to each other is " JAI PRAKRITI" or salutations to Nature. Looking back at my life, it looks like life was preparing me to take on this task...

I hail from a traditional business community from Rajasthan state in northern India. I, being a Marwari, would have normally selected commerce as my subject. As nature would have it after my SSLC ( grade 10 ) I joined pre-university opting for Geography & Advanced English. Without geography food cannot be prescribed. The basis of Zero Therapy is hot & cold and geography mainly deals with it. To spread zero therapy it requires language, hence advanced English. It also requires observation and speed – skills that I honed as wicket keeper playing at a higher league level (Butchi Babu memorial).

Basic engineering and science is also required to help me in Zero therapy. As luck would have it, I chose polytechnic with physics, chemistry & heat as subjects.

I am a shy and soft person by nature. To stand against the established industries and beliefs a little toughening was required and events later helped in doing that.

It was early 1970s. I was part of my first generation family business that was flourishing. One day my elder brother said that a fan that had come to our office for repair was missing. My parents and we brothers were all sitting. I said that as the head of the business he was more responsible. His infuriated reaction was – you are sleeping in office.

If my contribution in the business was not noticed, I didn't want

any part of it. It was a question of 'Swabhimaan', self respect. I decided at that moment to leave the family business. I was married by then with my son Neelesh about One and half years. I sent my wife Usha along with the child to her parent's place at Hinganghat, a small town in central India. I told them that I would call them after I had saved enough money to take care of them. I spent a month or so collecting the receivables of the business. I left the house without even a spoon, and started my new business without any money. I made it a point that I would not touch the products, customers or suppliers of my family business. I also stopped using my family name to avoid any of that goodwill helping me. So, practically I started from scratch. This is where cricket helped me, as my initial supplier and customer were both cricketers.

Within six months I made Rs. 10000 in my books though not in hand. I asked my family to come back. My college colleague, in a switchgear company, gave me my initial purchase orders and from my friends in cricket I borrowed Rs 2000/-. I got one stove, one cooker and paid the advance rental. We used to eat only besan paratha or sugar coated chappattis. The hardships and ability to overcome them gave me the self confidence, that would be critical in the future.

There are some more incidents that helped create the base for the founding and spread of Zero Therapy.

One incident happened when my son Neelesh was very young. I bought a scent bottle for him which he loved. It broke. He was very young, but did not cry and said we would get it next time. I love collecting crockery but when we started we had just six cups. The crockery shelf fell down and the cups broke but my son's reaction was, **"there are still two cups left"**. In fact, this contentment is a trait that I see in the whole family.

In the initial years of Zero Therapy when the mega seminars of 2008, 2009 and 2010, the weekly seminars and the daily treatment sessions were taking huge outflows of time, money

and energy, my wife never questioned it. In fact when I wanted to stop, she said, "Acchaa Kaam Ho Raha Hai, Tho Aap Kyun Rokte Ho". Good work is happening, why do you want to stop it.

All the Monday weekly meeting recordings go to her. She watches and points out any corrections for the betterment of Zero Therapy. This support has been a huge source of strength to me.

Another incident almost 36 years ago provided me a very critical insight that was helpful in the founding of Zero Therapy. My younger child developed very high fever which was not responding to any treatment. She was then admitted to the hospital. Still the fever would not reduce. The doctor finally told us one evening that the night would be very critical. We were at our wits end. On a hunch, I borrowed a tape recorder and played soft music through the night, and the next morning the doctor was surprised to see that the fever had vanished. I had remembered that some time ago, when there was a sudden loud noise in the television, my daughter had moved away. It struck me that since medicines were not working and my daughter was a sensitive child, probably we needed to soothe the mind. It worked. This was my first practical application of the power of the mind on workings of the body.

Somewhere around that time, my nephew was staying with us. One night he came home and started vomiting continuously. Facing an emergency, I kept applying sandal wood paste on his stomach to cool the body and in some time he too was back to normal. This was the first application of the home grown Cold pack that we now use extensively in Zero Therapy.

I have a retail outlet and my customers range from doctors, engineers and electricians – all sorts & from all levels. Many a times I could convince them & many a times could not. The person in me was same, then why ...? It gave me food for thought and I thought food was the problem. Whenever the clients were on the same platform as me regarding food habits i.e. they were vegetarian teetotallers, I could easily convince

them. If the clients were meat eaters, smokers, or alcoholics it took extra energy on my part to convince them. It became clear to me that I was at peace dealing with clients & other people around me who were vegetarians, non-smokers and teetotallers.

For my selfish motive of peace of mind, I started proposing this lifestyle to people around me, and to a great extent I succeeded in that. More than thousand people from all walks of life took to this lifestyle and in fact shared their positive experiences with me.

I had had a very busy time setting up my business and it was almost three decades during which I hardly visited the doctor. If at all I fell sick, it would be on Saturday evening, so that I could be in office on Monday morning. All these years my routine was the same. Leave home by 6.30 am and come back by around 9 pm, Monday through Saturday. One year when I was Rotary president, our club used to meet every Sunday over breakfast. So even Sundays were ruled out and that year I never fell sick.

One of my biggest weaknesses and strength is I cannot stand untruth. All my suppliers, customers, associates and friends know it, most have experienced it. Even as I was comfortably leading my life without having to resort to medication, I was greatly agitated that others were so constantly and helplessly dependent on hospitals and doctors. This thought continued to get stronger with time. I just did not know what to do about it.

My passion for advocating my Satvik lifestyle had continued through the years but by around the year 2000 all people around me including the parking attendant had adopted this lifestyle. I had experimented on my body all these years on how not to fall sick and if at all I fell sick, how to get cured without going to the doctor. I now decided to share my learnings with people – not just to show them how to heal themselves but also to inspire them to change to this Satvik lifestyle.

This was the seed for the birth of zero therapy.

Initially I had started by helping out friends and relatives. It then spread by word of mouth and now we have so many people following it. I am happy when Zero Therapy followers are able to listen to their bodies, diagnose the mistake themselves and reap the benefits of this lifestyle. My greatest satisfaction is when researchers in different parts of the world are slowly concurring one by one, on the things I have been publicly saying all these years.

My biggest regret is that though this science and data collected over years is offered totally free to any government, public or private body to put to non-commercial use – though it can be intellectual property right of the country – yet there are no takers. The vast multitudes are still not aware of the magical power of their own bodies and continue to be at the mercy of ...

Jai Prakriti. Salutations to Nature.

## About Zero Therapy?

Zero Therapy is no Therapy.

You can imagine a life

- Without a wife
- Without children
- Without a mother
- Without a father
- Without friends & relatives

But have you ever imagined a life WITHOUT MEDICINE?  
Certainly NOT!!!

Zero Therapy is not a treatment but a lifestyle. It was founded by Vipinchand Bomb. Initially to prove this we needed some proof. Those cases and people are now before the world, and now it's for the world to understand the science – how it works, why it does not work for some people, why people don't adopt it even though its available free and every person's body is a doctor by itself. It is a point to ponder...

There are some things which are beyond the comprehension of mankind. There are few things which mankind does not want to comprehend. And there are many more things which mankind comprehends but refuses to accept.

These things people brand and tag as supernatural, magical, non-existent, superstition, coincidence, fluke or impossible. These are the things which, just because the majority cannot do or prove, are sidelined and covered up. These 'things' have been theories, inventions or discoveries, which were resisted very strongly in the initial days only to be accepted at a later date. The Sun being the center of the solar system and not the earth is a classic example. And one such 'thing', which many have witnessed in the present day, is Zero Therapy

## **Zero therapy is:**

- An art because it needs discipline and will power to master it.
- A science because not all laymen can comprehend it.
- Magic because science cannot do what it does
- Faith because unless you believe it completely, it does not help you.

## **Zero Therapy is nothing but to keep away from unnatural chemicals.**

Disease is created when the hormones are imbalanced and in turn they create gases which manifest in the form of disease. For any disease the gas is the vital factor, and if one is able to balance the difference in temperature within the individual body, he has the best health. Zero Therapy's main tool is dry and wet cold pack.

## **Why so many Therapies - Why not one?**

Everyday we find some new science in the medical field is taking birth like acupuncture therapy, accupressure therapy, allopathy, homeopathy, ayurvedic therapy yoga therapy, naturopathy, Reiki therapy, Pranictherapy, aroma therapy, osteopathic therapy etc.

- The reason for all this in one line - Diagnosis in the first attempt is not perfect.
- This leads the public to jump from one to another.
- The various cases of instant perfect diagnosis as documented in the various Zero Therapy publications are available for the public to take note. Once the diagnosis is perfect, treatment automatically starts.
- Zero Therapy is a non commercial, not for profit voluntary group. The main purpose of Zero therapy is to elevate the Soul by means of Spiritual Food and thereby generating universal prosperity, peace and happiness

## Ultimate Therapy

Zero therapy is the science of harmony of changing the individual cells of each family member and there by the side-effect takes care of the disease with food as catalyst. Its food biochemistry and thought chemistry, which are complementary to each other. This is Ultimate Therapy, not Alternative Therapy. It works on the principle of balancing individual hormones, which vary from person to person. Ultimate Therapy is the name given to it since no external material goes into the body. No food is prescribed for any particular organ but for the whole body.

### What is the meaning of HEALTHY?

The present day world is looking for healthy body and healthy mind and in turn healthy soul. Now lets go through the origin of what health is. To me - **"HEALTHY - HEALTHY (self healing)"**

Thus healthy is HEAL THY (Heal Yourself). If body has capacity to heal itself the person is known as healthy. Nature has provided all the mechanisms for healing oneself. There cannot be any better doctor then the body itself. Healthy can be further divided into emotional health, physical health and mental health. All these three types of health depend on the individual depending on the basic principle of Zero Therapy.

***"What matters to the body is the matter that goes into the body"***

The matter in the form of food goes into the body which decides the emotional health, physical health, mental health. Food that the mother takes during the nine months of pregnancy also decides the child's emotional health, physical health, mental health.

Child's health can be taken care of without any medicine in any form, if Zero Therapy lifestyle is followed during nine months of pregnancy. Under Zero Therapy so many children have been cured just by changing the mother's diet.

## **AS SUCH CHILD SPECIALIST HOSPITALS ARE NOT REQUIRED.**

In present day world, health management is most important. Once a man knows how to manage his health, he is more successful in business management also. Again attention is invited to my quote :

*PROFIT: IF THE PERSON IS PROFESSIONAL & EMOTIONALLY FIT,  
THE ORGANISATION IS UNDER PROFIT*

For more quotes refer the book Quotes by Vipin Chand Bomb

So, emotional health is good for business management. Zero Therapy Life Style food (that normal regular diet at home) gives emotional health, physical health and mental health by sheer combination of normal daily zero therapy diet.

### **What is disease?**

Each body is made up of four elements which are fixed in a particular ratio for that body at the time of birth. Any disturbance in this ratio is disease and Zero Therapy re-balances the four elements to the original ratio at the time of birth - with proper food and thought with respect to climatic conditions and geography of the place taking into account temperature, humidity at those days.

We suggest diet to be prepared at home (by blood relative, who loves to prepare and loves to serve the individual to be cured) which balances your hormone. Our WILL to cure you and your WILL to get cured, gets you cured.

### **Food**

Food is disease. Food is health. Food is solution. The book "SPIRITUAL FOOD" deals with our whole approach to food and its various facets. Using uncommon common sense, a whole new definition of food is brought out. Common sense now a days is not very common. The reason is people living with nature have better common sense than people living against nature.

## **Zero Therapy and your Immune System**

Zero Therapy is a food science which not only improves the individual's present status of health, but resists all types of disease by energizing individual cells throughout the body, thus developing the superior immune system.

### **What is immunity?**

When a body does not allow any mal-functioning / dead cells to worsen the body, it is known as immunity. The theory behind this is survival of the fittest. The live cells of an individual of zero therapy are so powerful that mal-functioning / dead cells are either thrown out or corrected and re-energized. The body thus gets immunity to all sorts of diseases.

Modern medical science wrongly believes in the theory that bacteria and viruses can create disease. In Zero Therapy bodies, the immune system is so powerful that none of the harmful bacteria can create any disease in the individual. The body system is improved to such an extent that all unwanted matter are thrown out of the body in the form of vomiting, dysentery and so on.

### **How does Zero Therapy compare to any other Therapy?**

Zero Therapy is a therapy where as the name zero suggests means no start no end. It is your body which is responsible for disease and it is your body which is responsible for cure, provided no external help is taken in any form, like Acupuncture therapy Acupressure therapy, Allopathy, Homeopathy therapy, Ayurveda, Homeopathy, Naturopathy, Reiki therapy, Pranic healing or any other alternative therapy (No external help). When external help is taken, the organs including the glands sub consciously stop the inbuilt curing power of the body.

Zero Therapy is a science of 'Bhavana'. Thought, attached with a deep rooted emotion to get a desired outcome is 'Bhavana'. It is the science of food with Bhavana, where along with the food being taken, what matters is the 'Bhavana' of the persons who are preparing, serving and sharing the food.

Zero Therapy is not an Alternative Therapy. Zero Therapy is the Ultimate Therapy. Zero means no value but if added with power of mind, power of body and power of soul, it has all the properties of curing incurable diseases. Zero Therapy is the science of harmony of body, mind and soul which when harnessed by 'Bhavana', release powerful chemicals from within the body with the help of glands. These chemicals as released are capable of curing any incurable disease. Hence Zero Therapy is the treatment of the body, for the body and by the body. Basically it's the brain chemistry that takes care of the emotional balance and that emotional balance treats any disease. Zero Therapy is the science of uncommon common sense. Zero Therapy is the science of biochemistry of mind and body which release special chemicals from the glands, directed through the brain, which is essential for curing any type of disease. It may be clearly noted that organs are all secondary and the main source of curing power or built in power of the body lies with the glands which communicate with each other for balancing the hormones. Once any of the glands is operated upon, the body loses its built in curing power or healing power (Since it is the chemicals released by the glands which have the power of curing and not the mechanical organs).

Thus Zero Therapy is different from all other therapies because it does not use any external aid for curing the body, but activates the body's ability to heal itself.

Every word in the word has its origin and it derives energy from the universe at the time of birth. And when we pronounce a word it gives a feeling in the form of energy giving the meaning and feeling at the same time. This depends on the individual karma of the word at the time of birth. So healthy has its origin from HEAL+THY.

HEAL+THY which means a body capable of healing itself is a healthy body. It has got all inbuilt capacity to take care of any disease. In case of requirement, it releases chemicals whenever

and where ever required by the body. In other words the software of the Heal Thy person is at its best to take remedial action without any external help.

If the life style of the individual is zero therapy life style, the person will never get these so called dangerous diseases. For the persons following zero therapy lifestyle, the software (mind) is so strong that the body can heal itself If one follows 'what we should do is take care of what we should not do', one will not fall sick. What we 'should not do' should be experienced from cause and effect.

For a healthy person the senses are very powerful and send signals in form of chemicals throughout the body, balancing the hormones incase of any disturbance. This happens if the life style as above is followed.

Thermal imaging as per modern science is a detection technique that converts invisible heat energy into visible picture.

Modern science can see what is unseen by the naked eye, but advance thermal imaging sees what is unseen by modern science. If any organ is under tension or problem it gets heated and the heat energy sent out is measured by modern science. The particular spot which is not normal gets heated more compared to the other spot which is normal. The hotter part of the body which is abnormal, sends out more heat compared to the cooler part which is normal and sending out lesser heat. This is how the Thermal Imaging Camera of modern science, sees the temperature.

### **My experience through observation**

Every thing in the world is expansion and contraction (hot and cold). Each individual has got hot and cold, red and blue in a particular ratio fixed at the time of birth. Ultimately it is hot and cold, Expansion and Contraction

Whenever a person comes to me it is unbelievable that I am able to read the temperature of skin at various spots of the body in no time. This is how advance thermal imaging is done without any equipment but with the help of all the five sense organs working together. Every time I am able to tell the temperature of a person from a distance – again advance thermal Imaging. Not only this, in many cases I am able to tell if the person is vegetarian, meat eater, alcoholic or smoker just by reading the temperature of the body or parts.

For example a smokers lips radiate more heat which I am able to read by the temperature. The lips also release feelings due to smoke, which again am able to read. My software is also helped by signals from the nose.

Meat Eater / flesh eater radiates heat in the form of aura all round the body which we are able to measure without any equipment. Hence we are able to pin point the food one eats and also the parental food.

### **The reasoning as stated above.**

Each object sentient or non-sentient radiates heat. Meat and flesh radiates more heat hence the eater of these items radiates extra heat than the normal vegetarian body. This can be measured by modern science through equipment and by me without any equipment. The various experiences of Zero Therapy followers are a testimony to this.

Each eatable prepared or unprepared, cooked or raw has its own inherent property which builds the character of the individual person like jealousy, egoism etc.

### **This is advance thermal imaging**

When we talk of life style of zero therapy it is my foremost duty to explain what zero therapy is.

The basic principles of zero therapy are -

What matters to the body is the matter that goes into the body.

What matters to the body is the matter that goes out of the body.

What we should do is ( take care of ) what we should not do.

The whole theory of curing, treatment, soul purification, Atma, Intuition, Aura ( Physical aura , Emotional Aura, Spiritual Aura ), Character - all are related in some way to the principle stated above.

## **Principle one**

### ***What matters to the body is the matter that goes into the body***

Matter as per science is an object that occupies space and has weight but here matter is also thought, which also has weight. A friend of mine aged around 75 used to regularly visit me and he used to keep track of his weight, which was constant. One day when he came I said your weight has increased by 500 gms, He weighed and he was dumbfounded on the correctness of my judgment. I told him your friend has become chief minister and due to happiness your weight has increased. Hence thoughts have weight and in Zero Therapy, when we say matter it includes thoughts. In another instance, a patient entered my office (sorry not the clinic). She was facing a tremendous problem and under great stress. I asked her to weigh herself and note down. She waited for sometime. I chatted with her and then again I asked her to weigh after around ten minutes. The weight had increased by 400 grams, yet again proving that thoughts have weight.

It may be noted here, in between the two measurements, none of them had eaten or drunk anything.

The whole body, the aura, the character, physical and emotional, all depends on the matter that goes inside the body.

Not only the food, the person who prepares food also matters. Next the person who serves also matters, with whom one eats also matters, where one eats also matters. So it is the food and

this environment when eating, all put together that makes the software and hardware strong or weak as the case may be.

### **Action and Reaction**

When one takes medicine, the body tries to throw out the invader (medicine) and the effect is either vomiting, dysentery, fever or so on. This is cause and effect. The cause is medicine, the effect is reaction. It is very interesting to note that modern medical science (doctors) in India generally tells the patient "it is a reaction" but in fact reaction is nothing but the effect of wrong action (ie) it is presumed as meddling with one's body.

It is bound to create some effect, invariably a negative effect, because the body is not supposed to accept any chemical other than the natural chemical like fruits and vegetables. It is cause and effect.

When any artificial chemical goes inside the body, if the body is well balanced, it will try to retaliate in the form of dysentery, fever, vomiting which again is treated as a disease by modern medical science whereas this is the effect of the cause and is not a disease. Several recent researches as featured in the newspaper also confirm that it is not the medicine that cures - it is the faith in the medicine that cures.

### **Pain**

Many a time people come to me for pain, and just by talking to them they get relieved of their pain without any sort of external treatment - just transformation of energy by way of talk and the pain is gone.

Now it is conclusive that matter is food and also the thoughts. All this matter that goes inside has to come out of the body, so the next principle.

### **Principle Two**

What matters to the body is the matter that goes out of the body.

Here it is essential to watch the urine, the sweat and the toilet. What is the colour of the toilet, urine / toilet loose or tight, the flow of urine, the smell of sweat – all these are covered under "What matters to the body is the matter that goes out of the body".

A person came to me, his sweat was smelling. We checked the quality of milk he was consuming, stopped him from drinking milk as it was adulterated and the result – his smell stopped.

A person's urine was yellow. I told him to drink 'Jeera Misri' boiled, and the urine colour became normal

In yet another case, I told another friend of mine to take half a cup of milk at room temperature mixed well with half a cup of water at room temperature.

After drinking this, the colour of his urine was back to normal.

The stool of one person was tight and I told him to eat ghee and sugar and his stool became normal.

The stool colour of one child was green. I prescribed one leaf of saffron with milk. The next day stool colour became normal.

When a person sits in an air conditioned room, though he is not eating or drinking anything yet matter enters inside the body through the nose. When the persons body is cooled beyond the normal level (depends on the individual), he passes more urine (the matter that goes outside the body). Of course the reason is urine increases blood circulation – remedy by the body to avoid getting cooler than normal requirement.

Dysentery was stopped for a person by prescribing Gulab Jamun

In yet another case, dysentery was stopped by prescribing cottage cheese (panneer).

These two principles are for knowing and maintaining the status of ones health.

Now, for the remedy.

### Principle Three

What we should do is what we should not do.

A list of what we should not do, as featured on our website [www.zerotherapy.com](http://www.zerotherapy.com) is given below –

No Medicine in any form not even herbal

No Tobacco in any form

No Alcohol

No Meat and Eggs

No Honey

No Butter

No Cheese

No Sprouts

No Coconut water

No Ice Water

No Tea Masala

No Garam Masala

No Kali Mirch(Pepper)

No Pipalamor

No Reiki

No Accu Pressure

No Accu-puncture

No Yoga

Avoid Onion, Garlic, Beetroot and like (with powerful smell)

Avoid Curd, Butter Milk

Avoid Coffee

Avoid Podina

Avoid Ice Cream, Chocolate, Cake

Avoid Lemon

Avoid Menthol (like mint based toffees)

Avoid Mosquito Repellent

Avoid Betel nut

Avoid too much spicy food

Avoid Biscuits

Avoid Negative Smell ( perfumes, chemicals, balm etc )

Avoid Fermentation

Avoid same fruit and vegetables (It may be good for few days but may be excess after five days or so..)

A person came to me complaining about fever, body pain and what not, on account of eating a particular type of berry (jamun) but I found that the tongue gave indication to me that this was on account of salt sprayed on raw food. On asking her, she said she had sprinkled salt on Jamun. The salt matters here which goes inside and the resultant fever, body pain is the matter what goes outside the body

A person came to me with heavy vomiting and nothing was accepted by the body, not even water. Diagnosis was smell of perfume (matter that goes inside through the nose, vomiting the matter that goes outside the body).In the latter stage of the book you will find many such diagnoses.

Recently we had a mail from a person working in USA who was forced to lose his job on account of body smell. After reading on our website "What matters to the body.... ", he understood that smell is on account of unwanted matter like meat, flesh and eggs. Immediately he changed his lifestyle and the smell started reducing. What matters to the body is the matter that goes inside and outside the body - is In a way, a common mantra across religions and cultures. This if followed, leads to peace and harmony in the body, in families, in spirituality and in business.

### **Advance thermal imaging**

Every thing in the world sentient or non sentient releases heat in the universe. Along with heat it sends a vibration and if a person is able to read the vibration of sentiment then it is advance thermal Imaging. The present scientist can take the photo of heat but cannot understand the feelings. The volume of diagnosis in the latter part of the book is the testimony of advance thermal imaging.

## Lets see how it works.

A Person who is suffering comes to me with full faith for getting cured. In such cases the organ which is in problem or the person suffering on account of one organ that sends heat and feeling into the universe – at transmitter a wireless connection is made by me and the patient through the universe in the form of transmitters and receiver. The feelings are picked up by the receiver and hence diagnosis is done in 15 seconds.

On 17-6-2010, one dedicated Zero therapy family came to me complaining about knee pain. Immediately after looking at the knee I asked for how many days medicine had gone into her body. It was unimaginable for me to ask this question to a dedicated Zero Therapy follower but for the conviction to cure get cured. Invisible thought from the knee went into the sky, the heat of the thought measured and read immediately brought forward this question. The lady answered that three months ago she had a new set of teeth fitted and in the process she was given local Anesthesia.

The interesting point to be noted here for medical science – any doctor, any theory would have prescribed several tests for diagnosing and a number of days would have been lost without locating the actual cause.

At the most, a thermal imaging camera could have only measured the heat by means of the infrared thermometer and nothing beyond that. The advance thermal imaging of mine, loudly and clearly reads the temperature and along with the temperature reads the thoughts of the particular organ which is in problem. So reading thoughts is advance thermal imaging, which is not possible by the current level of medical science.

This is another case of the first principle of Zero therapy where the medicine acted as invader in the body. The body being intelligent safely deposited this on the joints of the knees ( to stop it interfering with bodily functions ) which in turn was seen as swelling and in turn pain.

What matters to body... another example. One week before the above example, a pregnant lady under zero therapy from her fourth month of pregnancy, having undertaken folic acid and calcium tablets in the earlier three months, came in with the complaint of blood vomiting. Immediately diagnosed over phone without seeing the tongue, just by sheer voice and the vibration and feeling of the voice (through advance thermal imaging) that it is due to smell of balm or incense stick. It turned out she had gone to an Indian temple where liberally incense sticks are used. In the evening she came to me and surprisingly the weight was the same as the previous day ( 42.1 kg) in spite of blood vomiting. The most interesting part is the lady instead of complaining said "every time when I used to vomit earlier there was a burning sensation in my throat and today surprising after vomiting I am feeling better again. What matters to the body...Incense smell went inside the body and blood came outside the body. Patient feels better. What an amazing science, don't you think so?

### **The reason for vomit.**

In the normal body the incense smell and chemical particles would have entered and settled somewhere. The body without medicine ( like the Zero Therapy body ) generally is so strong and the burglar alarm is so sensitive, that the invader is detected immediately and action taken to throw it through blood ( as here ), dysentery, cough etc.

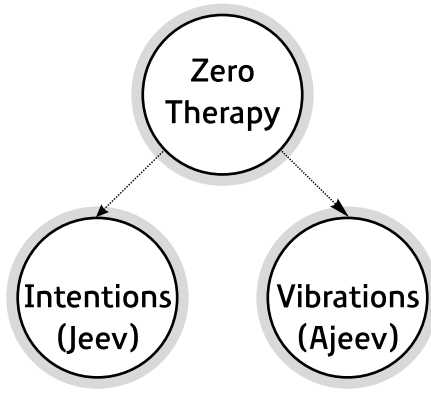

One lady came with a walker having been under medication for five years and one and half month under Zero Therapy. I looked at the tongue and before she could say anything, I said, "Madam your swelling is on account of perfume". The lady said, "My husband uses perfume". Here what matters is not the food, what matters is smell. So as earlier mentioned in book 'Spiritual Food' - "Food is not what you eat. Food is what goes inside the body in the form of air AND smell". For more details refer page 13 of 'Spiritual Food'.

## Who is the next best doctor after your body ?

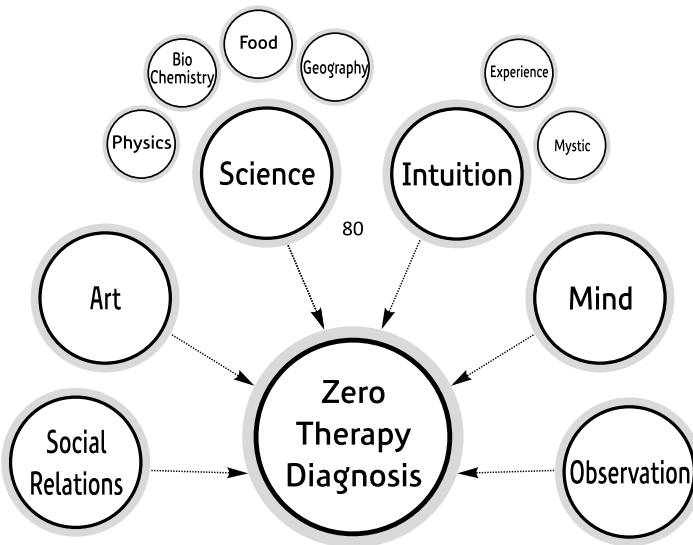

Your partner. After your own body, for married couples either of the partner is the best doctor. Before we proceed further we need to review the Indian concept of 'Bhavana'. Thought, attached with a deep rooted emotion to get a desired outcome is 'Bhavana'. If both partners are eating the same food, then if one of them falls sick, the other can act as a catalyst for cure due to 'Bhavana', provided they are on 'Satvik' food.

They need to sleep facing each other, so that the exhaled breath of one, becomes the inhaled breath of the other. If one of the partner is not eating the same food, in all probability he/she may not only stop the other ones recovery but in fact may further worsen the case. This is the reason we give utmost importance to 'Bhavana' of food, 'Bhavana' of the person who prepares the food, and the person who serves the food.

# Basics of Zero Therapy

## Zero Therapy Essentials for Diagnosis

## Unending Research

Scientists all over the world do research for the betterment of human being. Enormous amount of money and time goes into research, experiment are done on rat, mice, monkeys etc. After many years of research they come to a conclusion. Many a time, number of year later the whole research is proved wrong by another set of scientists. Here at Zero Therapy there is no experiment but the desired destination is reached by sheer kitchen diet not even medicinal herbs. It is purely based on principle of self generating power of body through the cells in the body. The cells of individuals have got enormous power to heal the individual. The primary Requirement is the food, combination of food in respect to individual based on social environment, psychology and geography and last but not the least **the mind**.

Every individual when born has a ratio of hot & cold fixed at the time of birth and with the food combination anyone can balance the body which heals automatically.

The primary essential of this system is immunity and that comes before the child is born. During 9 months of pregnancy, if the right food and combination is taken care of, body cells can do everything for him, finding solution for all the problems including disease.

Proof of such children who have not visited doctor from the birth till now, such parents experiences as enclosed by parents, as reported in the newspaper are featured on the following page. Many proofs are available on [www.zerotherapy.com](http://www.zerotherapy.com) for testimonial.

## Sum zero equals healthy life?

ANISHA FRANCIS

DC CHENNAI

Jan. 2: Meet the brood of zero therapists. The many followers of eccentric Chennai-based business-man-healer Vipin Chand Bomb take the concept of 'natural living' to a whole new level — they do not brush their teeth or use soap, shampoo, perfume or medicine.

It gets weirder. Pregnant women are not given any

supplements, not even basic folic acid and iron pills. Their offspring, branded 'zero therapy babies' are not given any vaccinations, not even the mandatory shots for hepatitis and measles or polio drops. "If the mother adopts a zero therapy lifestyle during her pregnancy, her baby will develop a superior immune system, and will not need a single vaccine. In fact, a zero therapy baby will have

a successful hearing technology business.

What started as a move to convert people to vegetarianism snowballed into 'Zero Therapy' — now followed like a religion by many people in the city, though sceptics would probably laugh at their seemingly hare-brained practices. "The concept is very simple: Avoid anything that is not natural," says Mr Bomb.

See Page 5

Vipin Chand Bomb

an adverse reaction to any chemical or medicine," claims Mr Bomb, founder of 'Zero Therapy', who funds his activities through

# Zero therapist bombs known health cures

## DC CORRESPONDENT

CHEMHA

Jan. 2: Zero therapy seems like a contradiction of all other streams of medicine and even of common beliefs. Ginger, along with other medicinal spices like garlic, basil and mint, is restricted in the zero therapy diet. The two answers to any bout of sickness — idlis and curd rice — are big no-no's. Even honey is off-limits.

Ghee, on the other hand is recommended as the panacea to all ills — to be

**Vipin Chand Bomb**

used as an ointment on an aching limb, and to be ingested in cups,

so as to "help empty the bowels at least three times a day", explains zero therapist

Vipin Chand Bomb. "I have not brushed my teeth with toothpaste for five years. We only use ghee to scrub our teeth. Since my diet only consists of natural, chemical-free food, I do not need chemical-based products like deodorant, soap or even mosquito-repellent," says Vipin Bomb, businessman and zero therapy volunteer. Years of experience with the dynamics of heat has given him the power to diagnose a person's illness just by looking at his face and tongue, Mr Bomb claims.

Freelance fashion designer Poonam swears by Uncle's prescriptions. "When I was pregnant, I did not take any of the pills recommended by my

And for patients from abroad, a short chat over the phone suffices.

Spouting "original quotes" like "Vegetarianism for human health and animal wealth", and "what we should do is what we should not do", now proudly compiled in a book that was released by food secretary Swaran Singh on Saturday.

Vipin Chand introduces hundreds of his patients who have been cured of everything from vision loss and piles to diabetes and hyperthyroidism.

Most of the time mind talks about the disease which either they have heard or read. Disease is imbalance of hot & cold in the body and every time that was corrected through psychology and diet from the kitchen.

The so called big names of the world of diseases generally mean nothing under Zero Therapy. The main diseases which are not generally cured under science are urine, stool, pot belly - these are the major problems which are the root causes of all disease.

## The Proof

The diet of zero therapy as medicine.

- Coconut Chutney
- Badam Halwa
- Jeera syrup
- Ghee with hot milk
- Milk with Badam oil
- Dry Fruits
- Soaked Almonds
- Jalebi
- Ghee with milk
- Motipak
- Gajar Halwa
- Milk Halwa

\*Indian names, no equivalent English name.

Different combination at different level on different geography in day to day depending on patient's condition.

Important factor - no basil, no pudina (mint leaves), no onion , no garlic , no powerful negative smell, no ginger, no powerful spice like clove and others are banned under Zero Therapy lifestyle. However, black pepper in moderation is allowed depending on the climate.

The following pages feature experiences of Zero Therapy followers. They are the living laboratories who show case the working of Zero Therapy. They are "The Proof".

Jai Prakati

I 'am blessed to be the part of zero therapy kutumb and thankful to uncleji the founder of zero therapy for giving me a new life.

I'am following zero therapy from past 10 years and have many times experienced uncleji's diagnosing power.

Now I'am going to share my experience with zero therapy.

Experience 1

After 6 months of my marriage in 2010 gadag, I was conceived. As I am a follower of zero therapy and was very much aware of zero therapy baby I did not take any kind of iron and calcium tablets, I followed the do's and don'ts of zero therapy and I was perfectly alright.

In my fifth month of pregnancy, due to some complications doctor advised me to take bed rest and some medicines. So due to my family pressure I took best rest but dint't take any medicines.

In my seventh month I came to Chennai at my mom's place. I visited uncleji once again, he diagnosed me and said I will not get any labor pain since I was at best rest. As uncleji told I dint get any labor pain and I was forced for cesarean. After my delivery due to over dose of medicine I wasn't able to eat anything and had continuous vomiting and head ache. I couldn't even feed my child due o cut in my nipples.

Finally I took medicine to stop vomiting and head ache which reacted and I got fits in the mid night. Next day I went for an MRI, which showed a blood clot.

I lost my memory, I wasn't able to speak, couldn't recognize my body and right side of my body was paralyzed. In short according to medical world I got THROMBOSIS problem.

Then My family took me to Dr. Deepak. After 7 days doctor asked to go for brain surgery. Suddenly in my sub conscious mind I realized that uncleji once told in a session that injections affects the body a lot and I started fighting with the doctors using my hands and legs as I was not able to speak.

My family also had knowledge about this as I often used to talk about uncleji and his therapy and also my sisiter-in-law is following zero therapy , so my family understood my strong belief and took me out from the hospital

Finally my brother and my husband went to uncleji and requested him to see me again. I was treated for my shock by uncleji and I was almost recovered within 25days. Without meeting uncleji and without money and [ it was real miracle which cannot be done by anyone else even with lakhs and crores. I am thankful to uncleji not only for treatment but for personal intention for him on me to get cured.]

### Experience 2 – My second Pregnancy

After 3 years, I conceived my second child for that doctor asked me to take injection from the month of 5 and I don't want to do so as uncleji assured e that injections are not necessary for my delivery but the doctors were not ready to proceed for the further treatment without injections. Finally we explained the treatment which we are following and the delivery was at our own risk then the doctor accepted for the treatment. At last I delivered my second child successfully without any complications.

### Experience 3

Afetr my delivery of second child according to uncleji treatment she was very healthy but she had some allergy on her face and on her ears. When I went to uncleji regarding this issue he said there is nothing to worry., days passed on but ther was no change. Doctor suggested me a cream to be applied for the child but the problem has not cured permanently, finally I took her to uncleji, he gave me the treatment to be followed.

I followed accordingly and within 6 months the problem was cured permanently

Life took turn for me. I lost my memory lost my eyesight, my right hand and leg was paralyzed. I could not speak nor understood anything, it was impossible for me to come back and lead a happy life, only the zero therapy made my life again. Now not only me but my family too leading a healthy zero therapy life style.

Today's life

**PRECISION DIAGNOSTICS**  
 A HMC COMPANY

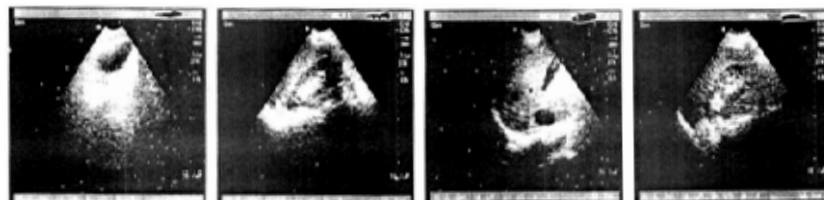

**Diagnosis - Rochester - Study - Date**  
 11/11/2011

Study	Modality	Age	Referral
11/11/2011	MRA	67	Stroke
11/11/2011	MRI	67	Stroke

**CT Comments**  
 The patient has a large, well-circumscribed, hyperdense, extra-axial, crescentic collection in the right parietal region, consistent with a subdural hematoma. The collection is approximately 1.5 cm thick and extends over the right parietal and occipital regions. There is a significant mass effect, including compression of the underlying brain parenchyma and a midline shift to the left. The ventricles are compressed and displaced to the left. No other acute intracranial abnormalities are identified.

**Conclusion**  
 Large, right parietal subdural hematoma with significant mass effect and midline shift.

**Recommendations**  
 Correlate with clinical findings. Consider neurosurgical consultation for potential surgical evacuation.

Respected Uncleji,

Jaiprakruti ! I am Geetha working in Union Bank,Chennai. I was having a small swelling in my throat. I was advised by Apollo hospital doctors to take needle biopsy and thyroid scan. After seeing the medical report, they said it is progressive cancer in thyroid gland and the gland has to be operated and removed immediately ,in July 2007. I heard about you through friends and came to ZERO THREAPY. Seven long years passed, I am maintaining good health and living happily after taking up VEGETARIANISM. Sincere Thanks to Zero Threapy , my Saviour , Guide and Philosopher.

I enclosing my scan report showing papillary neoplasm, medical name of progressive thyroid cancer.

MY SON L . NAMAN CHORDIA 's (dob 20.10.2001 ) CHEEK UNLIKE OTHER CHILDREN WAS VERY ROUGH . WE WENT TO MANY DOCTORS FOR TREATMENT BUT ALAS NONE OF THEM COULD CURE IT PERMANENTLY . SOMEHOW MY WIFE GOT SOME INFORMATION ABOUT UNCLEJI . WHEN WE MET UNCLEJI HE SAID MY CHEEK PROBLEM WAS BECAUSE OF INCREASE OF ACID IN MY BODY . HE SUGGESTED ME TO HAVE MILK AND CREAM ( DOODH AND MALAI ) FOR 15 DAYS . BUT MY CHEEK PROBLEM WS CURED IN JUST A WEEK AND MY CHEEK BECAME SOFT LIKE THE OTHER CHILDREN . I AM THANKFUL TO UNCLEJI FOR CURING MY SON . TILL NOW MY SON 's CHEEK IS SOFT .

My connection with "uncleji and Zero Therapy" started way back in the year 2006. I went to mahabalipuram (50 kms from Chennai). When I returned I was suffering from fever and dysentery. I consulted my family physician. As usual he gave me medicines, after taking the pills my health was degraded. Now he gave me heavy doses, in turn my health went bad to worse. I consulted specialists and other doctors and they said I have developed IBS (Irritable Bowel Syndrome) which has no cure, there was no relief this continued for 4 to 5 months. I had given up and was thinking I have to live with it forever.

Then from doctors I jumped to Ayurveda (many items including milk was restricted) but there was no permanent relief. Meanwhile, my parents were following Zero Therapy and asked me to attend one session. Since I had lost all my hope, I was resisting to come forward. Then I forced myself and attended a Monday session. My turn had come after two long months.

At first glance, me without saying a single word, uncleji said you do not take milk, I was surprised and said yes I do not. He suggested a very simple thing to follow. In a matter of 4 to 5 days I was totally cured. All my lost hope has been revived. Since then I regularly follow Zero therapy life style.

In 2007 – Me and my wife were trying for a second child, but it was long overdue. We consulted two different specialists, they both had different opinions on the same. We were scared of not having second child. When we met uncleji, he said there is no problem at all. In next two months my wife was conceived. We did not take a single pill and no vaccines or calcium and the baby was born on time in good health. The other babies in the same hospital were having jondis or basic problems.

Our second child is born in zero therapy, which clearly differentiate her from other non zero therapy children. Be it study, discipline, attachment and sensible.

In 2009, I went to rajasthan and met one Ayurveda charya, he checked my nerves and said I will never put on weight because I have some critical problem. I was shocked but by then uncleji stopped diagonising people. I did not follow what the Ayurveda charya asked me to take. When I told uncleji about it, he casually said there is nothing to worry, you will put on weight once the body get..... And to my surprise in 2011, I put on 7 to 8 kgs.

In 2010, I was having severe fever and was sleeping in a separate room. One night I fainted and without my knowledge I fell off from the bed, being unconscious and started bleeding on my head for whole night. Everybody panicked and I rushed to uncleji straight away. I told him I was sleeping at the edge of the bed and I fell down, but uncleji did not buy this. In next four to five minutes, he got it diagnosed from my mouth itself. It was a rainy season, all the windows were closed, there was no ventilation and circulation of air. This in turn made me faint and unconscious. Then I took care of the ventilation things fell in place.

Being a strong zero therapy follower, last month I was having regular food even then I had stomach heat. Since ZT makes us to observe, I was trying to figure out I realized that I had a Shimla apple regularly, due to the colour and waxing on it created heat in my stomach.

Thanks to uncleji and Zero therapy which made me who I am today.

NAME: RAJAL S GOLECHA  
GENDER: FEMALE  
AGE: 32

JAI PRAKRITI!!

I'm mother of 3 kids born & brought up under zero therapy!

As Vipin uncle says Zero Therapy is based on principle of KARMA, I shall give credit of being a zero therapy follower to KARMA of my elder daughter DIKSHA GOLECHA. We initially came and attended mandatory 4 Monday sessions to consult uncleji regarding my high blood pressure. We got appointment for 16th January 2007 but since we were traveling to Rajasthan during the same period we postponed our appointment to 16th February 2007 during which period I got pregnant. It was for the pregnancy for which uncle agreed to see me and from that day we converted to zero therapy and are following it since then.

### **1st Pregnancy:**

For nine months I was under zero therapy & followed it religiously. Then I went to rajasthan for my delivery. When I visited doctor around the end of ninth month the doctors started threatening us that the growth of child is very less, fluid level is decreasing and the child can shrink, my blood pressure is very high, etc. However I was pretty confident. I learned from zero therapy that the coconut hat was the because of faith in Uncleji basically. So we decided to wait for the labour pain. We waited till around 9  $\frac{1}{2}$  months. But as I was in rajasthan at my mummy's place and people there are not zero therapy everyone insisted me to do what doctors said. So I had to undergo cesarean. Operation was done & my 1st baby was born normal. She was little under weight ~2.50 kg. (Thanks to doctors!!)

I was in hospital for a week's time & had to take medicines for the period but as soon as I was discharged I contacted uncleji started following his prescriptions & stopped all the medicines. I did not follow the commonly

followed post delivery food for mother but had uncleji's prescribed post delivery food for mother.

### **Coarctation of Aorta**

When my baby for 6 month old every one at home insisted us to get my body check up done so we went to Madras Medical Mission Hospital and met the cardiologist. He asked us to do all the blood, sugar, urine, ECG, angiography, etc test. Later I was diagnosed with coarctation of Aorta. Doctor suggested us to do balloon angioplasty or surgery after which I must be under medicine life long. We went for 2nd 3rd 4th opinion to all the leading hospitals & doctors every body did same tests again, same diagnosis & same suggestion. Looking into all this reports & doctors opinions again the family people started forcing me to do what the doctors said. But during this period one of the doctor said me that I cannot plan a child until I get Coarctation of Aorta repaired the child will be abnormal. And I said him I have a 6 month baby who is completely normal. From that day my belief became so strong in zero therapy that I decided I will die but not get operated or take any medicine. Family people initially insisted but after some time even they agreed to my decision.

### **2nd Pregnancy:**

My second pregnancy was pretty easy as I was already following zero therapy for more that 4 years by now and understood the science to little extent. But as usual doctors to understand it they started telling the same old stories to me but this time I was not afraid to hear all this but I dint have other option too I waited for 9 months 7 days and had to go for cesarean once again as I did not get any labor pain till then.

I gave vaccination to my 1st daughter for 6 months as I was not that strong & pretty new to do science and subject then but this time I dint give any vaccination or medicine to my 2nddaughter. My diet also again prescribed by uncleji for post delivery food for mother.

### **Fever diagnosis of my daughter:**

Once my 2nd daughter got fever and was crying a lot she was also got pretty weak. We took her to Uncleji & Uncleji immediately told us it is because of smell in your house and asked us to take her out in fresh air. We did so & she recovered within hours!!

### **Battery cell Swollen:**

Once my 2nd daughter was playing with a toy mobile and while playing she swallowed a small battery cell. I informed uncleji about it and uncleji said me to give her a banana to eat. Later when she went toilet the battery came out with it.

### **3rd Pregnancy:**

Initially it was difficult time for me as my 3rd pregnancy was unplanned and the gap between 2nd & 3rd pregnancy was very less. We met gynecologist & she suggested us to do avoid this pregnancy as I had already gone thru caesarian twice. Also my second operation was done very recently. I got into dilemma as my conscience did not allow me to do so. But I had do think about my other two children as well. So we decided to meet uncleji. Uncleji said my health is ok & I have the strength to go ahead. After getting these words from uncleji my confidence grew & I decided to go ahead. Nine months went easily. In eight month doctor said that the fluid is decreasing but I said her that the fluid will decrease during this period (learned this from zero therapy).

I went thru operations again approximately after 9 months 3 days. I clearly instructed doctors I will not take any medicine nor should they give any medicine to my child. Doctor was wondering how this lady is so fearless. Thanks to zero therapy when we know the subject we automatically become confident. I kept saying them there is nothing to worry.

### **Fever diagnosis of my 3rd kid:**

Once when he was 10 month old he fell sick. We waited for 2 days but he did not recover. As we were not able to diagnose the reason we went to uncleji. On seeing him uncleji immediately said some of the family members are not at home. We said yes his Dada Dadi are out of station. Uncleji said to give him some toys, play with him, take him outdoor & give him little little dose of food in every 2 hours. Within just 1  $\frac{1}{2}$  day he was all right.

There are several other small-big experiences. We have learnt so much from zero therapy.

No medicine no vaccination:

My third child is now 1 year old. We have not given him or any other kids any medicine or vaccination.

Thanks & Regards

From : Vidhee  
Subject : Jai Prakriti!!!

Jai nature

Name : VIDHEE

D/o : VINETHA & RAKESH

Age : 8 yrs

Diagnosis :

I Vinetha and my family who are patients of "Zero therapy" from last 2 yrs, want to share my daughter Vidhee's experience to one and all.

"Vidhee" was a "BLOOD CANCER" (acute lymphoblastic leukaemia) patient from 2003 to 2005. At that time she was just 2 1/2 yrs old. Her disease was diagnosed at "BRS Hospital" at Chennai. We immediately plan to

go to "CMC" hospital at Vellore, which is the No. 1 hospital for Cancer patients. There again she had some testings and diagnosed as "ALL" patients. "Chemotherapy" the treatment for Cancer patients was immediately started for her.

During chemotherapy she suffered a lot of problems. Often she had Blood test, LP and Bone Marrow tests. She was donated blood and platelets, then her haemoglobin and WBC were not increasing. She lost her "Immunity" in this treatment. The surroundings, open air, Everything started Infecting her. She lost weight and became weak. So doctor's suggested not to allow

her to go out of hospital, Can't meet  
Visitors, must wear Mask regularly, must drink  
boil water and have fatty products. Seeing  
her suffering, I as her mother was also going  
in depression and lost hope.

After treatment, we were back to  
our home, but "CMC" doctors didn't gave us  
guarantee that she is fully cured. They doubted,  
the disease might "Relapse", So necessary steps  
have to be followed. Like

To wear mask regularly,

To drink boil water,

Can't Mingle or go to public places,

To restart Immunisation Vaccines.

At last, we were not free and the fear of relapse was moving around us.

Hospitalisation:

Vidhee lost her resistance power, so she often got infected and had fever. Every time she was given antibiotics and was hospitalised. Every month was having regular blood testing. She was hospitalised at "Child Trust Hospital" at Nungambakkam for fever and was given drips and antibiotics.

Seeing all this I was very upset and my daughter Vidhee was not moving freely like a free bird.

to attend sessions. There, I understood the following Concepts of Zerotherapy.

"Zero therapy is a treatment of body and not of any particular Organ."

"Your body is your best doctor"

"What matters to the body is what goes into the body."

I got all this points in sessions only. Even I came to know how medicines are harmful to us. Medicines stays in our body for 10 yrs. The big thing I came to know in the sessions is —

"Cancer is rotting, but the formation of dead cells - If you disturb them, they

will create problem, so live them without disturbing."

We both were pleased and decided to cure our daughter according to Nature's Theory and not by medicines.

From here, my life race started in this therapy. Firstly, I applied for myself in this therapy. After a hardwork and struggling, I got appointment. My treatment was started. I Experienced this therapy on myself, so that I can understand its "ratio". I was cured and was jolly satisfied with it. Then I applied for my daughter Vidha.

Vipin uncle accepted her application

Physiotherapy + Reiki :

In fact Vidhee was given both this treatment for many months. Hence there was no health improvement and she was as usual like before.

"ZERO THERAPY" =

The first Introduction given to me and who motivated me towards Zero therapy was the person name "Deepak Parekh".

My mother-in-law was a Zero therapy patient, but me and my husband were not convinced to her. We were not able to understand the concept of Zero Therapy.

One day my mother-in-law had severe

backpain. As a Emergency patient she wanted to go Zerotherapy clinic, So I joined her. There I was surprised to see so many patients who were getting cured without medicines. Simply I asked one of Zerotherapy's Volunteers name Deepat parekh, what's special about this therapy? The way he explained in just 2 minutes, I was convinced and Contemplated on what Ever he said.

First. I alone was attending the Monday sessions, because my husband was not prepared for the treatment that is without medicine. Slowly I started sharing the sessions with him. Day to day he also joined me

And started her treatment. He stopped all her restrictions like wearing mask, drinking boil water, not going out, fatty products, and no vaccines at all.

Recovering was so fast that she gained weight naturally and got back her immunity. She was allowed to join swimming also. Vidhee was very happy because she was doing everything like her brother. She was moving freely and started blooming like a flower.

During Zerotherapy treatment, Vidhee had twice or thrice fever, but she was cured without medicine and no need

for antibiotics and hospitalisation. My in-laws were surprised to see this and my confidence in this theory was becoming deep.

One day Vidhee had bleeding from her nose. Vipin uncle handled so smoothly, that within 10 minutes it stopped bleeding. Vidhee was perfectly alright.

One more time my "son Mannan" and "daughter Vidhee", both had "boils". They were cured within 15 days, that to no fever. It was cured naturally, and without medicine. It ~~was~~ was unbelievable.

After entering Zerotherapy, My family has not visited any doctor or any

hospital.

The diagnostic style is so instant and perfect in every style in Zerotherapy that looking at my daughter itself, he (vipinji) is able to judge the disease which is beyonds anyone's imagination. As we are with Zerotherapy for plus 2 years, it has happened several times and we are happy to be part of it.

My daughter's rebirth was in Zerotherapy only. Vipin uncle gave her new life and new life style to live pleasantly in her own way and to admire and Enjoy the beautiful

World without any hassles.

We are proud and great  
to say we belong to Zerotherapy.

Yours faithfully,

Vineetha.  
Rajesh

I am following zero therapy since 8 years.

I basically joined zero therapy for my son, after which I turned into a zero therapy follower. The experience I want to share is about BHAVANA. One day I and my husband visited uncleji for some problem of my husband. Uncleji asked us if we had the same breakfast that day and if we had something which is not allowed in zero therapy. And yes, that we both had the same breakfast and thus my husband had that problem that day. The second experience is that recently I hurt myself on my hand and legs. The hurt was on the bone but since we don't visit doctors I dint do anything. I did nothing for the hurt, and it automatically got cured within 15 days. After coming into zero therapy one thing has improved more and that is harmony, now there is a lot of Harmony between me and my husband and our thoughts also match many a times.

The Experience that I want to share with all of you :

Firstly, my sister- in -law's -son had a severe problem of nose bleeding which couldn't be controlled. However she was living with her family in U.S.A she consulted many doctor's about this problem but it all showed no improvement or effective result. I often used to talk about uncle's treatment to her over the phone, so one day she requested me to take this problem to uncle to see if he could bring about any change. I consulted uncle and he asked me to make my sister - in -law talk to him. She called him from U.S.A and told him all the details regarding her son's problem of nose bleeding. Without even looking at the boy's face or knowing anything about him, uncle suggested a remedy where he advised her to give certain food stuff\* to him. Without any delay she tried the aforesaid food stuff and believe it or not, within 4 days this problem has stopped and it hasn't occurred ever since. Thus, without giving medicines and only by a mere advice of food stuff uncle was able to cure this problem.

**Zero Therapy पर मेरा निवेदन**  
**एक सच्ची श्रुति (अनुभव)**

'मैं' स्वयं एक डॉक्टर हूँ। लगभग 30-35 वर्षों से महाराष्ट्र के भंडारा जिले, जलगाँव में ~~एक~~ वैयक्तिक व्यवसाय (Medical Practice) संचालित कर रहा हूँ, अभी 10-12 वर्षों से आर्जेंट होमियो में ही उपचार करता हूँ। करीब 15 वर्ष पूर्व (2008 में) Zero therapy से जुड़ा - निमित्त मेरी धर्मपत्नी (my wife) से सुस्वास्थ्य के स्थापना के कारण था। उनको ~~Antibiotic of Cerebellum~~ (जेन का (हिस्सा) विकृत हुआ है) इसका पुरे ~~दुनिया~~ विश्व (World) में कोई इलाज नहीं है। हमने चेन्नई आकर (2008 में) चार month का सेशन जेनेटिक्स, आरजेनोसिफिकल के निवेदानुसार, स्नायु तंत्र में बदलाव, Life स्पॉट में सुधार किये, कुछ ही दिनों (कुछ ही जल्द) हमें इसका सुपरिनाम दिखाई दिया. ~~Wine~~ की प्रकृति (स्वास्थ्य) में सुधार आने लगा. इससे हम बहुत ही प्रभावित हुए। तबसे लगाकर आज तक 2 Zero Therapy का ही पाठन हम कर रहे हैं। विशेष बात यह है की, घर में 'दवाखाना' होले हुआ, हमारा एक मेडिकल स्टोअर्स भी है। इसके बावजूद 15 साल से किसी भी दवा का इस्तेमाल (खेतन) नहीं किया, और करना भी नहीं पड़ा और आज तक पिछले कुछ वर्षों की उपहासे (जहाँ उनका दवाओं से इलाज चल रहा था) स्थापना अच्छा है।

दुसरा अनुभव - 'मैं' स्वयं लगभग 25 वर्षों से 40+ (गर्भव) के प्रकोप से (बिमारी से) परेशान था, Medical Field में होने से सभी पेशियों के (आर्जेंट होमियो, ऑलोपैथी, नेचुरोपैथी) विशेषज्ञों से परामर्श (Advise) ट्रीटमेंट ले चुका था

P.T. 0

## II (2)

किसी से भी अपेक्षित सफलता नहीं मिली।  
 डॉ. पी. के. इराज के दौरान मैं अंकलजी को मेरी  
 समस्या भी बताई - अंकलजी ने दि. 15 जनवरी  
 2011 को (भद्रावती) शांदकजी में मुलाखात के  
 दौरान मुझे परामर्श दिया तबसे आज तक  
 करीब चार वर्षों से मैंने 2000 Therapy को  
 अपनाया - शुरू शुरू में मुझे भी काफी कठिनाई  
 लगी, समझाया आती, कुछ तकलीफ होती तो  
 मैं परेशान हो जाता, धबरा जाता, बच्चों की  
 दवा तो लेनी नहीं है, मुझे मेरा इलाज भी  
 नहीं करना है इसलिये उरें बना रहता, फिर  
 मैं बारबार अंकलजी से टेलीफोन पर संपर्क  
 करता, और हरबार अंकलजी मुझे नहीं परामर्श  
 देते, समझाते, मैंने अंकलजी को बहुत परेशान  
 किया है - नया की इस 'सायन्स' को समझने  
 और सिकार करने के लिए - राही मुझ-बुझ -  
 प्रकृति के नियम, सही गलत का ज्ञान, स्वभाव में  
 सरलता, दृढ आत्मविश्वास, प्रबल मनोबल, मन की  
 उदारता, एक दुसरे को समझने की मानसिकता,  
 एक दुसरे के प्रति स्नेह, विश्वास, अपसी भेदजोख  
 दुसरो के प्रति - प्राणी मात्र के प्रति भेदही, परस्पर सहयोग  
 दुसरो के सुख, दुःख, अच्छे बुरे का एहसास इतना  
 सब होना चाहिए, लगता कठिन है, लेकिन  
 2000 Therapy में यह सब संभव है / 2000  
 Therapy सिर्फ 'खानपान' शारीरिक इलाज अथवा  
 बदलाव ही नहीं संपुर्ण जीवन बदलने की सर्वोत्कृष्ट  
 पद्धति है, इससे हमारे मानसिक लक्षणों में भी  
 बदलाव आता है। हमारी जीवन शैली (Life Style)  
 का स्तर ऊँचा और समृद्ध हो जाता है।

R.T.O

और यह संभव है, क्यों की यहाँ हमारा आधार शुद्ध और सात्विक प्राकृतिक और मर्यादित होने से हमारा मन, नमन, क्रम, तिनो योगों की शुद्धी हो जाती है, इसलिये बिमारी तो क्या? मनमें भी बुरे विकार (विचार) नहीं आते और 2000 Therapy में रहते हुए मने इन सभी बदलावों को अनुभव किया है। व्यक्ति ~~के~~ मानसिक शारीरिक (Mentally & Physically Fit) स्वस्थ रहे तो उसका स्वभाव, आचरण (व्यवहार) बताने भी अच्छा निर्मित रहेगा इससे परिवार, समाजमें हमारे प्रति, आस्था, विश्वास एवम् जादह बढ़ता है, हमारे व्यवहारमें सरलता, सच्चाई, स्पष्टता आनेसे हमारा व्यवसाय भी विश्वसनीय एवम् वृद्धिगंत होता है। इन सभी बातों का मने महसूस किया है, साथही हमारी व्ययव्यक्तिक बुद्धिबुझ, क्रियाशक्ती, मनोबल, (आत्म-विश्वास) मनकी एकाग्रता, आकलन शक्ती, शांत निद्रा, निर्णायक शक्ती, रवस्था चिंतन, बढ़ते हैं। क्रोध, गुस्सा, बुरे विचार कम हो जाते हैं। मैत्रीभावना जागृत होती है, मनमें उदारता, विशालता आने लगती है। ये सब धार्मिक और अध्यात्मिक दृष्टि से भी श्रेष्ठ है - विश्वास नहीं होता ना? आपको मेरी बातों पर! आप भी अनुभव कर सकते हैं। शुभस्य शिक्षण! - आत्मशक्तता है इहं मनोबल की - सत्य एवम् प्रकृति के नियमोंको समझने की एवम् सत्यको स्विकारने का साहरा अपने आप में जगाने की -

सद्यन्वयाद्! शुभ कामनाओं के साथ  
'सत्यमेव जयते, जय प्रकृति!'

Uncle can diagnose the problem just with the help of the nature without depending on any therapy I have personally experienced the same.

Once during the month of may I had urine problem. I had an urge of urinating however it did not come. Because of this there was a pain for a long time. Finally I decided to call uncle. He said because of the heat it led to this problem. He told me to take misari \ jeera water and within an hour the pain subsided and I could urinate.

Jai prakriti

Zero therapy is the soul of health

We are in zero therapy since 2004. My son was studying in UKG, he was suffering from fever every 15 days. He was not into zero therapy. He was on medication of injections and tablets every fifteen days because of his fever. We attended a no medicine session by uncleji at dadawadi in the year 2004. After that we went to uncleji's office and he diagnosed that my son was suffering from urinal infection because of which he was having fever continuously. From that day, he was alright. My daughter is a fully zero therapy baby, born and brought up in zero therapy. I find a very big difference between my two kids because of non zero therapy born and zero therapy born. Even though my son is brought up in zero therapy but being born in zero therapy my daughter is very sharp. My wife went to brother in laws home and she ate sweet corn, after which after 10 days she was suffering from skin disorders. After which we went to uncleji, he diagnosed instantly by seeing her tongue that she ate sweet corn. Even though she forgot but by seeing her tongue, he diagnosed and she was cured. In the year 2012, august, I got sudden back pain. I was unable to get up from bed. It took nearly 2 hours for me to get up from my bed. I went to uncleji, he diagnosed instantly that I drank soft drinks. Actually what happened was before the start of paryushan I drank one masala thumps up, I suffered a lot for more than 15 days but as soon as I went to uncleji he diagnosed and I am alright now. When my wife pregnant for the second time, her hemoglobin was below seven, so the doctors told that there is more need of blood and it has to be put externally, and then we went to uncleji, we followed his guidance and her came back to normal and she gave birth to a girl in a normal delivery. My daughter was suffering from 104. Fever, we went to uncleji, by just having a glimpse of her he told us go to kasi chetty and buy a toy for her. We did the same and as soon as we came back home from kasi chetty,

she was normal. Because of zero therapy I share a very good bonding with my life partner , even though I don't say anything , but what I think is already done by her. As uncleji says BHAVANA plays a big role, I myself felt that its only the BHAVANA which connects with the universe and performs action without even saying a word. I feel privileged being in zero therapy with my family because it is the finest lifestyle one can have in this whole universe.

I'm in my fourth year of zero therapy. Till the age of 40 I have suffered so many problems like typhoid, malaria, throat pain, cough, knee pain, etc. I have taken tablets for thyroid for 2 years and for BP 6 months. I tried every way to clear all the problems. I did exercise for 20 years for my back problem. I have taken ayurvedic medicines, homeopathy, acupressure, acupuncture. There was no problem which I haven't suffered. I had pus in my ear from 30 years. I got my ear operated but it was still there. I also got my eyes operated. The doctor also wondered what medicine to give. I had side effects of every medicine I took.

Now after coming under uncleji I feel like I'm blessed with a new life. I just heard uncleji s meeting and started following. I first stopped eating cucumber, which solved many of my problems. I couldn't speak a line continuously, as it caused a bad head ache and my breath stopped. Now I can talk for hours together. Slowly, I stopped eating whatever was not allowed. I'm completely fit and fine now all because of uncleji.

When I got introduced to Zero Therapy in 2004, me and my wife had been suffering from asthma for the last seven years. We would visit the doctor almost every week, either for my wife or myself. We were taking medicines, injections and inhaler – the dosage and frequency increasing over the years.

We felt constantly under stress and the body seemed to be always hot and weak.

One my friends, Bharat Nahar, told me that uncleji sees people in Govindappa street, and immediately we went in for appointment as we were fed up with various medicines over the past so many years.

Me and my wife attended the sessions, as attending them was a pre-requisite for getting an appointment.

After coming here we understood that it is not a treatment but a basic science...it is a super diagnosis.

When we got an appointment Uncleji said, "near your house two things will be there – either a hardware shop storing cement or a carpentry shop". Both these were true in our case. The simple solution was to close the windows facing the shops. We started the Zero therapy diet, following the No's, changing our life style according to what we learnt from the sessions and within six months we were feeling stress free and happy.

I did not have any children for twelve years after marriage and we had taken heavy medicines for the same. Uncle ji said the reason for being childless was the het in the body due to medicines. Earlier the doctors used to say that we have allergy, or there is a reaction...but after coming here we understand that its not true, because the body is the same but we no more face those problems.

For a period of six years we were having medicine like food. We tried every thing from Allopathy, Ayurveda, Homeopathy and various home remedies. Specialist doctors for Asthma and Allergy were consulted one after the other. After coming here we have forgotten medicines and doctors.

Over the years in Zero therapy there have been many dramatic experiences of zero therapy. Once my daughter fell down in school and first aid was applied in school. Exactly where the first aid had been applied, there was a swelling. The next evening we took her to uncleji, and after following Uncleji's instructions, the swelling vanished overnight.

My daughter also had an eye injury in school. A fellow classmate had accidentally pierced a pencil in the eye, and over a period of two to three months we found out from the biggest eye hospital of Chennai, that the vision in that eye had gone. Uncleji asked her to do an eye exercise with a lamp. She followed it for a couple of months and the eye recovered completely.

What I have experienced from zero therapy is that this is the ultimate science, its not magic... this science is there from the advent of human life, but we have forgotten about it. It is the ultimate therapy and not alternate therapy. When we come near to nature, we are happy. When we move way from nature we are facing all these problems of modern life.

Jai Prakriti,  
Subhash Rathi

I joined zero therapy nearly one and half year ago. I used to visit uncleji with my husband .Once I had a bad ear pain , when I consulted uncleji, he asked me if I had pickle the previous day. And yes I had pickle. I had my periods problem as well. Only when I took medicine my bleeding was normal. But now without medicines it is in control. After coming to uncleji everything has come to normal. Once I had head ache from 15 days. When I consulted the doctor he asked me to get the scans done and scared me of the clot or nerve problem in the head. When told all this to uncleji he told me this is just because of the agarbatti . From the next day there was no such head pain after I stopped the agarbatti sticks . I had a problem of fissures , after coming to uncle ji, having the proper food, the problem which I had from past 16 years was cured. One day I told uncleji that I had my periods regularly this month. He immediately told the next month I won't get it regularly because of the tension I had of my mother-in-law, she was ill. And that truly happened.

At the age of 7 years my teeth were basically just black colored triangles as they were so badly rotten. After getting introduced to ZERO THERAPY and following the very basic guidelines such as avoiding chocolates , junk food , coffee, biscuits , toffees , garam masala etc., my health conditions improved a lot . I now have properly aligned secondary teeth , all white and in proper shape as well . Under the influence of ZERO THERAPY I saw a lot of changes in my behavior as well . The harmony at home was just perfect with everybody understanding each other's point of view very well. There have been quite a few instances when I got fever and when we went to uncleji the next morning , we would clearly get to know where we had made a mistake . Immediate diagnosis is the best part of ZERO THERAPY . it is astonishing to know that one small mistake in eating habits made years back , or maybe when you were very small can affect you someday when u grow up . at the age of 14 I got my periods and till date it has been coming regularly and perfectly (it's been 5 years now ). I once got a deep cut on my feet (1.5 cm ) and the doctor had asked me to get it stitched immediately , but when we consulted uncleji , all what I had to do was to rub a little ghee on it for 3 days and eat badam mishri , kheer and not put much pressure on the leg while walking . after 10 days, the cut closed on its own . and now there are no marks on my feet as well . I have been in the pink of my health and gained weight as well . I have no acne problems and I'm physically fit as well .

Dear Vipin Uncle,

Happy Morning !!! Wishing you Most & More...

Personally, It has been a great association with Zero Therapy.

I was introduced to Zero therapy at 2010 Dadavadi Seminar. I heard the lecture of Vipin Uncle wherein he mentioned that Badam ka seera is not tested in laboratories. Sweets & Ghee are essential part of once body.

One of my profound experience, i wish to share is that some time at the mid of year 2010, i remember once i was down with fever for 2 days. It was then i father told me that we should meet uncle ji. When i met him, he said it just fever, Your Dirt of your body is coming out. Then onwards, I have not taken any medicine for whatsoever conditions.

It s been four years since this life changing experience. Ever since, it get to know my body, it needs and requirements. I am more confident now.

I am happy to be associated with Uncle Ji & Zero Therapy.

I attended the seminar of 2010 @ dadawadi. I was taking bp medicine for 10 years then. I follow zero therapy life style and not taking medicine for last 4 years.

I used to get angry often. Now I have control and have lot of peace. My confidence has improved lot. Once my right hand thumb nail got removed accidently. Then I came to vipin uncle. Uncle said nothing to be done. Just go home clean and apply some ghee over it and asked me to est some items. It got cured within a week time.

Once my right hand got burned and I had to leave for Rajasthan next Day. I chief with uncle if I can go. But uncleji said you can go and asked me to follow certain instructions. i got confidence and also got cured in 5 7 days.

By following zero therapy lifestyle my confidence has increased tremendously.

Dear .....

Name : Mukesh Kanakaria

I learnt about zero therapy from Lalit Chorida my brother in law, in the zero therapy seminar

I attended Zero Therapy monday session

Problem:

My wife had continue eye burning sensation

Diagnosis by Uncleji

He said absolutely there is nothing in the eye and it is only mind set

To my surprise within a week the absolutely normal and burning sensation

Since then i have been following lifestyle as advised in the website and on monday session

We are happy

I joined zero therapy around 10 years back. The major problems I had were my periods and my nails. My nails used to get black & I did not get my periods properly. After getting in touch with uncleji these problems got cured. My weight has increased . Before coming to uncleji people used to ask me often if I was not well, but now my health is fine.

From : Shankarlal Jangid  
Subject : Regained Vision

## **Regained Vision**

I would like to share my experience with Zero Therapy, as below :

About 1 1/4 years back, all of sudden, I could not see anything properly. When I consulted an Eye surgeon at Sowcarpet, he examined my eyes and informed I might not regain my vision but however, recommended my case to another familiar Eye surgeon at Vadapalani, who had, after examining my eyes, 2 pillows beneath my neck while sleeping and if no improvement is observed, he would give Laser Treatment. As there was no improvement for more than a fortnight, he gave laser Treatment. Even after this, I could not see anything properly and when consulted the above surgeon, he had informed it would take 3 to 4 months for improvement in my vision but there was no improvement at all.

Meanwhile, I heard about the Zero Therapy offered by Shri. Vipinji, respectfully known and called as Uncleji.

When I approached the Zero Therapy Centre, I was advised to attend at least four seminars conducted by Zero Therapy Centre every week, which will give a picture about the Zero Therapy.

Accordingly, I had attended four sessions conducted by Zero Therapy Centre and afterwards Uncleji began offering treatment.

What a Surprise

Within a fortnight of commencement of treatment by Uncleji. I observed very good improvement in my vision.

Really and Honestly I would like to say, I find no suitable word to express my joy. Under the treatment offered by Uncleji under Zero Therapy, I regained my vision and now I am absolutely alright.

At the first instance, when I lost my vision and abandoned by the Eye surgeons, I felt, "I am Dead" as most important organs could not function properly and without vision, I cannot survive.

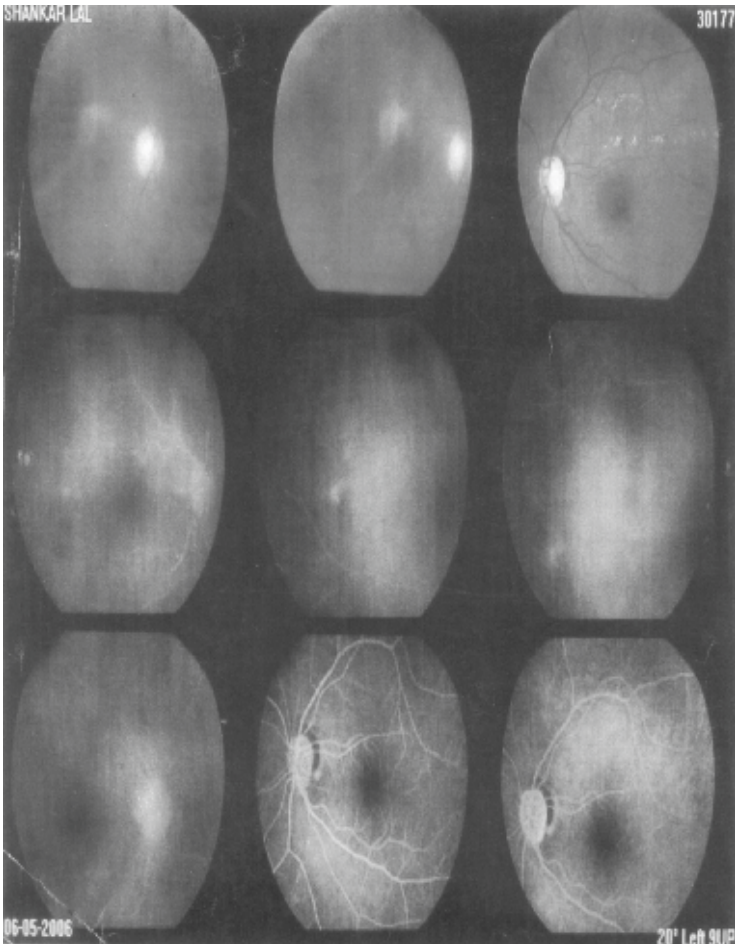

But God came to my rescue through

Uncleji of Zero Theraphy Centre, who regained my vision. No doubt, without the mercy at uncleji, I would have not survived and thus uncleji is god to my family.

Jai prakrati

I am rajesh kumar sharing my expirience

Ph. No. 09884796969.

My self Rajesh Kumar aged 43 years want to share some of my experience which i experienced under zero therapy.

My medical history:

I had a strong friendship with allergy as well as cold due to allergy from dust, polluted air, and excess

laughing in this last eight to ten years. Even i had to cope up with my skin allergy from last three to four years, which in means of doctors is due to in take of citric fruits so, i have to stop consuming citric fruits. Heavy acidity and headache is, just like regular routine work for me.

**Treatment i take:**

I use to take allopathic drug which gives me relief but not cure for all my above problems.

**My hospitalisation:**

Two years back i have been hospitalised with one of the chennai's biggest hospital for the treatment of jaundice due to inflammation in gall bladder. I have been treated at the hospital for one week, after which doctor suggested me to remove my gall bladder. Otherwise again i will have to fight with jaundice. I was very scared at that moment because i fear from surgery so i said no to that and came back home.

after coming back home i was been suggested to take zero therapy for treating my jaundice problem.

### Results from zero therapy:

- From the day i started my treatment with the help of zero therapy jaundice have not struck back as mentioned by the doctors
- I never had the acidity, headache and any kind of allergic symptoms.
- My weight has also been improved by 4 kg.
- My pocket weight has also improved as i do not have to spend any more on wrong treatment.

### Knowledge which i gain in monday sessions:

- "Half the knowledge is always risky hence do not take home remedies without knowledge.
- Morning walk on chennai beach is not advisable.\*
- Instead of doing the patch work with body parts we should take care of whole body system.
- Our body is our best doctor.

---

***Comment : Due to salt in air morning walk on the beach not advisable. Can walk in Garden, away from the coast.***

Subject: My experience

March 2012 was the last time I saw myself enjoying a normal life. I suddenly woke up one day to find my hands n legs not working completely. They had no strength at all. I could not do anything on my own. Couldn't even sit n get up from the sofa. Then started a series of tests and medicines which went on for two years. I went through a blood test every alternate day but nothing came in my reports. I went through a series of painful tests where they did biopsy which was cutting a sample of my deep muscle flesh and giving it for testing. I got EMG test done which was injecting needles into different parts of your body to check it's strength.

My parents did everything possible they could. Took me to the best doctors. Send my reports all around the globe. But all doctors said the same thing. None of my tests gave any pin pointed result and all the doctors suggested that I take steroids. Having realized I had no other option I took steroids for two years. I was at a stage I was taking 18-20 tablets a day. Even after taking very strong pain killers I had severe pain in my body. During this time twice I was diagnosed with typhoid. And my body jus kept becoming more and more weak. May 2013 I was admitted in Manipal hospital on an emergency basis because the doctors realized

my WBC count was dropping by the hour and it had reached a life risking situation. I was given 750mg steroid shots for 3 days. Even after taking so many medicines and meeting so many doctors I saw no improvement in my health condition. I had so much weakness I couldn't even walk 10 steps together. I used to be lying in my bedroom all day. I'd given up hope that I would ever get back to normal. During this time I saw myself breaking mentally, emotionally and physically. I lost my confidence and I was slowly going into depression. I have always been a very outgoing person. It was very difficult to find me at home. I've always loved doing events and dancing. And because of work and choreography I used to be out most of the day, very active and always on my toes. But in these two years I saw nothing but my room and hospitals and doctors.

After losing all hope and trying all sorts of doctors and medicines I had slowly started accepting my fate that maybe I'll never be ok again, I'll never lead a normal life again. Like they say it's takes a second to change your life. Like how good times don't last forever neither do bad times.

My cousin brother saw me in dec 2013 only to realize in what condition I was. My brother is a strict follower of Bipin uncle(UV) and he has been following him for many years now. When my mom told him amount me he insisted that i come and meet uncle once. I was lucky and fortunate that uncle agreed to look into my case. I met uncle for the first time in feb 2014.

When uncle saw me the first thing he said was I had absolutely no problem and had I not gone to the doctor and taken steroids for two years I would have been completely ok. He said 3 things which could have caused the stiffness in my body. He said the previous day either I had something cold like ice cream or I had some cucumber intake or I came home from outside and washed my feet with cold water before sleeping. He said that because of the medicines side effects my muscles have become weak then it affected my bones and finally it affected my skin. Once the diagnosis was done we started with the treatment. For the initial first week uncle asked me to have 1 spoon of warm ghee in the morning. When I started this my eyes were constantly burning and watering. I guess it was to remove the heat of the medicines from the body. Then he asked me to have rabdi. Rabdis calcium content was to increase the strength of bones. Then he asked me to have badam ka sera, dal ka sera, besan gatta, boondi in milk, dal baati, gajar ka halwa, aloo

sabzi, motipak, khichdi with ghee, besan bhajiya and a lot of other food items to increase my body's strength. For my skin he asked me to have a bath with fresh paneer water everyday and to stop using any cosmetic products. I have been following this diet and this lifestyle for quite sometime now.

Since then my life has been completely different. It's like I've started a new life all together. I stopped all medicines. No more side effects. No more throwing up everyday because of acidity of medicines. Uncle just gave me a list of do's and dont's and I've been following him for the last 6 months now. And what do I see today... I see a stronger me a happier me. I've started gaining my strength slowly. I've slowly started getting back my lost confidence. I've started getting back to normal life have started doing my own work. From being totally bed ridden for two years now I've started going out meeting people travelling alone. If not for uncles guidance I would still have been taking medicines and ruining my body.

I would just like to thank uncle. For me he has been like a god sent messenger and transformed my life completely. I don't know how uncle knows what mistake you did in your diet and what went wrong. It is some science that none of us understand apart from uncle. But I know one thing for sure today that it works wonders. I completely trust his method of healing and I know if I continue on this path very soon I will be completely ok just like I was before or maybe even better.

---

***Comment : She has accepted to share her experience on 24-12-17 after having completely changed for the better.***

Jai Prakrati

I am Rajesh kumar from chennai wanted to share my experience about DIAGNOSE I witnessed at ZERO THERAPY by VIPINCHANDJI.....

My daughter was hospitalized for stomach ache and vomiting problem as my family doesn't follow ZERO THERAPY. There she was treated for 4-5 days. After discharge when I took her to unclesji , by just seeing her he told that her intestines were got shrunked. And few days later by CT SCAN doctors found the same problem but the difference was UNCLESJI diagnosed by just seeing the face and it took crores worth machinery and my money in thousands for DOCTORS to diagnose the problem.

Kavita. A. Jain,  
Kamal Traders,  
384, Mint street,  
Bowbazarpet,  
cb - 79.

Jai Prakrati,

I'm blessed to be the part of  
ZERO THERAPY KUTUMB and thankful to Uncleji,  
the founder of Zero therapy for giving me a new  
life.

I'm following zero therapy from  
Post 8 yrs, and have many time ~~experienced~~ Experienced  
<sup>Uncleji</sup> diagnosing power.

Now I am going to share you  
an incident which was a turning point of  
my life.

After 6 months of my married life  
I conceived, as I am and I was the  
follower of Zero therapy and was very much  
aware of Zero therapy baby, I didn't take  
any Iron or Calcium tablet. I followed the  
No's of Zero therapy and my body was  
Perfectly fit.

In my 5<sup>th</sup> month, due to some complications doctor recommended me to take bed rest and prescribed some medicines. I didn't take medicines but took bed rest due to family pressure.

I came to Chennai in my 7<sup>th</sup> month and went to uncleji. He saw me and diagnosed that my father in law is a smoker which is affecting my body. Anyways I followed proper diet.

Once again uncleji diagnosed that since I took bed rest I didn't get labour pain and had to go for cesarean.

After my delivery due to over dose of medicines, I was not able to eat anything and had continuous vomiting headache, not able to feed my child due to luts in my nipples.

Finally I took medicine to stop vomittings and headache which reacted

and I got fits in the midnight.

Next day I went for an MRI, which showed a blood clot, I lost my memory, I was not able to speak, could not recognise anybody and my right side of my body was paralysed.

Then my family took me to Doctor Deepak Arjundas in Mercury Hospital and after 7 days doctor told to go for a surgery.

Meanwhile in my sub-conscious mind, I realised that once uncleji told in session, injection affect body ~~and~~ a lot and I started fighting with doctors, hitting them with my hands and legs, as was not able to speak.

Then my family members and husband understood my strong belief and took me out from the hospital

It was shock for everyone that I was almost ok in 25 days.

I got my treatment by uncleji without meeting him and its a miracle in itself.

I am once again very much thankful to uncleji for giving a new life.

THANK U VERY MUCH - Kanta Gony

NAME: MRS. KAVITHA

AGE/SEX: 24/F DATE: 17.06.2011

## CT - BRAIN

*Sagittal axial CT sections of brain employing 5mm slice thickness in intertentorial region and 10mm slice thickness in Supratentorial region.*

### THE STUDY REVEALS

Hyperdense hemorrhagic infarct seen in left temporoparietal cortex, subcortical and deep white matter with surrounding perilesional edema. It causes mass effect with effacement of ipsilateral lateral ventricle and midline shift of 12 mm to the right.

Rest of the brain parenchyma appears normal.

Basal cisterns and cisternella appear normal.

Sella, sphenoidal and petrous parts appear normal.

No evidence of abnormal soft tissue calcifications.

Visualized portions of the paranasal sinuses and orbits appear normal.

Bony skull base and skull base appear normal.

### IMPRESSION

❖ Hemorrhagic infarct in left temporoparietal cortex, subcortical and deep white matter with surrounding perilesional edema and mass effect with midline shift.

Compare to the previous study dated 10/06/2011, increase in size of hemorrhagic infarct and the mass effect.

Suggested clinical correlation

**FEMALE - ABDOMEN**

## REALTIME B MODE ULTRASONOGRAM OF ABDOMEN

**Liver:** Normal in size and normal echo texture. No mass lesion.  
portal vein and common bile duct normal. *calyceal speck noted in right lobe of liver*

**Gallbladder:** Normal. No calculi or wall thickening.  
No echo pericholecystic fluid collection.

**Pancreas:** Head, body and tail normal

**Spleen:** Normal in size

**Right kidney:** 9.3 x 3.7 cm

**Left kidney:** 9.29 x 4.16 cm

Both kidneys are normal in size and echotexture. No calculus.  
cortico medullary differentiation maintained.

**Rif:** normal

**Lif:** normal

**Bladder:** appears normal. *Empty*

**Uterus:** x cm

**Endometrium:** measures \_\_\_\_\_ mm in size. *Asale*

**Myometrium:** is homogeneous

**Right Ovary:** x

**Left Ovary:** x

**Cervix:** Normal.

*Post use status*

### IMPRESSION:

- NORMAL STUDY OF LIVER, GALLBLADDER, SPLEEN, PANCREAS, BOTH KIDNEYS, BLADDER, UTERUS AND BOTH OVARIES.

## CT - Neurocranium

### Study protocol:

Axial 5 mm cuts were obtained from the base of the skull to the vertex.

### Findings:

- ❖ A hypodense area with areas of hemorrhage within it, is seen in the left temporo-parietal cortex.
- ❖ The left transverse sinus appears enlarged and hyperdense.

Rest of the cerebral hemispheres, brain stem and cerebellum demonstrate normal attenuation without focal abnormality.

The basal ganglia, internal capsule, corpus callosum and thalamus appear normal.

The cerebral ventricles are normal sized and symmetrically arranged.

The cisternal spaces appear normal.

The interhemispheric fissure is centered on the midline.

Sella and pituitary are normal. Parasellar structures are unremarkable.

There are no abnormalities in the cerebellopontine angle areas on both sides.

The paranasal sinuses and mastoid air cells in the sections studied are normally developed, clear and pneumatized.

The orbital contents are unremarkable.

There are no abnormalities in the calvarium.

## MRI Report - Brain With Venography

### Technique:

- ❖ Axial T1 FLAIR, T2 FRFSE, GRE
- ❖ Sagittal T1 FLAIR
- ❖ Coronal T2 FRFSE
- ❖ Axial T2 FLAIR and Diffusion b = 1000 sec/mm<sup>2</sup>

### Findings:

- ❖ The study reveals a large venous infarct in the left temporo-parietal lobe. It displays predominant isointense signal on T1 and mild hypointense signal on T2 weighted images. Patchy areas of restricted diffusion are seen within. Areas of blooming are seen on GRE indicating hemorrhages.
- ❖ Mass effect is seen in the form of effacement of regional cortical sulci / gyri, perilesional edema, effacement of left sylvian cistern, compression of occipital horn of left lateral ventricle and mild midline shift of 1.5 mm to the right.

The posterior fossa shows normal cerebellum. The fourth ventricle shows normal size, shape and position. Both the C.P angles are clear. The orbits and their contents are normal.

The medulla, pons and midbrain show normal signals in both the sequences. Rest of the basal cisterns is normal. The pituitary gland and optic chiasm are normal.

The third and lateral ventricles are otherwise normal in size, shape and position. The thalami, basal ganglia and internal capsules are normal on both sides.

Rest of the cerebral hemispheres show normal intensities of grey and white matter. The extra cerebral spaces are clear.

## MR – Venography (Brain)

MR venography of brain is done by 2D TOF technique and correlated with axial, sagittal and coronal reconstructed images.

- ❖ No flow signal is seen in the left transverse, sigmoid sinuses and jugular bulb indicating thrombus. The thrombus displays Isointense signal on T1 and hypointense signal on T2 weighted images.

The superior sagittal sinus and straight sinuses are showing normal flow signal.

The right sigmoid, transverse sinuses and jugular bulb are also showing normal flow signal.

## Impression:

- ❖ Large hemorrhagic venous infarct in the left temporo-parietal lobe.
- ❖ Acute venous sinus thrombosis – Left transverse, sigmoid sinuses and jugular bulb (Approximate age of the thrombus – 7 to 72 hours).

## CT - Neurocranium

### Clinical details:

Known case of toxoplasmosis. Now follow-up.

### Study protocol:

Axial 3 mm cuts were obtained from the base of the skull to the vertex.

### Findings:

- ◆ Gliosis is seen in the left temporo-parietal lobes. Regional cortical sulci are dilated. Ex-vacuo dilatation of adjacent lateral ventricle is seen.
- ◆ No abnormal hyperdensity of left transverse sinus is seen.

Rest of the cerebral hemispheres, brain stem and cerebellum demonstrate normal attenuation without focal abnormality.

The basal ganglia, internal capsule, corpus callosum and thalamus appear normal.

Rest of the cerebral ventricles is normal sized and symmetrically arranged.

The cisternal spaces appear normal.

The arachnoid membrane is centered on the midline.

Sella and pituitary are normal. Parasellar structures are unremarkable.

There are no abnormalities in the cerebellopontine angle areas on both sides.

Subject : zero therapy life style  
To : vipinchandbomb@gmail.com

-----

Zero therapy lifestyle is helpful in many ways to me.economically-the day i started to follow this lifestyle i have never visited to doctor and not a single penny spent on medicine,testings and x-rays till date.once i fell down from the scooter,i got scratches on my face,hands and legs.but on following zero therapy i became alright and to my surprise there was not a single scar left on my face.it has not only saved money from doctors but have improved my income level.the best part of it is it has changed the scenario of my thinking level drastically.initially i used to think how i would earn how i would repay my dues.but today the scenario is totally different.i just think of improving my relations with family,friends and society and how i can make others happy.the most interesting thing is" what you think it happens".i wished i had a business pure white and you wont believe ,opportunity came to my doors and i just grabbed it.this is zero therapy lifestyle.

Subject : DIAGNOSIS GAVE OUR DAUGHTER BACK TO US  
To : vipinchandbomb@gmail.com

---

13 th July, 2014

I wish to share my experience on Diagnosis with ZERO THERAPY. This happened with me around February, 2006 when my daughter Disha Parekh was 8 months old. Disha was unwell for more that a couple of days, she was running high fever and was not taking in any sort of food. All the people at home were against me as they were not ZERO THERAPY followers and I did not blame them for their reactions as every one is not blessed to be with ZERO THERAPY.

My daughter's condition was not improving at all and I decided to take our daughter to SHRI.VIPINJI for physical observation. I lived at the border of Andhra Pradesh in a place called Sullurpeta 80kms away from Chennai, the next morning I along with Disha's mother took her to SHRI VIPINJI. We put her in front of VIPINJI on his table, there was no movement with Disha and her eyes were closed. The moment VIPINJI touched her, she started crying and VIPINJI told that her health is alright, the reason for her ill health was the dispute between two whom Disha loves. Tears started pouring down as now I understood the cause, immediately I took Disha in my arms and left for the railway station, from there I called my mother and said sorry as I had a fight with her and was not talking for that last two days. The whole time changed as Disha opened her eyes and smiled after the phone call and by the time we all reached Sullurpeta she was completely alright. The RIGHT DIAGNOSIS'S was the cause for Disha's recovery; the diagnosis not only gave Disha back to us but also waked the human in me.

20.11.2010

Dear Shri Vipinji

It was on the 24 th October, 2010 mid night I woke up from my sleep to drink water and suddenly I noticed that I am fainting and fell on the ground. Next day I had a temperature of 105.5 °F and along with that all my joints were of terrible pain and there was also swelling in my both hands and legs.

On the 25 th morning around 8:20 AM I called you and explained what happened and your question was DID I EAT CUCUMBER? And I said yes, as I had some with my lunch on the previous day, right from that moment you started the treatment.

I would also like to mention that along with me 3 [three] other people feel sick and they also had similar pain and the temperature was in between 102 °F & °103 F. All the three were under DOCTORS and ALLOPATHY MEDICINES. The doctor had prescribed some PAIN KILLERS FOR PAIN & SOME DRUGS TO BRING DOWN THE TEMPERATURE. THE TEMPERATURE OF ALL THOSE 3 [THREE] CAME BACK TO NORMAL IN LESS THAN 48 HOURS & THE PAIN WAS AWAY WHEN THE PAIN KILLER WAS IN.

My TEMPERATURE WAS COMING DOWN SLOWLY AND WAS DROPPING BY 0.5 °F EVERY 10 - 12 HOURS and COMPLETELY THE TEMPERATURE BECAME NORMAL IN 3 [Three] DAYS. I was still under the supervision and advice of you and strictly following your advice and the pain also started coming down.

I had terrible weakness and it was consuming much time to do my DAILY NORMAL ROUTINE, one day you called and enquired about my health and told that A ZERO THERAPY BODY CANNOT TAKE THESE MAY DAYS TO COME BACK TO COMPLETE NORMAL, AND DURING THAT 45 TO 60 SECONDS OF CONVERSATION YOU MADE ME REALIZE THAT I HAD

COMMITTED A BLUNDER AS I HAD CONSUMED ORANGES WITHOUT YOUR ADVICE, YOU ALSO SAID THAT WAS NOT RIGHT AT THAT MOMENT OF TIME.

During this period I had a weight loss of 8 to 9 kilograms and the same was not brought to your knowledge. Ten days later I telephoned one of my relative in Hinganghat, Maharashtra and accidentally had the opportunity to talk to you. That moment you asked me, how are you? I replied I am OK but having a little pain, THE NEXT MOMENT YOU SAID, INCREASE YOUR WEIGHT and it was magical, in the next 3 [three] days according to your advice I followed the FOOD MENU, GAINED 4 KILOGRAMS AND I AM TOTALLY FIT.

Even today the other 3 [three] are suffering from terrible pain and find very hard to do their routine daily work, Today it is very ASTONISHING & SUPRISING TO SEE ME 100% FIT for my company directors, my banking people, my business circle in Haldia, my staff and many others who ADVISED ME TO GO TO DOCTORS, CONSUME MEDICINES.....

There is no way to show the gratitude to ZERO THERAPY and its founder SHRI. VIPIN CHAND thanks a million to you.

This letter of mine may be recorded as my statement and if required, may be added to book of cases cured by you.

Jai prakruti

Thank you thank you thank you vipin uncleji for this wonderful science.

I am vinod kumar and i am attending zero therapy sessions for past six years (except missing some 20 sessions). Due to zero therapy lifestyle my life have changed exceptionally.

Even though i am just (51-60%) follower of zero therapy i feel wonderful being with this and hope to become 99% in near future. We are 8 member in our family and for past 5-6 years only once we visited doctor that to for delivery of baby (born zero therapy)

Now a days it is like nobody in my family want or need to go to doctor everything because of uncleji's quote "your body your best doctor".

First let me tell about my experiences in zero therapy.

Even though in my life i never had any big issues related to body and mind after following zerotherapy i have improved a lot towards my body and mind in every way.

I had dandruff problem which was very long and before zerotherapy i tried all type of shampoos to clear it but nothing happened. Only due to zt i got cleared now i dont have any dandruff. Thank you uncleji

I had two to three dark patches on left and right leg for a long time. I tried many cream and home remedies to clear it of but it didn't clear. To my surprise just by following zt one fine day i just thought of looking to it, to be frank i was searching for those patches and i was surprised that i was not able to find one. Thank you uncleji

I also had gastic problem which now i rarely have that to due to my mistakes i make.

Once i had a cut on my palm while opening rasgulla box which was .75 to 1 inch deep i just did one thing in this case is to stop blood flow coming out of the cut that's it. After a week i was searching for cut mark and i was not able to find it. Thank you uncleji

One case as accident in which i fell down from bike and had internal injury which i waited to clear for 1 week i was not able to sit on my bumbs and while riding bike it would pain horrible. Since 1 week has gone and it was not cleared i visited uncleji and followed exactly as per his instruction after 4 days i again visited uncleji with same problem. Uncleji words were "have some body told you that is fracture". To my surprise it was in my thoughts i just removed those thoughts and next day i was fine. Thank you uncleji for revealing "thought science"

This case was purely my mistake. The case was like i would walk few steps and i would feel dizzyness (in hindi chakar anna) and as uncleji words "your body your best doctor" i purely left that problem to my body and after 2 months the problem was solved by body itself. Is'nt that amazing. Thank you uncleji

Changes made by me after starting zerotherapy no brushing (6 years) no soap, shampoo (6years) no arguments with anyone no disturbing anyone (most important) living like animal not behaving like animal being in peace able to diagnise within my body if any problem occurs (only due to uncleji's grace and the thought "think and you will get answer") living simple life with not much wants speaking what exactly i want to speak (not gumafira ke) in business boldly telling to customer this's it what to buy or not its their wish (no lies to maximum extend) speaking less one day fasting every 15 days many more are there which i have not mentioned since mail will become too long. I will post some more in future mails

My wife's experiences in zerotherapy

Actually it all started with my wife's problem that i and my family are in zerotherapy.

She had a wound on her throat (gant in hindi) for that everybody told that it would be thyroid even we visited a doctor but fortunately he recommended another doctor and wrote some testing to be made. We just had a thought that if it was thyroid (as heard) life long medicine has to be taken. My wife was allergic to doctor's, medicine and injection she hated all these. My brother had already attended some sessions of zerotherapy and he told to attend. I just attended one session and now its 6 years continous (missed 20 session approx) attending all monday sessions. In every session i would get good

Knowledge about many thing (not only food related). After attending 4

sessions we got appointment with uncleji and he just diagnosed the problem and till date she haven't had any problem regarding the throat and she is fine (its been 6 years).

Once she had severe pain on her tooth she was not able to eat or drink properly we went to uncleji and he told that you had jelabi and exactly that's what happened after a week she got alright

Once she again had tooth problem and uncleji diagnosed that water you drink is not right. After that we installed ro purifier and she drank that water and it was fine.

Once she had backhead pain and uncleji diagnosed that you had cold food for the whole day and that was exactly happened before that day. Even she had icecream on that day. After 3-4 days everything was fine

Before she entered zero therapy she use to have pain in her body every 2-3 alternative days some day some problem some day some problem but after she started following zerotherapy she would get pain very rarely that too due to overwork or wrong combination of food

Even our relationship has also improved a lot (harmony)

Even for her also there are many cases which i would post in future mails.

About my daughter

Before zerotherapy i had visited doctors for my daughter many times and everytime i would be frustated since every time i visit they change the medicine for same problem again and again. After zerotherapy i have never visited doctor what ever the situtation be.

Before zerotherapy we use to give polio drops and other vaccines prescribed by doctors (which they say compulsory). But for my brother's child we haven't given any type of such things and he is most active child in our whole family. We just stopped giving any such things to my daughter for past 6 years and she is fit and fine.

Since she is a child she doesn't prefer to follow zerotherapy since all her favourite things(chocolate, buscuit, chips, icecream etc) is banned in zt and also by us. But the important part is when ever she feel illness even she diagnose herself that she ate that that's why i fall ill. That is the biggest thing i and my family learnt is to

Diagnise (only due to zero therapy)

Even my daughter have not visited any doctor for past 6 years and hope

not to visit in her whole lifetime. (its upon her), but we always insist more and more time to avoid wrong food items and food combination (very important specially for childrends)

About my mother

Once she had problem on her face that her mouth turned one side and she was in her father house who are not zero therapy took her to doctor and that doctor recommended another at egmore. Since at that stage getting appoinment with uncleji was a long process and no body wanted to wait for time so she landed in hospital after treatment she got cured (not completely). Again same problem occured but this time we were lucky that uncleji diagnised my mother and the diagnise was she got physiotherapy treatment and this is the reaction of it. That day i learned and got right that "every action has equal and opposite reaction" (which is uncleji mantra which is to be remembered always through out our life not only bodywise even mindwise) and even uncleji is above that which is "every intention has got a reaction"

After few days she was alright these type problem occured 2-3 times and everytime i would say her that it is reaction of already wrongly done so just wait for 2-3 days and it will be alright and actually every time she get cured. Now she is fine. Thankyou uncleji

I personally feel very lucky to be with zerotherapy and uncleji's universal science which is (vardan in hindi) for todays lifestyle of

Living life to the fullest

I hope more and more people go through zt and make their life according to zerotherapy so that they can live peacefully harmonising body mind and soul and live their life completely with peace.

There are still many things to be put on by my side so i will surely post another in future.

Thank you Thank You Thank You

Vipin Uncleji

"Let everyone be happy" (uncleji's quote)

Subject : Life style change after Zero Therapy  
To : "vipinchandbomb@gmail.com" <vipinchandbomb@gmail.com>

- Earlier my kitchen was no less than a restaurant with all sort of essence, food colour & Spicy masalas , chilli sauce, Soya Sauce and what not... But now after Zero Therapy our life style changed and I totally believe in traditional cooking
- Before attending Zero Therapy sessions , I Used to cry due to fear but Monday sessions helped me to gain confidence and have a positive approach towards life!
- Under Zero therapy, my family has a chemical free life with no Tooth paste, soap ,shampoo, cosmetic& deodorant .
- Being Zero therapy follower, my mind gets alert by any sort of negative smell ( perfume , agarbatti ,mosquito repellent & garlic ) within seconds ..

Dear Uncleji,

Jai Prakriti!!!

I, would like to share some of things (experiences felt and realized) since I started to follow Zero Therapy. I continue to experience lots of changes just by avoiding the the list of things mentioned under "Dont's" category of daily food on [www.zerotherapy.com](http://www.zerotherapy.com). Below are some of them (though not all as I am still discovering them with each passing day)

1. Earlier my skin (hands & feets) used to get dry two times a year (one during summer, one during winter). But in last six month (having been through both winter & summer), I realized that my skin never dried or developed white rashes. Upon thinking about the changes that could have resulted in these improvement - the only thing that comes to my mind is that everything else is the same but for the food that I used to take before and now (I have started to consume lot more ghee than before). Had I been to a dermatologist, I am sure I would have been provided with a laundry list of medicines to take & ointments to apply.

2. Earlier, whenever I had any heated argument or debate with anybody I used to realize that I could have avoided it or could have put my views differently in a better way - buy that was only after the argument or debate was over (when un-intentional damage was probably already done). But now I get this sense of realization right when its about to start. This not only helps me deal with the situation in a better way but also helps solve the problem amicably. And believe me, this little shift in sense of realization before and after is making a lot of difference. Asking myself again, what has changed to cause this new behaviour? Only thing I feel is the food. Everything else is the same.

Regards  
Jaswant Chajed

Jai prakruti

Just 20 days before while taking down some material from mazanine cupboard i misplaced my leg and slipped on ground at that time it was not painning much. But by night it started painning a lot. (not suppose to do) using my mind i gave warmth by cloth at injured point but the whole night i was not able to sleep due to more pain. Next day onward i left it to my body to repair itself. After a week i was feeling much better but was not completely cured. As usual i went to monday session on that day by luck uncleji told me to have tea, but since i never had tea from my birth i just told uncleji i dont drink tea. After 2-3days i fasted for a day and next day it was (parna) in which i took tea colour type one thing (which i should not mention here) after which with in 1 hour i was completely cured. (surely uncleji on that session day diagnised that i had pain and that why he told me to drink tea so that i would cure completely) thankyou uncleji once my daughter while playing a big window glass broke and fell on her back and she was bleeding and had four 1/2 inch cutting all got scared and feared about that. Since she was in her nani's house the immediately called my wife. She took her to uncleji and uncleji simply told that there is no glass inside the cut so just simple do some cotton dressing. After 10 days she was completely alright. Its been more than 6 months and she is fine (without any medicine, stitch,cream etc....) thankyou uncleji

My daughter loved western dance when she was 3-4 years so after a years we started sending her to dance classes it was going fine (once uncleji told "no" to western dance but we ignored it thinking she likes it) after few years she ocassionally started to say that her legs are painning (even once my aunty's daughter had same problem and uncleji diagnised to stop wester dance and she was fine) we immediately stopped her western dance classes with in few days her complain regarding legs had stopped. Thankyou uncleji

My brother's son who is born zerotherapy is very active. Many times it happened so that he would get injured by one or other way and every time we just do one thing that we just divert his mind to some other thing so that he would stop crying and feel good (like just 2-3 minutes of crying)

Just yesterday's incident i took some children's to park and all were playing fine. At one instance my brother's son got injured on his stomach and started crying more and more. I just told him that see everybody are playing and why won't you start with them just 1 minute crying and he just started playing asusual (diverted his mind- uncleji's smart magic)

Very beginning as i was new to zero therapy i use to do prayer (samaik) at terrace. Those days windflow was more than usual after a week of time i had pain on my right face and i was not able to eat food as i do. (uncleji's recommendation think and you surely get the answer) while thinking a lot i got conclusion that maybe due to wind flow this would have happen. Just 2 days i didn't went to terrace and i got fine (i just thought what would doctor's would have done in this case i just smiled at myself) thankyou uncleji

Before zero therapy i would have never thought of any playback of sequence now a days i just playback and most of the time i would get answer if not i just leave it to my body with strong thought that it will get cured and everytime it would get cure it is only due to uncleji's magic words "your body your best doctor" i once again thank uncleji for this magical logical science

Thank you thank you thank you  
Uncleji

Before Zero Therapy:

I was following jainism strictly as prescribed by the Sadhus and their books on Shrivak Jivan. I was getting leaner & leaner by every day.

All my family members, friends, relatives would suggest some health tonics, whole body check up, etc. The health check up including blood sugar all were normal, so the Doctor prescribed me a Tonic which he said is Vegetarian (upon my questioning). When I questioned why the GREEN DOT(VEG) was missing, he replied it is not mandatory on medicines but this tonic is veg and I bought it. But my suspicion only grew. Reluctantly I took a few doses and stopped taking the tonic during Paryushan Jain Festival days. On the festival eve my Cousin in law Mr. Mahavir and his wife visited our home and when they came to know about my falling health and vegetarianism(not taking even medicines), I was suggested to follow Zero Therapy.

I attended the Zero Therapy Session on 1.10.2007 and found it useful not only on health issues but also spiritual and thus started my Zero Therapy Life. Without break I would attend Monday sessions and practice what Uncleji preach. I stopped taking Boiled water during Jain festival days. My bathing style changed; earlier I would apply Coconut Hair Oil on wet scalp after bathing which reversed to applying oil before taking bath & hair wash. Now I do not need to apply anything thanks to zero therapy food habits which include GHEE in most of the Sweets & Snacks. I observed magical health improvement without even consulting Uncleji.

The Permanent Head Ache I was suffering since 6 years due to wrong bathing habit was gone. To cure the head ache I first consulted my family doctor who after check up referred Dr. Deepak Arjundas of Mercury Hospital, Egmore, Chennai. After Check up at the Clinic and Scans of my Brain I was prescribed some medicines to cure my headache which according to doctor was some minor nerve weakness. Whenever I took those medicines I would fall asleep irresistibly even during afternoon working hours; so I stopped taking those medicines after a few weeks. My head ache continued; and I went for Domestic Cures reading a book which I don't remember now. The Head Ache problem continued till I joined Zero Therapy Sessions and changed my hair wash style.

My observation power increased. One day I found that My Right Eye is not viewing properly - partial reddish vision at corner. I was yet to become Zero Therapy Patient; so I consulted a eye specialist(Ashwini Eye Clinic, Sowcarpet, Chennai) for diagnosis probably in December 2007. After check up, the specialist told me that it may be due to some viral fever I suffered long back and prescribed me some medicines which I did not buy. A few days later at the Monday Zero Therapy Session, Uncleji spoke about sprinkling water on face which release oxygen and cautioned not to use Saline Water; there I got my solution again without even asking for it. I stopped sprinkling hard bore water, instead used drinking water for sprinkling face. Within 10 days my eyesight became clear as earlier and that partial reddish vision due to saline water disappeared. Cure without consultation again.

My Experiences in Zero Therapy show that things get done because of strong Bhavanas (thought feeling). My younger daughter Moksha could not stand properly, let alone walk at Age 2. I wanted to register myself as Zero Therapy Patient so that I can consult Uncleji for my daughter. After the 2008 Mega Seminar, I along with my wife and daughter went to attend the monday session. The hall was overcrowded, so I stood at the door and my wife and daughter went back home. After the session when I went back home I got a pleasant news that Moksha is now walking and that she walked on her foot from the Zero Therapy Meeting Hall to our home(about 1 km.) Another Cure without consultation. Since then all other family members, my brother, mother started practising zero therapy lifestyle.

Slowly My weight gained because I stopped taking Boiled Water and jaggery which are don'ts in Zero Therapy Food. Now I understand why my gums are bleeding (excessive use of jaggery in the past). What matters to the body is the matter that goes into the body (Solid Food,Liquid Beverages,Gas smell-perfumes,inhalers,balm). One Night probably in June 2009 when I was sleeping I felt Headache and got up with difficulty at 3.30 A.M. I slowly moved to washroom and immediately after passing urine I fell with my forehead bang on the floor and went unconscious. 15 minutes later I became conscious and saw my upper forehead near hair bleeding. In the morning at 7.30 A.M. I went to the Uncleji's office along with my brother. This was my first Consultation for myself. At the office lobby about 10 feet away Uncleji told us that my head is hurt and the person accompanying me is my brother. We were surprised at the Diagnosis from Distance and identifying my brother - it was his first visit and we two brothers do not look alike rather very different myself fair and slim and brother black & fat. Also Uncleji told me that it was the pain balm used by my wife that caused me headache. What a diagnosis! Since that day no one in our family use any pain balm,inhaler,spray.

---

CONTINUES HICCUPS FOR 3 DAYS and NIGHTS (20 FEB 2015):

I Went to Coimbatore from Chennai for a marriage for 3 days. As soon as i returned, I started getting Hiccups. Normally drinking water stops it but it did not stop and kept coming. Also, nothing was staying in my stomach. Everything was coming back as vomit. I also had some temperature.

I went to Vipinchand uncle and explained the problem. He said that i have two problems. I have cold in the lungs and my lever is effected due to either Masala Tea or Agino Moto (A Chinese spice) in the food at the marriage.

Following is what he asked me to do:

1. He asked me to buy a hair blower. He told me to warm my feet and chest with the blower as long as it feels good. Then i should put a towel on my head and blow hot air from below into it as long as it feels good. I did that for 2 or 3 times for two days and the hiccups stopped to a great extent. Now they were intermittent.

2. He told me to eat or drink what stays in stomach and stop what comes back. I followed that and was able to eat some things.

3. He told me to drink milk while eating Pista(Pistacio).

Following his advice i was fine in 4 or 5 days. Hiccups and Vomit both stopped.

I Mahendra kumar.P Doshi presently live in hyd was suffering from Hepatitis b and according to medical science it has no cure and lot of other disease like kidney and lever problem cold severe headache etc.

I was suffering from headache for more than 5 yrs continuously and my life has become horrible as I could only confine myself to dark room and not willing to talk to anybody and I was not able to enjoy my family life and I feel like doing suicide

I have tried everything Allopathy ,Homeopathy,aurvedic and dadi maa ke nukhe but it doesn't worked.

I have done all test but they couldn't find any reason for headache

Knowing my problem My sister has told me to go to Chennai and meet uncleji I had argument with my sister when medical science doesn't know what disease i was suffering how will he treat me and what would he treat but she insisted so I went there and met uncleji first he told me that you have to attend four session and then only he will see but my wife and i told that i m not taking any medicine(as I was fed up with medicine I have stopped) and luckily i don't know what uncleji seen our approach he has told me to take my shirt out and just seen my stomach for 10seconds he has prescribed something for stomach and to my surprise I have went for headache and cold ache(severe) and he has told it is kidney and lever problem.

I have attend session in the evening and came to hyd. and couldn't follow it on day one and next day I followed and 2nd evening I felt that 80% of my relief here I want to let you know that even if my daughter gets 95% marks I tell its ok and if I am feeling its 80% for others what it would be for others . The headache which was for more than 5 yrs has gone within 36 hrs

There are lot of experiences of mine can be shared one of this is I was suffering from severe backache and I called from Hyderabad and uncle

immediately told that you have not passed your stool properly and told me some remedy and pain vanished in no time.

I was supposed to travel Kashmir and suddenly there was feverish and some pain in chest also I thought I might have to cancel the trip I called up uncleji and he immediately told that you have taken your food and it was true that day b'fast prepared not of my taste and he told me to eat petha of agra wala (sweet store in hyd) and eating just two pcs and i felt relaxed and went to Kashmir and enjoyed but I was surprised how could he know just over a talk once I had pain in my chest at around 11 pm and in that time around 2 or 3 people of my age died because of heart attack so my wife become slightly nervous but I told let us talk to uncleji in the morning and he told you have thought of any medical test initially I told no but after few minutes when I recalled I and one of my friend to some relatives house and we were offered sweet since my friend diehard fan of allopathy has told he is diabetic and he has said no while taking a sweet I told I am eating more sweets I will have to get it test done even I forget but unclejis diagnosis so wonderful within seconds he told the reason that even thoughts can make you ill. He told remedial measure and with 4 mts everything got all right.

My son was having 104.5 fever for continuous 14 days without medicine he was cured the reason for fever was smell in drinking water since we are living in Hyderabad so It has taken so much time but when uncleji told us to drink mineral water the fever vanished in fever lot of our relative told to visit hospital and get admitted and they were susprised by the diet like lafsi or badma k sira for them but we were having faith in zero therapy so without medicine he was cured.

Once my brother in law son has small pox and his wife has called to my wife and told my wife and called uncleji and uncleji has told he has ate green grapes when my wife called to them they told yes uncleji gave some remedy and with in one everything ok

After following zerotherapy only I have come to know the mistakes we were committing which as per medical science is for good for health

1. Eating idly I used to eat more thinking it is good for health avoiding dosas vadas and pooris now I avoid eating idli (but some time I am not able to control my tongue so I eat idli but previously it was weekly 5 times now it is monthly twice hardly

2. Drinking lemon juice I was regularly drinking eat and after watching Zero therapy regularly on internet I have come to know that my liver damaged because of this there are lot of other experiences can be shared but I think it will be very lengthy so I am not sharing

I can challenge no doctor or anybody can diagnose so quickly and accurately what uncleji can.

Thanks to uncleji and I request you to continue the service to humanity as he has done all his life

DHARMENDRA KUMAR

I Wish to Share my experience with ZERO THERAPY. This happened with me around 4 and half years before when my daughter Disha Parekh was 8 months old. Disha was unwell for more that a couple of days, she was running high fever and was not taking in any sort of food. All the people at home were against me as they were not ZERO THERAPY followers and I did not blame them for their reactions as every one is not blessed to be with ZERO THERAPY. My daughter's condition was not improving at all and I decided to take our daughter to SHRI.VIPINJI for physical observation. I lived at the border of Andhra Pradesh in a place called Sullurpeta 80kms away from Chennai, the next morning I along with Disha's mother took her to SHRI VIPINJI. We put her in front of VIPINJI on his table, there was no movement with Disha and her eyes were closed. The moment VIPINJI touched her, she started crying and VIPINJI told that her health is alright, the reason for her ill health was the s. Tears started pouring down as now I understood the cause, immediately I took Disha in my arms and left for the railway station, from there I called my mother and said sorry as I had a fight with her and was not talking to her for that last two days. The whole time changed as Disha opened her eyes and smiled after the phone call and by the time we all reached Sullurpeta she was completely alright.

Frm Nidhi:

Jai Prakriti, my name is Nidhi Jain, wife of Anurag Jain. I live in United States. Just want to give this testimony – Few months back I had a bad toothache . Small things used to get stuck in between the teeth & it used to hurt a lot. I was not able to eat from that side of mouth. Then I spoke to uncle and he gave me such a simple solution – to use almond oil 4-5 times a day on the tooth where it has been aching. Doing brush with finger with almond oil twice a day. I also used coconut oil once a day. My ache has totally gone now.

Thank you so much uncle for helping & giving me tips that helped me a lot. I really appreciate uncle's suggestion, time and all the teachings.

Regards Nidhi

Subject : My 2nd Experience from following  
the principles of Zero Therapy  
To : vipinchandbomb@gmail.com

---

Jai Prakriti,

Jai Jinendra,

I want to Thanks Uncleji for giving me the wisdom to understand the principles of Zero Therapy.

I went to Malaysia in March 2015 with my business partners.

Day 1 - We reached our resort in Langkawi.

And then we went to beach for water sports & parasailing. I was v.exited to do parasailing & went 1st to experience it. But, I fell down while running to do parasailing & that incidence was too fast & within a few fraction of seconds I was taken off in sky. As I fell down I became unconscious for couple of minutes & when I came to conscious state I was in the sky. I had hurt my knees by elbow badly. My forehead had a deep cut, I broke my front two tooth, my nose & lips were also oozing with blood.

As I landed down, I went to wash my face & again fainted.

My partners were in deep shock.

The imm. gave me 1st aid & then took me to a Dr.

But, on the way to clinic, I was murmuring that I will be alright if I apply GHEE on my wounds... I was unconscious at the clinic & the Dr. cleaned my wounds & checked my nose, head & lips. He said that I had no fracture & he gave me Tetanus injection.

I came my conscious as he gave me injection. Then he said that he wil give me one more pain killer injection. I stopped him & told him that I'm allergic to any kind of medicines. And I asked him ghee.

The Dr. was v.polite & he told my partners that the patient believes that he wil b cured if he applies ghee on his wounds. So, I feel that u should give him ghee.

The Dr. gave me some painkiller & sleeping pills for safety reasons. I did not use anything.

We drove back to the resort & i applied ghee on my wounds... I cud'nt eat anything coz my whole mouth was swollen. I had warm milk & slept. I used the toilet appx 10-15 times that night.

Next morning also I applied ghee on my wounds & rested the whole day. Applied ghee inside my mouth 4-5 times & had ready to mix upma & pongal.

Day 3 - I was ok. I cud walk & my swelling also came down drastically. We went for sight seeing & enjoy the whole trip.

I reached back Chennai & went to a dentist for artificial teeth. The dentist also gave me painkillers, but I did not take anything.

My partners were astonished to see my speedy recovery & praised zero therapy.

As Uncleji says, when any part of ur body is hurt, all the cells come forward to repair the hurt area & this appears as swelling to the regular Dr's.

My belief in zero therapy helped me to recover fastest.

Thank u Uncleji.

Regards,

Raj Chordia.

C/o, KARMA CLOTHING.

Chennai.

> Jai Prakriti,

> Jai Jinendra,

> I started following the principles of Zero Therapy from 2-1-2012.

> My son had few problems during his birth. He was diagnosed on Bi-Lateral Undescended Testices & was operated twice for that. He was 2

years old by then. He also had little speech delay also & for that we met another Doctor & he diagnosed & said that my son had a tongue tie & if he starts speaking, he will have stammering problem & advised us to get the tongue tie operated. We did that when my son was 2 ½ years old.

> He started schooling at 3 years & had problem of settling down in class.

> We went to child psychologist & he suggested Occupational Therapy & some thinking skill classes.

> Life was difficult for us since then. My son couldn't settle in any school. Every school complained us that he is a problematic child & he needs a special school.

> My son was later diagnosed as ADHD behaviour child. Little Hyper-active.

> Doctors suggested medicines & we started medication. But no change in my sons behaviour. He started using bad words in school & became more worse than before.

> My elder brother Lalit Chordia & my sister Ranjula Bhansali (from Vizag) were following the principles of Zero Therapy & they suggested me to meet uncle after attending three monday sessions continuously & also told me to change the food habits of Harshith, Ekta (wife) & myself according to the Principles of Zero therapy.

> We were very frustrated about what was happening in our lives.

> We met Sri Vipin Chand Bomb (Uncle) after attending the three Monday sessions. Uncle diagnosed in our very first meeting, that the original problem was due to some medicines which my Wife Ekta must have taken during pregnancy.

> Uncle diagnosed my son & said that he was absolutely fine & recommended some simple food changes. Today we see lot of changes in my son. He has become a responsible son, his hyper activity has come down drastically & has improved in his studies also.

> I have severe migraine problem. (Headache) And it was so acute that I had migraine attack weekly twice or thrice.

> In getting my son treated, my migraine was treated automatically.

> I have a phobia that if I sleep for less than 6 hours, I will have headache.

- > But, today I'm totally out of it & life is happy now. The freedom from the fear of headache has totally gone now.
- > It was earlier difficult to follow the principles of zero therapy, but now having entered the fraternity of zero therapy, it is very easy now. Our thought patterns have changed now.
- > Nothing seems to be impossible now. Every challenge we see now, looks an opportunity.
- > The food we eat has a lot of impact on our mind, body and soul as a whole.
- > And following the life style of zero therapy has given an extra ordinary momentum to our lives.
- > I wish more & more people follow the principles of zero therapy & the whole mankind benefits from it.
- > Thanks,
- > Raj Chordia,  
C/o, Karma Clothing,  
Chennai.

dear Sir,

Good Morning,

Sharing my personal experience with Shri Vipin ji

Upon seeing me during our journey between Kodambakkam & Park Station, Shri Vipin ji informed that

I have indigestion, mouth blisters and sir suggested me to take Badam mix with ghee to solve this problem.

He also suggested early morning water mix with ghee in the mouth and clean- so that all the mouth related problems / indigestions will go off.

Thus, based on his advise, I followed and got cured.

Thanks to Uncle ji.

I am living without any medicines.

Thanks a lot once again,

S Rameshkumar

I am Yogitha, I had white spots all over my body, I consulted so many doctors in Allopathy and Aurveda, since five years but there was no improvement. Finally, I came to know about Vipin uncle, through my brother Mr.Milab. Uncle diagnosed that i ate food in the multi cuisne hotel where Veg and Non-veg prepared in the same kitchen and also ate bread and this was the reason behind my skin problem. He suggested to eat Badam Halwa and asked me to stop using soap. and also follow the donts of the life style.

In 2004, I gave birth to my first girl baby which was operated because as per the doctor my baby is overweight also I had lot of complications in that delivery.

I was attending Monday sessions once in a while and came to an understanding that normal delivery is possible even after a Sysrian. In 2008, we planned to have a second baby and i had two wishes , that i need a boy baby and also i want to deliver normally. I conveyed the same to Uncle, he asked us to maintain positive thoughts. In the end of the same month i was pregnant. All the nine months, i never took any medicine or injection or scan. My doctor was insisting me to take scan on various months but , i usually tell her some or other stories to avoid it. She wanted me to get admitted on my due date for sysrian as she was in strong believe that when first baby was operated second cannot be a normal delivery, but i never went on that date as i was expecting normal delivery.

Finally , my due date was over but i never had any pain, but bleeding started in the second day after the due date. I consulted about this to uncle and he told happily that my baby is getting ready to see this world. But my big mother in law (dadi sasu ma) started to terrify me and all other members of the family were in support of her. I informed the same to uncle, he gave an option to wait another 11 days. As per uncle's

calculation delivery can happen any time between starting of the 9th month till 20 days of the same.

I had mild pain in the 5th day ie., (after doctors due date) and it remained same until the next day. I again called uncle, he diagnosed and asked me to drink hot complain water, within half- an-hour.i got labour pain, I consulted so many doctors but none of them were ready to take up my case as i wanted a normal delivery. Some how i convinced the same old doctor and had delivered a handsome boy baby normally without sysrian, even the doctor was surprised. I would like to convey one more great information that me and both my children (aged 13, and 9 )never been to hospital which includes no vaccination and no polio drops. They both were healthy and main reason for that is they had mothers milk until 3 years

I am great ful to uncle and I am proud that i am a following the life style of Zero therapy.

Thankyou

With regards

Yogitha

I am Ayushee daughter of Rajesh R Mehta (9884259230)

In year 2014 i suffered from appendix. It was so painful that I could not get off the bed for 10days in a row and had to do all my routine work on the bed itself at that time i went to the hospital and the doctor after some testing and consultations Said that I have got some infections in my stomach along with the appendix. He gave me some medicines to try for a month and said if infection is cleared with medicine I will have to undergo appendix operation if not two operations which would take around two to three months. Then dad said me, you will have to wait for 2 months with medication and also without medication so better try it without medication all though he did not force me and said do whatever you feel is comfortable and suggested me to meet uncle ji, after that I quitted medicines and let it go on as it was going.. Then my dad went to uncleji n said about my problem then uncleji said that his daughter also had appendix when she was in school due to some weight lift,it was the time I realised that even i carried some heavy weight due to which I got this problem after realising that I left all doctor treatment and was following this zero therapy , in two months all my pain vanished. After 6 months I underwent a check up which showed everything was absolutely normal.

Jai Prakriti.

I'm Avani Jain D/o Rajesh Kumar, Chennai

I'm following Zero Therapy since last ten years. I got a boil on my thigh in April. Each day it grew bigger and I wasn't able to walk as it was painful. Uncle ji diagnosed me without looking at me. My father took pictures of the boil every day. After looking at the picture uncleji told me that I ate grapes and he was right. After 2-3 days the boil popped out.

I don't visit the doctor no matter if I have a cough, fever or any health issue. My body heals on its own in creating time period. As Uncle ji says "Your body is your best doctor."

Jai Prakriti

Once I had stomach pain since afternoon. I went to uncleji but I didn't told my problem immediately. But since the pain was from long time I told uncleji...he asked me to point where exactly the pain is. I showed him the place by keeping my fingers at the place. With in fraction of seconds uncleji said you are your food late, in anger and very less and I was amazed because it was what exactly happened to me on that day.....he suggested me to apply Kesar Chandan on stomach and with in something I was alright.

MR. VIPINCHENDU,  
"ZERO THERAPY"

Respected Sir,

I am very much thankful to you for curing my incurable disease. Myself and my family is very much satisfied and grateful to you for your treatment. You have done a miracle by curing me. Thank you very much and for everything.

I was having fits problem from past 16 years. I underwent treatment with

many doctors they said it is an incurable disease and they too don't know what's the reason for occurring fits and the only solution for this is to take medicine daily for long life.

Then I consulted with 'Fits' specialist Dr. Velmurugan, he asked me to take CT scan, E.E.G, X-ray of chest and some other test. After seeing the report he asked me to take tablet extra-1 daily and some other vitamin tablet before sleeping. I took all that tablet regularly but when I missed it for a day I had the same problem. Again when I visited the Dr. he ~~not~~ advised me to take extra doses (2 tab) and he told me to take it regularly without missing for five years and he said that if I skip the tablets for even a single day then I have to continue the course again for next five years.

Then I consulted with Dr. of Apollo hospital, M.G. Ramachandran Hospital there the Dr. advised for higher dosage. I took the tablets as the Dr. advised but I didn't get the full satisfaction. Being this my

wife was irritated and she advised me to consult with "MR. VIPIN CHANDSI". Meanwhile my sister who was suffering from severe stomach ache, vomiting and loss motion for an year, we took her to Apollo Hospital, Devis Nursing home and Mercury Hospital for her treatment. They advised her for taking gastroscopy, Biopsy Test and CT scan and many other test. we took all that test but the report was normal and they couldn't find any reason why it is happening so we admitted her in "Devi Hospital" she was alright for these days and when we brought her home she had the same old problem again. During that time we took her to "MR. VIPIN CHANDSI" who is THERAPY SPECIALIST (no medicine treatment) and consulted him and he started his treatment and within a week she was relieved from that problem which she had from past one year and till now she is fine and she has no complaints for that problem. Being all this my wife she took me to that great personality and

he started his Treatment on me and as he advised I followed his instruction not to eat food, black pepper, garlic, spices, etc...

Now I am hale and healthy and I have not taken any tablets from the day I have started his course and even I have increased my weight and look more charming than before. Previously when I used to do fasting upvas (not to eat anything whole day) but I used to take tablet in empty stomach about now I am not taking any tablet in my fasting.

Seeing all this miracles I have advised lots of people not to take medicine and to consult with great personality "MR. VIPIN CHANDSI".

I have advised my Father-in-law to consult him. He had liver problem and swelling in his leg. When he started his treatment with "MR. VIPIN CHANDSI" the swelling in his leg and pain was gone. Before he use to take 10 to 15 tablets daily but after

consulting with uncle (MR. VIKRACHANDJI)  
he had stopped all that. He ~~was~~  
underwent the treatment for six months and  
he had no complain but due to some  
reasons he had stopped his treatment and  
consulted the Dr and he started having  
medicine again. Now he is having his  
old problems again and he is suffering  
a lot and <sup>now</sup> he has realised that he  
had made a mistake by consulting the Dr.

Yet one more miracle that happened  
recently is that my daughter who was  
suffering from fever for past two days  
due to rain we couldn't able to take  
her to uncle directly but he give  
his treatment through phone but the  
temperature didn't get down, so we took  
my daughter to see uncle, seeing the  
child uncle said nothing is there, the  
child is alright you just take her  
home and give her her complain at  
that time her temperature was  $104$  to  $105^{\circ}\text{C}$

आशा है शोका का इलाज सिर्फ  
खान-पान नियंत्रण से ही सम्भव

महोदय,

आप मेरा खुद का अनुभव है कि एलोपैथी  
में जो रोग डॉक्टरों द्वारा आइलाज करा दिये  
जाते हैं, उनका इलाज सिर्फ खान-पान के  
नियंत्रण तथा रहन-सहन के गैर-वरीके पर  
नियंत्रण से सम्बन्धित गैर पर होना है। अकारण  
है जो सिर्फ एक अनुभवी परामर्शदाता की, जो  
उचित खान-पान तथा रहन-सहन के गैर-वरीके  
से सम्बन्धी सत्य-सत्य पर सही सलाह दे सके।

पिछले एक साल पहले के मेरे पैरों में  
खुजली के कारण बाल-बाल चकले निकलने शुरू  
हो गये थे जो धीरे-धीरे पूरे पैरों, हाथों तथा  
नक कि शरीर पर भी पूरे तरह फैल गये। खुजली  
भी पूरे शरीर में होने लगी।

वहनी छि मारी की गम्भीरता को देखकर  
मैं यहां ईलाज शिरोधार के पास एक बढिया  
स्किन स्पेशलिस्ट के पास गया। उसने एक-एक  
महिने के हिसाब से उपाय देना तथा धूम्र पूरे-

- शरीर पर लगाने के बाद कोर्स शुरू किया।  
 जिसके पहले दो महिने जो काफी कन्वोल हो गए।  
 लेकिन फिर खुजली व चकते बढ़ने शुरू हो गये  
 बिमारी मान ली जाया। नज आमा डॉक्टर  
 के पास किया। इस बार थोड़ा नजराना सुखी हुई  
 एक डॉक्टर के पास गया जो कि सरकारी अस्पताल में  
 पैरामेन्ट का हैड भी था। उसके द्वारा जी आई  
 रवाको के पहले महिने कन्वोल होने लगा गया; जब  
 दुबले महिने रवा देते वक खुशे जाया कि यह  
 बिमारी (Psoriasis) और इन्फेक्शन है, जिसका कोई भी  
 पैरामेन्ट इलाज किसी भी डॉक्टर के पास नहीं है।  
 रवायं बराबर लेते-रहोते जो कन्वोल ही चली  
 रहेगी।

विद्याली करवरी 25 में में राजस्थान गया।  
 वहां किसी के बगाने पर कुकुर (हसिक) से  
 आयुर्वेद की पुस्तिका भी मंगावाई थी। लेकिन जब तक  
 मेरा मन डॉक्टरों रवाको से पूरा कब पुका जा/राजस्थान  
 से वापस आया तब मैंने लड़के मिशन के महिने पर  
 थोड़ा आसने पास किया। आयुर्वेद वकी पुस्तिका लेना  
 शुरू नहीं करने का निर्णय का किर्ल लिपिन भी साहब-  
 के परामर्श के किर्ल खाना - पान में सुखा का योग  
 शुरू करने का निश्चय किया। जिसके फलस्वरूप  
 मार्च 05 से लेका कुल एक मून 05 कुल एक रोगी रवा

To  
विपिनजी [0. गैरपी]  
आदरणीय भट्टेदजी.

मुझे 9 साल की उम्र में Sinusitis हुआ [सांस लेने में खाने-पीने में तकलीफ, सिर दर्द इत्यादि] शुरू में तो मुझे खास कुछ तकलीफ महसूस नहीं हुई पर जैसे समय बीतता गया तकलीफें बढ़ती गईं, इस वजह से मैं किसी चीज पर ध्यान नहीं दे पाता था, डॉक्टर को बताया तो दवाईयाँ दीं, पर दवाईयाँ का असर खत्म होते ही फिर से तकलीफें शुरू हो जाती थीं। फिर ENT-न Specialist Dr. G. Rudrappa [Banglor] को बताया, तो उसने कहा कि नाक में हड्डी बट जाने के कारण यह सब हो रहा है, सो उन्होंने ओपरेशन का कहा, ओपरेशन किया गया और इसके बाद मुझे काफी राहत महसूस हुई। पर कुछ समय पश्चात हड्डी फिर बटने लगी और फिर से वही सब तकलीफें होने लगीं। अच्छे-अच्छे डॉक्टरों को बताया पर नुस्खी से भी कोई फर्क नहीं पडा और मैं सोचने लगा कि क्या इस बीमारी का कोई इलाज नहीं है, मुझे सारी उम्र इस बीमारी के साथ जीना पड़ेगा? वी तभी मुझे किताने विकसित के वारे में बताया, और मैं भी बीमारी ठीक होने की आस लिए बैंगलोर से चैन्नई उनके पास आ पहुँचा। परन्तु जैसा कि विदित है कुछ पाने के लिए कुछ खोना पडता है वैसे ही चार सोमवार की इनकी बेलास attend

करने के बाद ही मेरा नंबर नमाव विपणनी ने मुझे देखा व मुझे 7 दिन का leave दिया और फिर आने को कहा, आप लोग विश्वास नहीं करेंगे कि उनके द्वारा दिए गए leave से मुझे तीन दिन में ही राहत पहुंचने लगी। 7 दिन बाद मैं हूँ फिर उनसे मिला, उन्होंने अट leave जारी रखने को कहा, आज उनकी वजह से मैं सनायत हूँ मैं उनका जिन्दगी भर आभारी रहूँगा और भगवान से यही प्रार्थना करूँगा कि कि ऐसे इंसानों को बनाता रहे ताकि विपणनी से सज्जते लोगो को आघात मिल सके।

S. AKSHAY KUMAR JAIN  
THE RAYMOND SHOP  
101, PONDY BAZAAR  
T. NAUR,  
CHENNAI-17.

I am S. Akshay Kumar Kumar of age 14.  
I have problem in "SPINAL CORD SCOROLOSIS"  
and I have undergone many doctors like  
Dr. Srisram, Dr. Premkumar, Dr. Sajjan Hegde.  
Suddenly one night the pain on my neck  
was very savious and next day MORNING  
we went to our family doctor Dr. Premkumar  
"ORTHOPETIC" he take x-ray he saw the report  
and his mood was totally upset. then he told  
go to DR. Srisram childrens HOSPITAL, Dr. Saw  
the report and x-ray & told to take MRI  
& CT-SCAN after seeing the reports of MRI  
& CT-SCAN Dr. told that there is a major  
problem in his "SPINAL CORD", Dr. Srisram  
told us that we have to make a BRACE according  
to his size starting from his neck till to his  
curling stomach, which was made of steel  
rod & leather on seeing the sample piece  
of the brace we were shocked, Dr. told us  
to come & have a checkup for every 6 months.

& Dr. Even said that tray "BRACE" is not a thing by which his "SPINAL CORD" bend & became ok the next step will be the operation, after hearing this we went to another Dr. in 'APOLLO HOSPITAL' named 'Dr. SAJAN HEGDE' who was specialist for "SCOLIOSIS" problem, Dr. "SAJAN HEGDE" said brace is not helped & will not have good result. after seeing my report he told has & come again after '6 MONTHS'. WE USE TO GO EVERY SIX MONTH WITH NEW 'X-RAYS' as this we visited Dr. Hegde two years all of a sudden he recommended for a urgent operation within two months & My & family were not agreed for operation, so again we went to the Dr. Sriam then we followed his suggestion & made brace according to my size. I use to wear the brace atleast 10 hrs a day but I was suggested to wear atleast for 18 hrs & compulsory to wear during nights I was filling in comfortable not able to do my own work perfectly what our I was very a brace all the people would ask me what happen & some will be make jokes & ME.

I was feeling very bad for my self.

- They we here about
- "ZERO THEORY" treatment in which we had a hope of getting recovered, then we attended Monday session of "ZERO THEORY" classes & we understood the treatment of "ZEROTHEORY" is not know we are family members of "ZERO THEORY KOTUMU" <sup>in</sup> getting recovered little by little in this zero therapy, the way by which sha. Vipin Undeji diagnoses the patient his healthy. I want sha. Vipin Undeji to leave for many years & to good for everyone.

As Vipin uncle generally say that zero therapy is nothing but just common sense but we people non sensly just keep taking medicines prescribed by the doctors which do no good, but only in a span of time will destroy health & wealth.

To conclude i would just say,

"TO LIVE LONG AND ALWAYSBE HAPPY"

"EVERY BODY HAS TO FOLLOW ZERO THERAPY"

With gallons of respect & tonnes of Thanks to Vipin uncle proud to be part of zero therapy family.

We hear about miracles but rarely see them happening this remarkable simple man with engineering qualification always wanting to serve others, cures, uncurable diseases, spending his own money, precious time and energy, without any medical qualification with the intention of creating a healthy and happy world (more importantly without medicine). We take this opportunity to salute this miraculous human Mr. VIPINJI JAIN founder of Zero therapy

It is said that "0" is discovered by an Indian and we cannot imagine world to run with out zero. Like this zero therapy is also the only way for today and future world to leave a healthy life and we are proud to say that it is also discovered by an Indian and who is one & only our "VIPIN UNCLE".

I had severe headache, unable to bear the pain I use to tie hand kerchief on my fore head or I use to hit my head on the wall I had to take antibiotics every 15 days for my cough, cold & throat infection, there were full rashes on my tongue, there was parbitaration in my chest, gastric problem have seldom left me. I used to get up at least 5:6

times in night to pass urine & I was also suffering from hypertension (High blood pressure) all the allopathy doctors failed to cure my calf muscle pain in my legs, as if this was not enough I also had skin allergy, with just a little exposure to sun and consuming some allopathy medicine (To which I was allergic) my skin use to turn black. People used to have family doctors, but for me doctors were family, as I spent more time with doctors than my family. On the whole their were less parts in my body without problems than the parts with problems I was totally irritated and vexed with allopathy medicine I also tried ayurvedic, homeopathy, home made medicine etc,..But there was not much improvement, at this moment one of my relative told about the zero therapy & Vipin uncle, as I was just searching a way to get rid of medicine & my pains, I immediately attended the Monday sessions In the very first meeting, I saw people getting cured of critical illness, just by attending one session & hearing the lecture and replies of this wonderful legend (Vipin Uncle) and to the queries asked by the people, my curiosity to know more about zero therapy increases.

With just attending couple of meetings, I was totally inclined towards zero therapy and vipin uncle, I forwarded a request letter to vipin uncle to enroll me as a members of the prestigious zero therapy family, with God's grace, humble and kind hearted Vipin uncle accepted, whole heartedly my request.

First Vipin Uncle stopped all my medicine, made some changes in my food habits. But I was scared to stop my blood pressure medicines, as doctors have advised me "that once you have B P you should take the medicine daily for rest of your life else you are taking a chance with your life" but with full faith in zero therapy & Uncle I courageously stopped all my medicine, since then (Dec.2006) till today I have not taken any type of medicine touch wood from that day all my Health problems have been cured. Thanks to zero therapy which has become a boon to my life.

"BOON IS THIS THERAPY CALLED ZERO"

"THANKS TO VIPIN UNCLE THE REAL SUPER HERO".

There after my wife Manju brother Shyam & his wife pinky also became a part of zero therapy family. My wife was an asthmatic patient and also had joint pains once it happened that my wife's wrist twisted & she was not able to keep her wrist straight, everybody in my family were scared and advised to go to the doctor. But my & my wife's faith in zero therapy was very strong, we just went to vipin uncle & he prescribed some simple changes in food habits & she (Manju) was cured with in couple of days. At the time of joining Zero therapy my wife's wait was around 43 Kgs now her wait is 55 Kgs. My younger brother Shyam still wonders how his hypertension (BP) is normal without taking any BP Medicine and even after consuming lots of Ghee, Salt etc. which were restricted by the doctors. just by little change in food habits, good thoughts & positive thinking advised by vipin uncle, made such a difference.

Subject : Astigmatism

My son, B. Pawan Kumar (8 yrs.) has been wearing spectacles from the age of 5. He was diagnosed to be suffering from Astigmatism by eye specialists. Every year his eye power increased and presently it has  $+4$  power in both the eyes. After we consulted Vipin Uncle, he immediately diagnosed that his problem was due to a banned drug (NIMESULIDE) which was administered to him when he was suffering from dengue fever at 11 months of age. Now my son is undergoing treatment from Vipin Uncle and feels a lot of improvement in his eye sight by himself.

Respected uncleji,

## Today , if I am able to speak..... its all because of “U”.

I am in to computer business & on an average , I attend 400-500 calls per day.

In the year 2006, I slowly started feeling problem in my throat. It used to pain heavily while speaking & as time went.... I gradually lost my voice.. can u imagine .

LIEF Without VOICE. “ its really terrible”

I had spent 30 days without speaking.. just keeping a pen & paper to write my expressions / my thoughts....

After taking medicines as prescribed from ENT Specialist Dr. Bhaskar, I didn't get a sing of relief. Then I went to padma shree Awardee Dr. Mohan kameshwaran. After doing the required tests.. I was answered..

“Hitesh.. Forget You can talk for Life...”..

I was really shocked with his immediate reply. I was told that there was an inflammation in my vocal chords &

because of which., there was difficulty in speaking

I had taken the prescribed medicines & after a few days I was able to speak a little bit. I was also under strict voice rest. I was given medicines, because of which I slept more & it gave me an indirect voice rest. After a few weeks of this, the voice disorder started again, this time the pain was too much. I was not able to utter single word.. Only air was reproduced, instead of voice. Our entire family was disturbed because in such young age. .. if your are left out without being to speak... its really a big pain.

We then went to Dr.K.K.Ramalingan ( ENT Specialist). It was an amazing answer from their side. they said .. I need to take voice rest.. for quite a few days & apart from that.. I was advised to get my tonsils operated. It was very stressful & painful time of my life.

We finally got the contact number of Dr. Sanjay Gandhi (India's Leading Vocal Chord Specialist, mangeshkar hospital-pune ). I then checked in the internet about him. We then couriered our entire reports of the vocal chord to him & he claimed that the existing treatment was fine but for any further updates.. it was necessarily for me to be there. He was of course right.. how could he treat me by seeing the reports.

Since the problem was increasing, we were trying our level best efforts to show the best doctors..

In between all this .. I was referred to a Doctor from Royapuram by one of my friend.

After the required tests, He prescribed few medicines. My elder brother went for buying the medicines. Luckily, the store owner was a known person. After seeing the

prescription, he asked for whom was the medicines. My brother said, it was for me... After putting pressure on him, the owner said that

“this medicine was generally given to patients with mental disorders. After taking in the patient will feel sleepy & indirectly will give voice rest....”

Between all these fuss going on in my life. I was lucky enough to meet Shree vipin uncle. On my first visit to him, I was clearly told .. please come in a systematic way. He was absolutely right. It was required for me to understand ZERO THERAPY's system.. Rules & Regulations. on my next consecutive visit.. I requested uncleji, to start my treatment. With god's grace... I was lucky enough to get a positive sigh from his side. My treatment was started & I was prescribed the Do's & dont's in the food intake. For the next 7 days.. there wasn't any sigh of relief & my confidence level wasn't high.

I was still having a double mind.. whether should I go to a Doctor for treatment or should I continue the treatment under Zero therapy.

Since the Situation of mine remain unchanged.. I finally booked Tatkal tickets to pune to visit Dr. Sanjay Gandhi who was referred by one of our relative. On the day before starting to pune, I went to show to uncleji as a routine check up. I was under a deep trouble.. Should I go to pune or should I not. I asked myself & wasn't able to decide. I then slowly realized that I was able to speak a little from the last 2 days & the pain was low than compared to the earlier days. I asked my self.. Am I doing a right by going to pune..

My conscious said No.. I Thought.. if I go once for a check up.& I need to forget Vipin uncle cos its not possible to hide

any thing from him.

“He SCANS our body like a COMPUTER. He never requires any sorts of test to check what problem ur having.....”

Finally, I became restless. i firmly made a strong decision to cancel the trip to pune. I immediately went to my dad & said him the fact. My dad was lit rally shocked. He asked me more than 5 time.. Am I taking the right decision????

Yes was my answer to him & from then on I haven't seen back side.

I then realized that the more I gained confidence on the treatment, the faster I was able to get cured. After this.. it didn't even take 14 days. I was fine. I was able to speak for the whole day without any obstacles & I never took any kind off voice rest. i cant explain.. What sorts of happiness a men gets when gets his voice back..

The best beauty finally was.. when I went to uncleji to claim that I was able to talk..

“He laughed & said. So what's new in that. U never had a big problem. Now on your are free from all sorts of treatments...”

I was really amazed with his reply. I couldn't imagine.. how could a person be like him.

“ He's given me a new life...”

my only request to all is that.. Just trust the therapy & uncleji.. Ur confidence will in turn help you to heal faster that you think. Have faith on it.

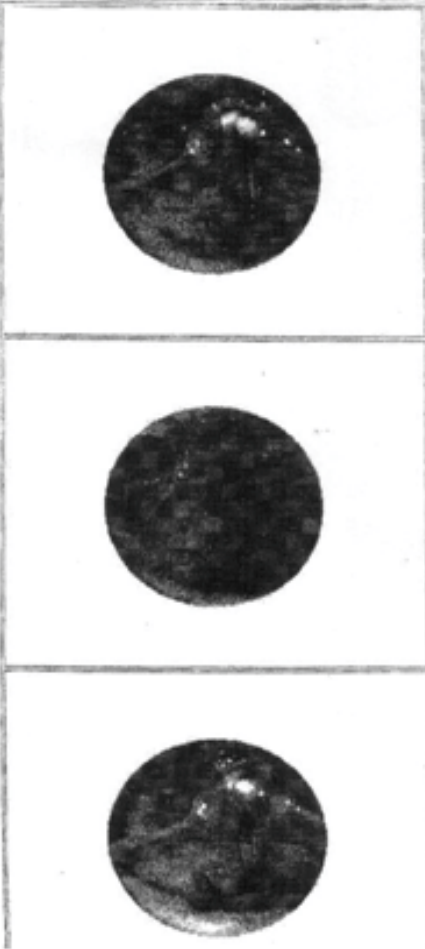

Regards,  
Hitesh .S. Vajawat

Zero therapy to me is unique, sacred and a vast science which encompasses healing and curing people internally and externally as well taking into account ones medical history, present health condition, geographical location, climate, family background, pschysological make up and many other such important factors. It is a science based on harmonizing system of development for body, mind and soul.

Chronic Cold & Fever:-

It has been 8 years since i am under uncle's treatment. I had approached him for my chronic cold problem which used to recur atleast once in every 20 days since my teens. Due to this i used to get recurrent fever and used to feel extremely weak and extremely low on resistance. I have tried almost all the best ents in town and have taken all possible kinds of treatment including allopathy, ayurveda, homoeopathy, siddha, yoga etc., but there was no marked improvement in my problem. I have taken medicines for days, months and years together but there has been no cure. I have also tried all the possible nasal sprays but none helped. Medicines, sprays, yoga used to work for a while. But in a fort night i am back with my terrible cold, sneezing, running nose, chest congestion fever and what not?

Finally, i decided to resort to zero therapy. I had a prior idea that zero therapy is a treatment to repair the body as a hole and not just a specific problem.

Immediately i started my treatment under uncle. Within just a month i started feeling a difference in my overall health. As a result the frequency of cold and fever declined and today without exaggeration it has been 9 months at a stretch since i have contracted cold for fever with his simple food specifications and precautions. I was feeling completely alright and free of sneezing, cold fever etc.,

Just a special mention again that from a level of getting cold almost every once in fortnight to a level of not getting at once in a period of 9 months also, without a single medicine or yoga is a tremendous improvement which i had never imagined. All my family members were amazed looking at the drastic improvement.

Swelling over knees:

In 2007, i had moved to bombay and there was a gap in following uncle's treatment.

Unfortunately after going there i had got swelling over my knees due to which i used to have lot of pain when i used to walk and there was an imbalance in my legs. Immediately we rushed to our family ortho doctor. After nearly 4 scans he diagnosed the problem as "sinovitis in knees" which usually happens only to older people above the age of 60 or so. I was shocked to have it at this age. He immediately asked me to take complete bed rest at least for a period of 3 months and ;had given me around 12-15 tablets a days including heavy steroids. But there was zero improvement and my health condition started worsening due to heavy dosage of medicines. The steroids used to make me feel extremely drowsy and sapped out off strength. In spite of taking medicines for about 35-40 days, every time i used to walk my legs used to feel heavy and the swelling used to increase and not decrease.

On telling the doctor he increased the dose of medicines and steroids, which i took for another 2 months but my condition was the same with no major improvement.

Finally, i moved back to chennai and approached uncle. He looked at my tongue and said that the problem was quite serious and that would take some time to get cured.

On looking at the tongue he could make out that i had taken steroids and heavy dosage of medicines. Under uncle's treatment i was asked not to take rest and that i can move around and walk as much as i want, completely opposite to what the doctor asked me to do. That was a huge relief factor for me.

It is unbelievable but in just a matter of 12-15 days my legs were feeling lighter and my health was feeling good. Swelling started decreasing gradually and the best part is the swelling did not increase how much ever i walked with just simple instructions and food specifications my swelling faded away and the heaviness and the inbalance in my legs, all vanished.

Without any exercises or medicines i was cured of my swelling and today it has been 1 ½ years i haven't got it back.

Never thought that in just a couple of days i would get cured of such a serious problem which the best orthodoctors told that might take 3 months, 5-6 months a year or even more.... And that there was no assurance whether it would get cured at all. I am immensely grateful to uncle.

#### Chronic stomach pain

Six years back i had chronic stomach pain, used to vary from the center, to both sides of stomach at intervals. It was extremely severe and unbearable. There was also a burning sensation in my stomach and the pain used to be cramping.

Immediately i rushed to uncle and he diagnosed that empty stomach is causing all the pain that i be eating at least every hour to get read of it.

Initially i could not believe him, but my practicing what he said for about 4-5 days i could notice the change. The frequency of stomach pain declined and after few more days disappeared.

A doctor in any case, would have asked to take a scan, prescribed a list of medicine for the stomach pain and even then his diagnosis would have been inaccurate. Under uncle without any medicine or scan i am free of my stomach pain in just about 5 days.

## 1st pregnancy

I have been under this therapy for the last eight years and have been treated by vipin uncle for various health ailments, the most important of all being 'my pregnancy'. I therefore would like to furnish my pregnancy related experience solely and solely for the benefit of human society who cannot imagine a life without doctors and medicines. I am sure my experience would change the perception of the many, for whom medicines have become part and parcel of life.

I visited uncle for one of my normal consultations and guess what, he looked at my tongue and said i was "pregnant". It was unbelievable diagnosis from him as i had least expected it. To reaffirm i took up the pregnancy test the same day and it was positive. I was amazed at the accuracy of uncle's diagnosis.

Every woman wants to bring the best to her baby in all respects, so she seriously consumes a list of calcium, iron, folic acid, multi-vitamins which the doctor prescribes for the overall development of the baby. Since i was under zero therapy i chose to avoid taking these tablets and followed healthy eating habits.

I was under one of the leading gynecologist of chennai and as a practice she prescribed me to take the necessary scans and blood tests during the gestation period which as expected were completely normal, inspite of me being devoid of all forms of medication. The growth of my baby was completely normal and was a good ascending graph.

At this point, i would like to bring to the notice of all that the size of my baby was a little big and as i was already post due date, i consulted two alternate leading gynecologist and both insisted me to go in for a 'c' section as according to them the amniotic fluid was quite high and that the baby was growing rapidly which would depreciate the chances of having a normal delivery. But thanks to vipin uncle i decided to wait and successfully delivered a 3.5kg baby normally on 3rd april 2009. If not for zero therapy this would not have been possible. I'm deeply grateful to him

My baby, ditii when born was perfectly healthy and the pediatric check was completely normal. She is five years old now, is extremely active and devoid of all vaccinations and any other form of medications. Restraining our child of vaccinations is the best gift that we as parents could give our

kids, as infusing such powerful chemicals right from the birth not only completely hampers the physical health but also tarnishes the purity of the young soul – the reason for all this being, zero therapy.

I proudly confess that in the last 5 years there has been no particular instance of any kind of sickness in my baby which i am sure in comparison to other babies is truly "remarkable".

Is this unbelievable?? Yes may be for all those who have surrendered themselves to doctors... and certainly not for those who are open to modify their lifestyles a little to bring about a miraculous change to their lives and many others , and enjoy the benefits of good health above all harmony of mind, body and soul.

This therapy is truly magical in every aspect as there is not been a single ailment which the therapy is failed to cure. Everybody has an inherent power to cure itself which we most of the times fail to understand. To get cured under this therapy calls for immense belief in the fact that there is no greater power than one's own body to heal all ailments, openness of mind to abide by food specifications(eating healthy), and your works done...the intensity of the thought to get cured is the essence of therapy.

Zero therapy, in a nutshell, makes the impossible – possible, cures the incurables, and purifies the soul, thereby bringing about an eternal change in the lives of the masses.

Zero therapy is the ultimate healing therapy, above all the existing therapies in the world.

My mom's experience

My mom was suffering from series of disease like ulcers, high bp, thyroid, frequent vomiting, body pain, headache and constipation. Here ulcers were very sever and numerous in number. They use to constantly give a burning sensation and would lead to chronic vomiting and indigestion. We contacted a lot of specialists and doctors and also based on their diagnosis undertook several medical treatments and also underwent endoscopy which was very painful and showed a lot of ulcers in the report.

After taking medication for close to 18 months there was no relief or significant improvement in her health condition.

One major side effect of medicines was, she developed innumerable ulcers inside her stomach, about more than 1000 ulcers which used to burn and bleed at times. We performed an endoscopy for her, which again is a very painful procedure wherein they insert a pipe through your throat into your stomach to have a clear view of the ulcers. The test confirmed that she has over 1000 ulcers in her stomach.

She was on medication for ulcers for a long time, the side effect of which she developed hearing impairment. We again visited the top ENT of Chennai and he said that one of her ear drums are slightly damaged and she was again on medication for that.

The more medicines, more the ailments and the more ailments, more the medicines. Where is the question of getting better then?????

Finally luck struck and I took her to Uncle Ji. The moment he looked at her tongue he said there is nothing to worry, nothing major.. We were amazed because she has been having numerous problems, and he says there is nothing. His diagnosis is so amazing that he asked Mum whether she uses balm and Mum said yes, she also added that she cannot do without balm and that she uses easily for about 3-4 times a day or even more, and that was the crux of her problem. Thereafter my Mum completely gave up usage of balm or anything else possessing a strong smell like perfumes etc..

She immediately stopped all medications and started zero therapy and started following the list of do's and don't's and made significant changes in the food habits and started consuming only from the list prescribed by him.

She was getting relief from constipation which was the root cause of all problems, and thereafter one after one automatically her health issues were getting rectified...ulcers were better, no BP and thyroid, ear pain also much better..we could not believe the upward graph in her improvement, was remarkable indeed.

Today Mum is feeling absolutely fine. She is free from all forms of medication and treatments and completely under Uncle Ji. She got her BP and thyroid tested, they are completely normal, and her ear pain is also almost faded away.

With the food items prescribed by Uncle Ji she is overall feeling energised and her motion and urine has improved drastically after following zero

therapy for a month. Her ulcers have vanished and also the frequency of contracting fever, headache and nausea have also become negligible. In all her health feels much much better from before and she is become emotionally more stable after following zero therapy.

The frequency of dizziness due to blood pressure variation also saw a marked improvement from what it was earlier. Her overall health has improved and she feels healthy and better.

In addition to curing all her health ailments, her ear pain and vision got better automatically in the course of following zero therapy.

It's been 8 years since me and my mother have been following this therapy and we don't have words to express as to how grateful we are to uncle ji and his unique therapy.

### 2nd pregnancy

I was pregnant the 2nd time and needless to say that zero therapy is what i adhered to again.

Contrary to the myth of with the changes in time, one's body also changes. Zero therapy has proved once again to be a boon for me and my family. I simply adhered to "eating right and eating healthy" without any medication and pills for the entire gestation period and once again delivered a healthy baby weighing 3.8kgs on 8th april 2014.

Both my deliveries have been normal and my babies healthy, thanks to the beauty of eating right that i could feel fit and healthy during both my pregnancies.

### Post pregnancy:

As in both my pregnancies i have followed zerotherapy post delivery also i did not take any medication apart from the ones given to me in hospital, which was unavoidable.i also did not consume anyof thestuff which marwaris do post delivery like ajwain, saut,pipramol, and other laddus and sweets which are believed for cleansing and strengthening a womans body post delivery. I jus consumed normal food and few sweets which were prescribed to me by uncleji.consuming saut and pipramol and other stuff over decades which have b een followed by marwaris is a myth that is going to best nourishment that new mothers can have.infact they have such strong odour that at times it doesn't even suit

our bodies. In spite of me being devoid of all those also i am still feeling fit and healthy. a zero therapy body just knows how to bounce back on its own.

### Diagnosis in zero therapy

Diagnosis in zero therapy has been accurate, instant simple and straight forward. The theory of alternatives doesn't apply to zero therapy as when a diagnosis is made it has to be accurate with either 'ors'.

I therefore enlist below the list of diagnosis made, their remedies and cure in certain cases.

In 2007, i had got swelling over my knee. The doctors diagnosed the problem as "sinovitis" of knees and hence advised me bed rest for months and advised me to take steroids as medication. The swelling had a direct relation to my physical activity, the more intensive the activity greater was the swelling and vice versa. Excessive rest and steroids had worsened my health with no traces of improvement.

On my very first visit to uncleji, immediately after looking at my tongue he told that "you have taken steroids". I was totally zapped at the accuracy to hear that and after which he said that bad motion and urine has led my body to the state it was. He started my treatment and i started abiding by the diet he prescribed and started performing by routine physical activity without any medications. Unbelievable but true, within a fortnight there was a drastic change and i was able to do more activity with relatively lesser pain. Not even a month was over i resumed normalcy for a condition which doctors "knew no time frame and a cure". From there on i simply hated to see a doctor and was extremely happy to become a patient of zero therapy.

I have been a chronic victim of sinusitis and allergy to dust, smell etc for the last 15 years. Almost every month i used to suffer with throat ache followed by cold accompanied with excessive sneezing and high fever. At times my condition used to get so worse when i used to bleed from my nose during sneezing. Having these problems on a regular basis, i used to feel extremely weak and sapped out of energy. I visited uncleji for the same and his diagnosis to my problem was simply outstanding and accurate. He asked me if i used to have papaya fruit to which i replied stating "lots of them" as it is my favorite fruit. He told me that eating

excess of papaya was the culprit to my excessive cold and i should refrain from eating food items which causes either

Excessive heat or excessive cold in the body. He asked me to consume foods which are neither "hot" nor "cold" but just neutral. This i felt is a breakthrough remedy, because after modifying my food habits according to uncleji's instructions the frequency of getting cold declined dramatically to a very large extent and i was feeling amazing to have not got it every month as i used to previously which was a tremendous improvement of my state of body. I also wish to mention that i had tried all the possible forms of medication available to mankind like ayurveda, allopathy, homeopathy, siddha, yunnani but all in vain. But with the help of zero therapy, it has given me a new lease of life.

In one of my regular consultation with uncleji, after looking at my tongue – guess what, he told me that i was pregnant. I was totally zapped at his instant diagnosis as i had least expected it. I went back home and took up the home pregnancy test and unbelievably as per uncleji's diagnosis, i was pregnant. This was by far one of the most straight forward, accurate and instant diagnoses by uncleji.

- A. Walking difficulty: one fine morning, my daughter suddenly was unable to walk and was very uncomfortable in standing. I was very paranoid looking at this and rushed her to uncleji. He asked me the list of food items my daughter had the previous day. Among the regular items i had given her orange juice which according to his diagnosis was the reason for my daughter not being able to walk properly. He asked me to give her kheer, badam and dal ka seera and by evening she was fine and was playing. He told me that the orange i gave her was not good which led to her pain.
- B. Leg pain: Once my mom's legs were painig terribly, uncleji immediately diagnosed the problem and asked her to change her footwear. She was completely fine after doing so and had stopped wearing those footwear.
- C. Fever: Once my brother's daughter (5yrs old) had high fever and wasn't even ready to eat anything apart from being aloof from everyone at home. We brought her to uncleji and he assured us that she was not having any medical issues. He told us that the child will be alright if we took her to a play area or by taking her to the beach and also by showing her various vibrant colors and also offering her

food items that she preferred. He also advised us to pamper the kid and make her feel special. These things when put into practice brought Tremendous change in her and she was happy and was much better than earlier. Big thanks to uncleji's quick and straight forward diagnosis

- D. Throat pain: Once my throat was paining terribly and i was unable to swallow anything. Uncleji asked me to have "malai and sugar" and within a day i could see a vast improvement was able to eat normally.
- E. Smell / odour: Once i was totally down with cold, fever, severe ear pain, head ache and continuous sneezing. Uncleji after looking at my tongue asked me if i was exposed to any strong odour, smell or perfume... i thought for a moment and realized that a day before we had someone at our home spraying pesticide at home because of lot of mosquitoes and cockroaches at our home. This immediate diagnosis was helpful for me to avoid falling sick in such situations going forward.
- F. Heel pain and stiffness : About a month back i had this chronic heel pain and stiffness in my fingers and joints.i consulted uncleji and he said theres no major problem , its just there is deprived blood circulation in those areas and the medicines injected during pregnancy may have caused this.once they are flushed out through stool and urine it will automatically get better, alongside he also asked me to do very mild feet excercises to facilitate blood circulation in those areas. Yes indeed by just being Patient and just sticking by what uncle said the body has the power to repair itself on its own. One just needs to believe in this fact.

What matters to the body is what goes inside the body.

What matters to the body is what goes outside the body.

Benefits i reaped out of zero therapy

1. Quick and accurate diagnosis of any ailment, be it physical or physiological or mental quick and instant cure or remedy for it while making sure the problem is rooted out completely and is not a short time solution unlike in the case of taking medicines.
2. Just by simple food combinations and precautions one get cure unlike undergoing scans, x-raysand medicines which makes one feel more sick.
3. Repairs the body as a whole and not just the ailment unlike in the case of any other mode of treatment, where only the problem get treated.

4. In case of any other mode of treatment like allopathy, ayurveda and homeopathy, siddha medicines taken for the treatment of a particular problem might and will surely adversely affect some organ of the body and pay way for a bigger ailment, unlike the case of zero therapy where the body itself is repaired on the whole.
5. In the process of repairing and correcting the body as a whole most of the minor and major problems get automatically corrected without mentioning them to uncle.
6. Medicines, injections, scans, etc have immense side effect on one's body and makes the body weak and can never be a long lasting cure for the body.
7. Under zero therapy one gets cured by normal food items which are readily available and extremely healthy for the body and same one from going through the exorbitant expenses of medicines scans, etc.
8. It is a multi specialty therapy where all the organs get repaired at one place saving one of having to go to different hospitals and specialty clinics for different organs of the body.
9. In the process of curing the body, the soul of the person also gets purified...the benefit of which cannot be measured as anything connected to the soul has to be felt and cannot be quantified.
10. It's a therapy so pure that actually makes the person following it free from all unhealthy eating habits which not only have harmful effects on the body, but also the mind and soul.

To sum it all:-

Zero therapy is a therapy to treat anything under the sun....

A physical ailment

A physiological problem

A mental problem

A infant problem

To facilitate harmony

For better ment of soul.

Being under this therapy, in short is a blessing and boon by god, it's a therapy for mind, body and soul.

# DIAGNOSIS

Some of the experience shared by people  
showing the credibility of this science.

One day when I woke up, I found that I wasn't able to walk or even get up. I was helped by my family to get up from the bed. I was suffering from fever and my knees, fingers and the whole body was paining a lot. It was CHIKUNGUNYA. I then went to Uncleji with my brother. Uncleji immediately diagnosed my problem and also identified that I had not consumed ghee for a long time. He then suggested me to eat ghee in every item and have Milk halwa, khichadi, pongal, tomato, cabbage etc. I took all these items as per Uncleji's guidance and surprisingly I got ready within 4-5 days.

CHIKUNGUNYA is a disease comes to the person who does not take clarified butter heated.

The purpose of visiting uncle was that I had HYPOTHYROIDISM. The instance he saw me he said I don't have thyroid, it was because of my irregular periods I was gaining weight. He was undoubtedly right as my periods were irregular. For my surprise his next diagnosis was that when we moved from a joint to a nuclear family I had lost a lot of weight because I moved away from my grandparents. This is something which no one can ever analyze.

Simple common sense that by looking at the patients double chin I am able to find out periods are not proper. Thyroid is nothing but irregular period – the reason may vary from person to person.

One day I was feeling very weak and giddy and so I went to uncle. While entering uncle's place I thought that uncle will ask me to sit in the cabin inside and he will ask me to eat DAL KA SIRA and exactly that's what happened. He asked me to sit inside and asked me to eat dal ka sira. I was surprised how thoughts and aura works in zero therapy.

This is a clear proof that thought have Aura which radiates heat and that is picked up by me through IR senses and hence thermal imaging for there is no object.

My mom was undergoing medication for last three years. It started with CHIKUNGUNIYA, followed by FUNGAL INFECTION, then CHOLESTEROL and JOINT PAIN. Every time visited her doctor she found out that there was something new to attack her always. If one of the disease was addressed there was something new coming up. One fine day she decided that she will not medicine anymore and she will follow zero therapy lifestyle. She stopped all her medicines (which she was taking continuously for three days) and started following zero therapy

lifestyle. Un believably in four days she was feeling better. She was feeling good and uncle diagnosed her problem that it all started with throat, but other than that she was treated for everything. In less than her a minute her problem was diagnosed.

One day my (8 year old) son Naman vomited twice in the school during snacks time and lunch time and again in the evening he vomited at home. We were worried because of vomiting. We went to Uncleji he after looking at his tongue diagnosed and said nothing to worry, whatever problem he had that has been thrown out by the body in the form of vomiting and prescribed nothing. We came home happily.

My son Naman (8 year old) had severe toothache because of cavities in the tooth. He was not able to sleep in the night because of pain and cried a lot. Everybody suggested for filling (root canal) of the damaged tooth. We went to uncle and he suggested for GHEE KULA and in 2-3 days the pain disappeared.

From past four years my son has not visited any doctor or any other therapy for his health problem.

I did not yet regular periods for two months. I went to Uncleji and even without looking at my tongue he said you have eaten something which has cool down your body and actually I had eaten too much of Gulkand ( fresh Rose petals with Sugar). He suggested me to have zero therapy tomato soup and I got my periods.

One day I and my husband went to Uncleji. He saw our tongue and said both of you had some common thing in the morning and that morning we had green chili pickle. To cure the effect of that he has suggested food for both of us but the food was different according to our condition.

I had severe cracks in my legs and because of pain I was not able to walk properly. I showed to uncle. He said did you change your chappals (slippers). I changed my slippers. I was asked to wear cotton, jute or leather chappal and asked to apply hot ghee on the cracks. Pain disappeared in 2-3 days and cracks took 2-3 months to get cure.

One night I suddenly had severe pain in my left leg. The pain was so severe that I was not able to move or lift my leg. It was a clear symptom of paralysis attack on my lower body. Next day I went to show Uncleji he said your body weight has reduced that is the reason for pain. I checked my weight and was surprised, as my weight was reduced by 2kg. Uncleji

told me to increase my weight and the pain will go. He suggested Badam Halwa. I had the same and with in 3 days my weight increased and pain disappeared.

On Diwali my one year old daughter had severe fever and running nose. I took her to uncle. He told me it is due to crackers smoke and she was asked to eat "malai" within one day my daughter was alright.

I had severe pain in my shoulder. He asked me to do breathing exercise, within half an hour my pain disappeared.

Once when my daughter was six months old, she had severe cold and cough. Seeing her uncle told it is only due to dust in A.C. After removing the dust from A.C. within two days she was fit and fine.

Suddenly I had vision problem. I could not read clearly. Seeing me (uncle) told it is nothing to do with my eyes, probably, it is related with my mind. He told me that you must be having stress. I was shocked to hear this. He diagnosed me perfectly. In those days I had severe stress. And there was a happy ending.

Once my son aged 3 months was in Ahemdabad and he was crying, wasn't eating. My wife called up Uncleji and he figured out that the child was scared of noise. When we recalled, it was sound of mixer.

My wife had constipation problem for 10-12 years. Uncleji asked her to stop taking saunf. She did and got relieved from constipation problem.

Once my son was not having any food. The next day we met Uncleji in the 'get together' meeting. He just looked at him and found the reason Child was scared. mechanic had come for cylinder leakage problem at my place earlier in the day .

I once had a severe head ache. Uncleji found that it was because of the body heat and not because of the food I ate. His remedy was to apply oil on my stomach, which actually worked out.

My elder daughter was practicing dance for annual day. She got cramps in her neck, she couldn't dance. Uncleji's treatment of food cured her pain and she could dance on annual day.

I was in Bangalore and all of a sudden I had a bad eye pain. It was red, watery and swollen. The next day I returned and visited Uncleji. He told that eye was watery because of dust and swollen due to cold temperature.

Once my father-in-law came down to visit Uncleji for the first time, just by looking at him, Uncleji found out that he had been taking trifla powder from a longer time, which he actually did.

My son had watery eyes one day and had cold. Uncleji found that it was because of the fragrance and actually that same day guests happened to be home.

Once my elder daughter had stomach ache, when we visited Uncleji, he immediately said she had Noodles recently and she actually did have Noodles just a day earlier.

Whenever we take our son to Uncleji, just by looking at the child he could guess out if his weight was increased or decreased. And every time it happened to be correct.

My younger daughter had cough during Diwali. After a few days it was severe, she couldn't stand it, couldn't talk. Uncleji told it was because of chemical in the body, looking at the tongue. And yes, it happened due to bursting crackers during Diwali .

At the age of 6 months my son had a blood clot in left thigh. When he was 1 year old, the thing grew to a ball shape. Uncleji's comment on it was 'its all because of medicines and injections given to my son and wife operation.' Uncleji converted this puss into liquid form very easily. My son went through no pain. We were asked to manage it with ghee or oil based on climate and nothing else. Today it is almost cured. I couldn't believe my eyes. It's a miracle for us and is impossible for medical science to cure it without any form of surgery. Out of my family pressure I had even consulted the doctor once, and he told it couldn't be cured without the surgery

I had sinus problem for 7-8 years. Later, I met Uncleji and his immediate diagnosis was that I had no Sinus problem. It was only because of having Cold Water after sweating on sunny days.

Uncleji was the only one to figure out that my son at the time of birth did not have a connection between his brain and the rest body. We did not know, we found it normal because he was infant and not supposed to be stiff. That thing could have resulted in a kind of paralysis. I'm very much thankful to Uncleji for helping me out.

My son was 3 months old, he was in Ahmedabad. One day he kept crying a lot, so my wife called up Uncleji, he happened to be in train. He figured out that it's just because the room was packed, so let the fresh air come in, we did the same and the child stopped crying.

One day while we were at uncle's clinic, just by looking at my son he told that the child was upset because of room freshener or perfume's smell. When I recalled, we actually were in a shopping mall for few hours.

I came to Uncleji for low hemoglobin count and also for weight, which has been reduced almost by 5 years. Diagnosis:- By scanning tongue Uncleji told that hemoglobin is 9.5 and the reason for weight reduction is because I have taken one month medicine for hemoglobin and also I have consumed dates to increase hemoglobin. I have been advised to take Badam mishri paste, soaked badam and ghee goagle.

I went to Pune for a marriage, I suddenly slipped on the road, I was not even able to walk or move. I just called up Uncleji from Pune, he diagnosed in fraction of minutes and prescribed application of Ghee and I was all right in just 2 hours.

This is my experience by Uncleji that I went for (ear drum hole) I got appointment letter and just seeing me Uncleji said "madam you went to Doctor. I just can't believe how he said, then I said I went for fever. Uncleji said here whole body is cured by zero therapy. Not a single organ.

I had a severe fever of 104 degree . I was not even able to go to school. I went to Uncleji and he diagnosed by seeing my tongue and within 8 hours I was all right and next day I went to COW BOY Country school tour. No one can as in this case diagnosis so quickly.

I went to Uncleji for fever and through pain, Uncleji saw me and said you have smelt a powerful smell. Then I said Uncleji I went for hair cut there next to my seat one person was applying camphor based hair oil that smell Uncleji diagnosed in fraction of minutes no one can do.

I was on tour to Gujarat. I was not able to speak properly. I called up Uncleji . He diagnosed so quickly that there the weather is too bad.

My eye had become completely red. I did not know how that had happened. I went to Uncleji and he said it's either because of some injury or because of perfume or deodorants. I immediately recollected that two

days earlier I had been in the presence of people who had sprayed excessive amount of perfume. In another two days my eye was fine through Uncleji's treatment.

My 2 and half year old child vomited every time after intake of food/milk. This continued for 2 days. On day 3 I took him to Uncleji & he took no time to reply saying,

"Its due to smell (artificial sandalwood)".

My son had worms in his stomach. I consulted Uncleji & he just told,  
"He had only sugar (not in syrup or any other form)".

I had wheezing – uncle told "KHANE KA GADBAD HAI" and diagnosed that I ate custard apple during night time. The problem was treated by warm water splash and nothing else.

I had severe vomiting and headache. It was diagnosed that I ate khari biscuit. I was treated by badam mishri paste and kheer.

I had puss ulcers on the body. It was diagnosed that I ate thin skinned fruit (grapes) and food colour(cream biscuit). Treatment given was badam mishri paste and jeera mishri water.

I had severe toothache. It was diagnosed that I ate some item of jiggery (churma). Treatment given was frequent goggling of water with water ghee drop.

I had swellings on my face, it was diagnosed by uncle that some insect bit and was treated by warm jeera water and carrot halwa.

I had severe fever and cough. Vipin Uncleji diagnosed that it was due to smell or cockroach spray(hit).

I had cough and I was unable to sleep in the night. Uncle diagnosed that it was due to the atmosphere and told to open the windows of the room while sleeping.

I had severe fever and vomiting. Uncle diagnosed– it was due to outside food. Treatment was badam halwa and milk.

Once I was having stomach pain from four hours in the evening. I went to Uncleji and pointed the place where I had the pain. Very next second Uncleji replied, today you have taken lunch very late, very less and in anger. And exactly the same was happening that day. Uncleji told to

apply CHANDAN on my stomach and after sometime the pain was vanished.

One day I went to Uncleji in the day time. Moment I entered Uncleji asked me whether I have pain in my legs? I said 'NO'. Then he asked have you changed your footwear? And yes it was very much correct.

One day a patient told Uncleji that "I am having SWELLING over the ankle". Uncleji said your FOOTWEAR are very old torn and it was correct.

I skid from my scooter and my right leg, hand, chin was scratched and nose fractured, swelling in chin & knee. I went to vipin uncle. Uncle just saw me from 3 feet and diagnosed me with prescribing some food items. I consume food as per prescribing within a week I am totally cured and there is no marks in my scratches.

I am having problems past 10 years back and was operated again the Hernia was formed 5 years back. I again consulted the doctor. Doctor advised me to wear He4rnia belt regularly but there was pain in my stomach if I not wear the belt 2 months back I went to uncle for Hernia treatment uncle told me to first remove your Hernia belt and I removed the belt. Meantime I met an accident and was diagnosed by uncle for accident case. It was miracle that my Hernia also automatically cured. Thus in zerotherapy whole body is treated not single illness or organ.

One day I met uncle in his clinic and offering flowers and said "JAI PRAKRUTI" just hearing my voice uncle says why your voice is very bad today was there any incense stick burning around you. I was shocked uncle was right what a Diagnose within a second.

My husband has mouth ulcers on the tongue uncle diagnosed that it was due to paan.

He had cuts on the tongue. Diagnosed made- it was due to pepper (murukku), treatment given was ghee pani goggling & malai.

He had severe fever and throat pain. Uncleji diagnosed that it was due to imported fruits (Australian grapes). Treatment given was ghee kichadi & kheer .

He had two minor accidents within 15 days. Uncleji diagnosed that it was due to some family problems.

He had constipation–Uncleji diagnosed –it was due to coffee. Treatment given was tomato guava juice and badam halwa.

He had cough & fever–Uncleji diagnosed it was due to smoke at the wedding ceremony. Treatment was milk and ghee kichdi.

He was continuously doing mistakes in his business works. Uncle told it was due to mental strain. Treatment was badam seera and going out of station.

My mother–in–law had severe loose motions. Uncle diagnosed and said it was due to impure water went inside the body when she was out of station. Treatment was milk with ghee drop and kichdi.

Once she had severe vomiting. Uncle saw the tongue and diagnosed it was due to soda (khamman). Treatment was badam–mishri–paste and apple.

She had severe fever & uncle diagnosed that it was due to orange juice & curd. Treatment was soup and kheer.

My first experience during voice lost:

When I was undergoing treatment with Uncleji for voice lost ... the very second day of my treatment was a shock to me. I went to him due to enormous pain in my vocal chord & he smilingly said (after scanning my tongue) that I had consumed butter...initially I argued with him that I didn't have butter...but then he asked me to sit and rethink what all did I eat the previous day and then I realized that yes...I had eaten butter popcorn...I was standing like a fool in front him... I then admitted that yes Uncleji ..."I had eaten butter yesterday" ...

This was a turning point & this indeed led my faith go strong on him because we don't even remember what we eat in our daily routine where as he SCANS our body by seeing the tongue and gives us remedy..."

Few months ago my daughter had a complaint of "rassi ke chale" on her legs, as days went on...it slowly started increasing and a stage came when she had more than 25 on her legs. I went to Uncleji and he instantly said that she had eaten poor quality salt full of chemicals...I then sat down and started recollecting ...and then I realized that she had eaten tomato salad with salt while we were traveling in train & that was the mere reason behind all these fuss... me & my wife kept

wondering...??? How come he is able to correctly tell us and that too for so small quantity of salt consumed by her a week ago...???

Nine months ago... I had suddenly developed a huge pain a toilet area.. I was not even able to sit due to huge pain...I went to Uncleji ...the moment he scanned my tongue...he immediately replied...did you travel a lot?? I without any second thought said ...yes... I had been to Mumbai and I had traveled 600 k.m by car in a single day...

Isn't it a magic...???

My son Darshan.M.Jain was suffering from skin rashes. I took him to uncle for treatment. Uncle denied treatment and told it is wrong somewhere in intake of food. By stopping that he will be alright. Then he gave some clue which may lead to this sort of problem like raisin, \*\*\*\*\* & corn. Really unbelievable since it is the month of December and in the pretext to see santa clause I used to take him to Spencer's Plaza and daily I pamper him with American corn as refreshment and that was only cause of epidemic. After stopping that within two days skin rashes has vanished like nothing has happened.

As some time uncle visit my office in the morning. As my talking medicine uncle regularly keep advising see over a time you will be deteriorating your health gradually. One day in the morning at my office uncle saw my dad and exemplary remarked you are so enchanting and health is improved drastically. You will not believe my dad told uncle it will be surprising for you that I stop taking all sorts of medicine.

As in the morning some time I used to stand at the side of the clinic where a lady from Chandigarh has come and told "My hand and limb swell the moment I go out of my house". By putting all the data uncle diagnosed that you are living in independent bungalow and as you step out your problem starts which was very much true.

As Jain monks are not supposed to take Allopathy medicine and Zero Therapy is a boon for them. So one monk asked uncle to visit her for treatment of skin. Looking at her hand Uncleji said - " Have you taken Energy tablet around 8 years back ." at that moment she denied but after a while she said yes she had taken lot of energy tablets long back .

Later She was cured.

After returning from school my child started coughing (non-stop for 30 min). I called uncle and he heard the cough on the phone, uncle diagnosed that it was due to some construction work nearby. Uncle`s diagnose was perfect, there was construction work in my child's school. Remedy cough itself is a remedy.

My wife was vomiting for several days. Uncle diagnosed that it was due to perfume.

Once I had fever and went to uncle he diagnosed it was because of eating radish the previous day.

My wife had breathing problem during night, uncle diagnosed that it was because the door and window of the bedroom were closed in night.

After coming from excursion my son had fever we took him to uncle and was diagnosed that he had taken cool drinks.

My eye was red for several days; uncle diagnosed that perfume inside my eye. Remedy- remain in open air and eat badam soaked in water.

I got back pain and it did not go away in 2 days. Vipin uncle said you ate some chemical. I confirmed that I ate vanilla ice-cream with nuts.

My tummy is usually flat but it started increasing. Uncle said, you are eating a lot of Iddlies (south Indian dish made of rice, rice cake), which is prepared by fermentation before cooking.

I got some throat pain, it became sever and I got fever. I got fever because I tried treating myself by gargling with hot water. He asked me to take milk with badam and pistachio and I became ok in 2 days. First day the fever went away, then the throat pain went away. I was feeling very energetic when I became alright.

All my relatives were getting "chicken gunnia ," joint pain for months. Uncle said zero therapy followers will never get it. Me, my wife and two kids, never got it.

All my relatives where getting "Madras eye", red eye problem. They said it spreads if you look into the eye of infected, uncle said zero therapy followers will never get it. Me, my wife and two kids, never got it.

When the whole world was afraid of swine flu, uncle said in Monday

meeting that it not a disease or problem. We were never scared of it. – None of Zero Therapy true followers around 10000 suffered from Swine Flue.

We asked Vipin uncle, why is one kid healthy and the other kid lean under weight. He said both drank different cow's milk when they were baby. We confirmed that one was born in Princeton, NJ and other one was born in Jercy city, NJ.

My younger daughter got fever when she was 3years old. She got fever because we made her bald, and she got scared by looking at the mirror( this was diagnosed).

I was getting Diarrhea, off and on. He said, you increase your weight. I became alright.

My elder daughter was coughing a lot every night at 3 or 4'o clock. Uncle said –" Wake her at 3 o clock and make her pass urine at that time". We did and she stopped coughing.

Just after recovering from typhoid under Zero therapy, my younger daughter again got 104'c fever. Uncle said –"you gave something hot." I said, yes, I gave her hot soup with black pepper.

When I got some skin problem. Uncle said – "this is because some one had tampered your spinal chord in the past."I said, yes, I was given epidural in spinal chord during delivery. He asked me to take pomegranate juice and apply sandalwood powder. I did that and very soon I became alright.

I was suffering from diarrhea. Vipin uncle said "you ate some ready-made pickle in a hotel". I said yes, I ate sambar rice with pickle in a hotel. He asked me to eat ghee and rice. And I became alright.

I went to my mother's house with two kids. All my cousins' kids, about 4years, got chicken pox. One of my daughter just started getting it. Uncle said if your kids are properly following zero therapy they will never get it. As a precaution, he told me to give her soaked Badam and apply cold ghee on the body. She stopped getting it and recovered.

One night my stomach ached beyond my capacity to bear. I had been under zero therapy for a long time but hadn't been in touch with it at that moment. I called up Uncleji and just on the phone, without even looking

at me he said that it was nothing but gas formation in the body. Next day I could actually feel light as Uncleji's treatment relieved my body of the gas.

Once I was in Srinagar when started having dysentery, and within two hours I was in such a state that I couldn't move I called up Uncleji from Srinagar. He advised me to have one teaspoon ghee and sugar and a ripe banana. With great ordeal my husband managed to find a zero therapy ripe banana in Srinagar After having that I slept and when I woke up it felt as if I had never been ill.

On my second day Leh fever and I felt dizzy. Leh which is a high altitude place and travelers there often have High altitude sickness and have to leave from there at once. I called up Uncleji from there and he gave some treatment. The next day, thanks to zero Therapy's miraculous ways, instead of returning we went to the highest motor able road in the world.

Once I had severe body pain. Unable to tolerate the pain, I thought of meeting Uncleji. So that evening I consulted Uncleji and told him about my problem. Uncleji on seeing my tongue asked me if I had eaten mogar dhal. I was totally puzzled with Uncleji's question because the previous night I had mogar dhal kachori for dinner. Having found out the root cause for the problem Uncleji prescribed me the treatment. I just followed them and got cured in a couple of days.

One day after a long bike drive I just went to meet Uncleji. Looking at my face Uncleji asked me if I was roaming out in hot sun. I had to agree with the Uncleji level of diagnosis.

2 year back, When I was about to get separated from my elder brother in our traditional business, I went to meet Uncleji. Looking my face Uncleji asked, "Any family problem?" unable to believe with what Uncleji had questioned I told Uncleji that "yes, me and my brother have come on verge of getting separated"

### **My observation:**

Once I was at Uncleji's for a normal visit. At that time my brother-in-law happened to call Uncleji complaining that his teeth were aching. Uncleji asked him, "Did you have cake?" my brother-in-law told he went for some party and there he had cake. As usual I was amazed with Uncleji's diagnosis and it also raised my faith in zero therapy to much higher level.

My sister who stays in Bombay had called Uncleji and told that she had severe head ache and cough. Uncleji asked her "if there was any renovation or construction work taking place in her environment." She told yes. Having diagnosed the cause Uncleji gave her the appropriate treatment and measures following which she got cured.

One day I had severe stomach ache and disorder. So I consulted Uncleji regarding this. Uncleji asked me if I had pudina (mint) chutney. Uncleji that I had Jain sandwich which contained pudina chutney. With the help of Uncleji's quick diagnosis and treatment. I got relieved of this problem within just 2 days.

During our last summer we went to Kashmir for a vacation. There suddenly I got the problem of stomach disorder. When condition went worst I consult Uncleji. He as usual quickly diagnosed the cause and told me that it was because snowy climate condition of Kashmir. Then he prescribed me the remedy. With that I was back to normal in just a day.

Few months back I had a recurring pain in my heels. So I approached Uncleji with the problem. He quickly diagnosed and told that problem lied in usage of chappals with high heels. He advised me to change chappals to the flat ones. I followed Uncleji's words to my surprise I got rid of the problem within a small span of time

Once I had patches on my thighs. So I went to Uncleji and told him my problem and showed him the patches. On seeing the patches Uncleji asked me if I had applied medicines like \_ \_ \_ derm or things or of that kind. He also asked me if I ate grapes I was shocked with the accuracy and the level of judgment them and got rid of this problem within few weeks.

One day I was lying on my bed with high fever. Unable to tolerate the repercussions of it, I consulted Uncleji. He asked me if I had "water-melon." In fact the previous day itself I had few slice of melon. So Uncleji gave me the remedy for it. And I got cured in a couple of days.

Few days back in zero therapy recreation (cricket nets) suddenly my skin started boiling. Clueless of what's going on, I just consulted our coach (Uncleji). He on seeing my face asked me if something bit my face or did my face rubbed against some tree's branch. Recollecting what happened in nets I remembered that while searching for the ball' accidentally my

face slightly rubbed the tree's branch and from then it started itching. It was a great delight to have Uncleji's diagnosis and remedy on spot and I got cured within just 5 hours.

One day I went to Uncleji (shri vipinchandji) for my skin treatment. The problem was, whenever I used to be in hot condition or in places where the air level was very low, my skin would start itching. It would be like as if someone is piercing needle in my body. I told Uncleji about the problem. He advised me to not use soaps. I just followed Uncleji 's word and now I'm very happy that the problem has come down drastically.

One fine morning I went to Uncleji for my normal treatment. He saw my face and told that I had consumed lots of chemicals which will spoil my health soon. I was totally amazed by Uncleji's diagnosis because the previous day I had some Chinese item .

My observation:

Once I was at Uncleji's place for a routine treatment. I was just waiting there and in that time one of the regular visitor had come to see Uncleji. The moment Uncleji saw him; he asked, "have you changed your soap?" and in totally astonishment the Visitor replied "yeah Uncleji, how can you know this?"

Another instance was when I saw a lady complaining Uncleji that she used to faint often. Uncleji just asked that lady in simple words "Do you do Raatri tyaag (i.e. avoiding consumption of food at dusk)?" The lady replied "yes". As usual I was totally mesmerized by Uncleji's power of quick diagnosis.

I was suffering from severe bleeding, Gynecologist on scan said the uterus bag is getting bigger and hence Doctor gave me treatment. I took medicines for 12 months but still it was not working. Uncle diagnosed the problem there is no problem thereafter.

for the past two year I was suffering from severe elbow pain and Doctors said that there is an extra bone, doctors could not rectify. Shri Vipinchandji advised to eat Badam and carrot, apply hot ghee and I was all fine within 15 days.

My son who is 9 years old was suffering from severe wheezing, I went to shri vipinchandji and just on seeing him he diagnosis and said that

somewhere near your residence paint work is taking place, and due to the smell he is suffering. And to my surprise it was exactly what was happening near my place. He advised to shift for few days and he was cured.

I was occasionally getting white patches on my face and neck. I went to shri vipinchandji and on seeing me he advised not to take Idli, dosa, pickles and lemon. I followed as he said and thereafter I never had this problem till date.

I was suffering from feet pain for a long time. I took X-ray and doctors said that the bone is increased and hence it is paining. I came to shri vipinchandji and he said that "have you changed your footwear "and advised to use the old one. I used the old chappals and the pain has come down drastically.

My son who was 9 year old fell on the floor while he was playing in the apartment campus. An iron rod hit his head and there was a big scar on his head, it was bleeding badly. My mother in law took him to a doctor and he said to take 8-9 stitches immediately, but I refused and took my son to shri vipinchandji where he advised me to apply Ghee on the wound and asked my son to eat seera. Today there is no mark on his forehead he is all fine.

My son who is 9 yrs old was suffering from acute fever of 105, as I was following Zero Therapy I came to shri vipinchandji. On looking at my son he immediately said "he has not cleared his motion due to which the fever has come". Even I did not know it. I asked my son and he said that he has not had proper motion for past two days. Shri vipinchandji advised to apply ghee on the stomach and in the place of motion. Immediately after one hour he cleared his motion and the fever vanished.

I vomited for 6-7 times & had about 5 loose motions in 3hrs. the next day when uncleji saw me , at the very first sight he told, "you washed your hair on the next day of your fast".

I noticed blood in my urine. I immediately collected sample & went to uncleji. Without seeing the sample he just told me, "you have taken fig (anjir)".

I had severe ear pain & headache from 4-5 days .

I went to uncleji . He told, "you went beach on a two-wheeler".

I had constipation problem from 1 month .I consulted uncleji & he told, "you have taken almonds (badam) with milk/water".

I had pain in my calf, when I told uncleji about this, he immediately replied saying, "you run while climbing the staircase".

I had fever when I was in Rajasthan. I called up Uncleji and he told,  
"It's due to the cold whether".

My 2yr old son had fever and was not eating anything at home. I consulted Uncleji and he told,

" its due to paint smell ( from Neighbors house)

When I was pregnant my hemoglobin went down. When Uncleji saw me, he told,

"You had pickle"

My son had about 15 loose motions when he was 4 months old, Uncleji told,

" its due to baby body massage "

My son was 1yr 9 months old when he was admitted in play school. He stopped eating his food, had constipation and weight loss. I took him to Uncleji and he just told,

"he is meeting new people".

I vomited once for 6-7 times and had about 5 loose motions in 3 hrs. The next day when Uncleji saw me, at the very first sight he told,  
"you washed your hair on the next day of your fast".

I noticed blood in my urine. I immediately collected sample and went to Uncleji. Without seeing the sample he just told me,

"You have taken fig (anjir)"

I had severe ear pain and headache from 4-5 days. I went to Uncleji. He told,

"You went beach on a two-wheeler".

I had constipation problem from 1 month. I consulted Uncleji and he told,

"You have taken almonds with milk/water".

I had pain in my calf. When I told Uncleji about this, he immediately replied saying,

"You run while climbing the staircase".

I had severe pain in gums. When I called up Uncleji, he told,  
"It's due to fasting".

My bhabi was not in station. When she returned both of us went to Uncleji for consulting and he immediately replied saying,  
"Both of you had the same readymade items". –VERY CORRECT  
kshi, Chennai, India.

I had pain in my back-hand nerve. When I told Uncleji, he took no to reply saying,

"You sprinkle salt over your food just before eating it".

One morning I couldn't hear my son's voice while he spoke. When I told Uncleji, in a flash of second he told,

"There is something around burning and it's due to that smoke".

I noticed ringworms on my body. I consult Uncleji and in a fraction of second he replied;

"You had mango pickle".

- A) I was severely suffering pain in my lower spinal cord. When I went to my Uncleji , just by seeing my tongue .he diagnosed that I had "BHUIIA", which was absolutely correct so he gave me the following treatment–milk; badam; moong; moong pani; etc .
- B) Around 3 months after the above experience, I was again suffering from same pain, again just by seeing the tongue he said that this time it was not due to HALDIRAM BHUIIA problem, but because of picking up heavy weight in empty stomach, which was cent % right as the same day morning I picked up a bucket full of water. He gave the following treatment – KHEER; MOONG etc.
- C) I was outside Uncleji's office. When he came, he tapped my stomach and said to stop eating idli and dosa. He diagnosed perfectly as the previous day I had idli and dosa in breakfast and in dinner.

I was feeling very loose and dull. So I went to Uncleji . Just by seeing me from a little distance he diagnosed that the reason for dullness was due to some family problem, which was absolutely right.

I met with a small accident and so went to Uncleji for treatment. Just by seeing my tongue he diagnosed that my weight had increased, which very true. My increased from 56.4 to 59.8. He gave me the following treatment—freezes ghee; coconut oil; mamra Badam ,Halwa ;

Once I slipped on my terrace. So, immediately people around took me to doctor and he said that it was a fracture. But on the next day I went to Uncleji. Just seeing my hand he said that it was not a fracture, and from that evening I was on my routine work

M/S empire agencies

I was suffering from itching problem for the past 28yrs. When I met Uncleji for the first time, just by seeing me he diagnosed that this problem has increased excessive due to consumption of medicines. Then he gave the treatment, to apply almond oil and then coconut oil. Since then I had never suffered from that problem again.

DIAGNOSIS by "Mr. VIPIN CHAND BOMB", The diagnosis done for my family members, relative and my daughter's friend.

My wife, was suffering from bleeding problem for 3 months, November 2003 to January 2004. Tried allopathy, homeopathy, but not effective. The diagnosis for the problem ("root cause")

UNCLEJI – "Did you take periods tablet for postponing?"

R.C – Yes I took one tablet, when I was on my pilgrimage tour, to visit a temple.

### **THE TREATMENT:**

Drink water with cardamom soaked, eat salad with food, apply sandalwood paste, and some saatvik food prescription. The problem vanished in 2 days. She had good energy. With this problem other things like, dark circles under eye, stretch marks, waist line started decreasing.

The same problem started again after 1 year. This time the diagnosis was,

UNCLEJI – "Did you take any tablet for fever?"

R.C – Yes, I was forcibly given tablet for fever, by my brother, while returning from Rajasthan.

The problem, after 2 years, started again twice. Zero therapy body was throwing the unwanted, from the body. The energy level was good. Once she had breathing problem.

UNCLEJI – Are you using "Talcum powder"?

R.C – Yes.

Stopped using talcum powder. Problem vanished.

My brother-in-law's daughter, was having periods problem. I took her to UNCLEJI. Before she opened her mouth to tell him her problem, just looking at her face, within fraction of a second,

UNCLEJI – " You have a problem in your periods. Take saffron in milk ."

Aarthi – just shook her head out of surprise and wondered how it happened.

My son, once had throat pain, 104 fever, unable to talk. UNCLEJI came to my office and I just told him my son's problem and told him I will come in the evening to show him. To my surprise, without seeing my son or his tongue, he diagnosed the problem.

UNCLEJI said "Did he take "ginger" in tea?"

I told we had Chinese food (a day before) which contained ginger, but not with tea. The diagnosis for the problem was GINGER. I was amazed.

His body, mind is strong, (made by zero therapy). Even without going to UNCLEJI, the problem vanished within some 6-7 hours. He went to toilet 4 times, (What matters for the body is the matter that goes outside the body). The problem was thrown out.

My daughter's friend, 'JAE' from Australia, came to my office, when UNCLEJI was there. She told him that her mother had "throat cancer". UNCLEJI by looking at the girl's face, for the first time, without seeing the girl's mother, diagnosed the problem, to everyone's surprise. The diagnosis,

UNCLEJI- Your mother's cancer is due to smoke.

JAE- No sir, my mother doesn't smoke. Even my father doesn't.

UNCLEJI- no, your mother's cancer is due to SMOKE only.

(After thinking for a few minutes)

JAE- yes Sir. My mother was working in a pub, before four years.

(The problem was due to passive smoking)

My daughter, had bleeding with her toilet, twice. The first time she was studying in college and the second time, when she joined her office. The first time diagnosis,

UNCLEJI- Are you sitting on foam chair before the computer for a long time?

RC- Yes. I am sitting in front of the computer in college .

The treatment started. Sit in the tub with water. Apply sandal wood paste and prescribed some saatvik food items and she was alright.

The same problem started again after one year. The work was same. Sitting before computer on a foam chair for a long time in her office.

But this time the diagnosis by UNCLEJI "Are you eating too much of mint."

RC- yes. I am eating mentos daily in my office.

Once she had a big boil on her right thigh.

The diagnosis by UNCLEJI- "the problem is due to smoke and eating bhujija and kurkure."

RC- Yes. I used to eat bhujija and kurkure and one of my colleague in my office used to smoke and sit in front me and talk.

(The smell created the problem)

Treatment started and within 5 to 6 hours the boil started sending out the pus and blood.

Treatment: drink moong water. Moong dal with salad. Eat carrot halwa and other saatvik food items.

In 2008 December, after her marriage she had severe body and joint pain, unable to walk, fold her fingers, knees.

The diagnosis by UNCLEJI- your problem is due to late nights.

RC- yes sir. I sleep very late and get up early in the morning and go for driving classes.

UNCLEJI prescribed some saatvik food items first and then told don't do anything.

Just go and sleep and you will be alright. She did that and she was alright.

After that she followed the prescribed saatvik food- eat lot of ghee, carrot halwa, badam seera.

Again she had the same problem after two months. She went to UNCLEJI.

UNCLEJI- "are you sleeping in a closed room with a thick blanket over you?"

RC- Yes.

UNCLEJI- Open the windows and sleep. Use a thin blanket for covering yourself.

She followed that and she was alright.

Myself, had a big boil on the left side on my back, under my shoulder. It had 5 to 6 openings, through which pus was coming out. Many advised for injections and surgery, as it was known as Raja Katti (in tamil). The problem was in 2008. I am following Zero Therapy since 2004. I told the problem to UNCLEJI.

UNCLEJI- your body is ZT body and pus won't come out from Zero Therapy body. Some metal has gone into your body and the body is throwing out.

PRK- yes sir. As it was marriage season I ate too much of sweets with silver foil. (may be duplicate foil) or because of food color, which contains lead, again a metal.

UNCLEJI- apply ghee on the boil.

I did that and ate the food prescribed by UNCLEJI and avoided the food which he tells to avoid. To all the people's surprise I was totally alright without any injections or surgeries.

"My daughter was getting married and obviously a lady has to shoulder many responsibilities associated with the function. Only a person who

has gone through such experience can realize the amount of tension and a low fuse a woman has until such function has been successfully completed. As it happens in every household, during such occasions me and my husband had lots of heated arguments related to it. Oblivious to the fact that uncle is aware of this fact even without our telling, we went to see on dual purpose. One to invite him for the marriage and second to take preventive steps regarding health. He immediately told that we two must have had verbal duals which has caused health problem for me.

"It was a very cold day after Christmas at Scotland and my husband Swapnil (software engineer) had acute tooth ache. Temperature was minus 7 degree and I was at my wit's end to find the cure. As it happens in distress, you remember either god or doctor and for me my uncle (in India) was the answer to all my ills. When telephoned, he immediately enquired as to the food items consumed. While we reeled out regular items that he had consumed, uncle insisted that he must have eaten cake or chocolate. And alas! How true he was. We did eat cake on 31st dec night. He advised no cure or medicine and said that the ache will automatically disappear next day. And true to his prophecy no pain was there on the following day. Such pin point diagnosis our uncle can make living miles away..."

".. My friend (in U.K) was on family way and during 5th month she developed acute kidney pain. I being only Indian friend available in vicinity rushed her to the hospital. I am believer of uncle and on contacting him he told that my friend was having fibre/calcium in her kidney. Two days after all tests were conducted, doctors in U.K came out with the same verdict. How inspiring it is that a person sitting miles away in India, diagnoses a person simply on hearing the condition of the patient, where as modern doctors equipped with most sophisticated instruments takes full 48 hours to say the same thing.... Is it a prophecy, a foresight, prediction! Be whatever, my uncle possesses these powers and I bow to him in all my humbleness..." DEEPAL SWAPNIL SHROFF Scotland.

I am under treatment of zero therapy since 3 years & had lots of diagnosis from which I would like to share some of them with everybody. I was diagnosed by the doctors before 10 years that I am

suffering from osteoporosis, a problem which starts in ladies after the menopause & it was shocking for everybody including the doctors & I almost went everywhere for my treatment & finally came to know about "VIPIN UNCLE", founder of zero therapy.

DIAGNOSIS 1 - By seeing me on my first visit Uncleji told me that there is nothing wrong with me. He advised me to change my sleeping, standing and sitting posture which was not proper & changed my food habits every time when I visited him & change of lifestyle with positive thoughts by attending Monday sessions which is a great energy booster free of cost.

DIAGNOSIS 2- In the 1st year of my treatment, I went to Bangalore & there I had severe pain in my shoulder & my back. To cure it instantly I took 1 or 2 pain killers. When I came back & went to Uncleji, I just showed my tongue & was shocked to hear from him that I had taken some medicine which I could not refuse to lie. From that day I am without medicine very strictly & he has cured me with almost each and every problem by his diagnosis. I know that 1 day I'll be perfectly alright if I perfectly follow zero therapy life style.

DIAGNOSIS 3- Now I would like to share my younger son's diagnosis. His age is 3½ years and he is under zero therapy for the last 5 years without any medicines, vaccinations and polio drops. My son was a premature baby 1½ months before the due date & later when he grew up, he was not able to speak as the other kids would but uncle told me that there is nothing wrong with him & he will slowly start speaking with some change in his food habits & tapping on his chest & it has happened. He speaks much better than before.

DIAGNOSIS 4- One day in the night around 11 pm we saw that my son's all the 20 nails of hands and toes turned to blue, green in color & coming out automatically from the tip. Being scared, we took him to doctor & he said that it is a fungal infection & it would take 6 to 8 months to cure. Next day we went to Uncleji & just by seeing his nails he asked me whether he was using crayons(color) & yes. He was newly introduced to colors in school. So temporarily uncle asked him to stop coloring for some days & start applying coconut oil 3 to 4 times a day & it was a miracle for everybody within 1 week his problem was cured.

DIAGNOSIS 5- Next experience is my 10 years old son who is not the follower of zero therapy. 6 months back he had severe pain in his left leg

with fever going up and down. It was an unbearable pain & he was not able to walk properly. So we took him to orthopedic doctor. He advised him to take some x-rays & testing which showed that he had some infection in his bones with T.B & he was advised to go for an M.R.I scan but I took him to Uncleji & requested him to see him and his reports. By seeing his tongue he told that there is nothing wrong with him. Maybe he had fell down some time before. He just asked him to apply some ghee strokes from upwards to downwards & intake of badam soaked in night & badam halwa. Finally he was cured within a week & started walking properly without any pain.

DIAGNOSIS 6- Other experience is about my husband. We went to rajasthan 3 months back to attend a marriage. He got high temperature with some throat infection. So he continuously took hot water & crocin tablets. After coming to Chennai within a night his throat swelled at one side like the size of an orange. So immediately he was taken to the doctors & they advised him to go for a biopsy with lots of testing and antibiotics. But as I am a follower of zero therapy, I took him to Uncleji & requested him to see what the problem is & his words were that did he have hot water and medicines & yes he had. Uncle told him that it is not a serious matter. He just asked him to apply chandan paste on the neck & eat hot khichadi with ghee and apple without its peel. To our surprise the swelling came down to 50% on the same day & within 3 days he was totally alright without the swelling.

I had severe throat pain for minimum 25 days in my mouth. This went for 3 consecutive years. I went through many remedies but nothing worked and it rather increased. I then started following zero therapy and it vanished within 7 days without consulting Uncleji .

My son (born in Zero Therapy) had a oral health check-up in his school. His friends were asked to undergo filling, extraction, etc. and he had one of the best oral health.

I had about 10 loose motions in about 4 hours (3.00a.m to 7.00a.m) when I was in Ooty in November. I called up Uncleji and was perfectly alright by 8.00a.m.

My gums were badly swollen and had troublesome pain. I consulted Uncleji and he simply replied "it is due to masala tea". I was then asked to stop intake of any item which was crispy/ hard or hot by property/temperature

My daughter had bleeding in motion. I showed to uncle. He said she had consumed duplicate kesar (saffron).the previous day she ate she ate sweet saffron. According to him Zero Therapy body cannot accept this chemical. So it is discharged in the form of bleeding. If I would have gone to doctor he would have surely frightened me by saying that it is due to internal bleeding. With in a day I was alright.

I had sinus for more than 10 years. I had undergone all most all treatment such as Elopathy, Homeotathy, Accpressure,Yoga Heating. It was my first visit to Vipinji. Seeing my tongue he said you are using mosquito ripple and perfume & I was using it for several years. I stopped all my medicines removed the mosquito ripple machine from my room. He told me to take Chana, Lapsi & guava juice together and kept on changing my diet every week. Vipinji solved my case which had been a doctor's failure.

There was a short circuit in my air conditioner. My A.C caught fire and there was heavy smoke in the room. I was not able to breathe and had a sever cough. Seeing me uncle told it was due to heavy smoke. I was given malai & kheer and there was a happy ending to my suffering.

My husband had severe pain in his Ear. I called uncle at 2.00 a.m. He asked to give him banana. I gave him banana & without asking him I poured hot coconut oil in his ear. His second ear also started painig. Again I called Uncleji at 2.30 a.m saying that his second ear also started painig immediately he said "you would have put something in his ear"

Once I had some uneasiness. I went to Uncleji and he told me that you would have lifted some weight and yes I remember that I lifted water pots & within an hour I got it alright.

Once I went to Uncleji and by seeing my tongue he diagnosed that I would have eaten some chemical (menthol) & I took nothing except beetle nuts. After coming home I found the pouch of the beetle nut and it was clearly mentioned that it contained menthol.

One day my cousin child had got high fever of 103. After that we went to Uncleji and he diagnosed that it was due to fear by seeing any movie. Actually it was true. While they were traveling to Nellore she watched a Tamil movie and by the next day she was alright without any prescription.

One evening I went to Uncleji to just say hello! After two minutes I started to cough. He immediately asked me to see at the entrance to see any smoker was there. And to my surprise there was an idiot smoking.

My whole family except my wife got skin problem. People around said it was chicken pox. But we went to Uncleji & he diagnosed that it was due to contaminated bath water and watermelon which they had eaten. Now we all are fine

I fine morning I had a tendency of vomiting. I called Uncleji and he said me to chew a few pieces of Mishri and I was fine ever after.

I got severe cold and he diagnosed that it was due to masala tea and after stopping the masala I was completely fine. Once I got a fever of 102 and he said it was due to unrest and after taking rest I was fit back..

I was having a light back pain from last two days. Uncleji saw my tongue and diagnosed that you would have kept your stomach empty and should have some food 4 to 5 times a day. Let it in small quantity. The pain got increased by the next morning & I went to Uncleji by the condition of my body. Uncleji asked have you lifted some weight in empty stomach. The reason was I lifted half bucket of hot water for bathing and I got the pain which Uncleji diagnosed with in a fraction of second.

I was having a head ache in the evening so I went to Uncleji's office. By seeing my tongue he told that you would have sprayed perfume on your body. The reply was no. he said then somebody else would have applied and you were present there. I told a costumer came to my shop and his clothes were heavily perfumed. Uncleji told to splash water on the face and also to take a deep breathe and to drink tea.

I was having a sore throat and went to Uncleji the next day evening seeing my tongue he said that it was due to food eaten in a function. And just 2 days before I attended a marriage function.

I had a severe back pain when I got up in the morning. We went to Uncleji in the morning itself. By seeing my face and body condition Uncleji diagnosed that it was due to some chemical substance went into your body through the nose. I remembered and told Uncleji that I worked with fire asbestos a day before for an hour & Uncleji told me to eat banana, kheer & water souked figs. And I got well within 2 days.

I was having a stomach pain after I returned from Calcutta, from the marriage function. Uncleji did not know about this. So the next day we went to visit Uncleji in the morning. By seeing my tongue Uncleji questioned us that have you come from out of station and eaten heavy chemical food and had turned toxic after 3 to 4 days. So Uncleji started the treatment and told me to eat kichdi with ghee, soaked almonds with hot milk in the morning I got well within 3 to 4 days.

I was having pain in my left hand and so I went to Uncleji and showed it to him and asked me firstly you had any treatment before. The answer was yes. I said sewing machine went into my finger. Then Uncleji said that there was a poison which had made your swelled and having pain.

I was having pain on the right side of my head. Uncleji diagnosed that it was because the new teeth which is coming which I dint tell him as it was a slight pain only and got alright within a week

My daughter Disha Agrwal suffering from cough & cold for last 2 years. Uncleji diagnosed that it was due to some chemical inhaling and asked whether she had any oil massage? She replied yes. We stopped the oil massage and she was healthy.

My daughter was having small white patches on her legs which were growing. By seeing the white patches Uncleji said it is not the skin problem. It is due to chemical gone in the form of food like sauce, biscuits, Chocolates. She had eaten bread & sauce and chocolates were given in the school .He told to apply almond oil on white patches and told to eat overnight soaked Almonds with sugar candy and 2 piece of apricot a day. The white patches went off within a week of Uncleji s treatment.

My daughter Disha Agarwal was suffering from fever since Sunday evening. Somehow we managed the night with precaution. in the morning Uncleji saw my daughter. Even from the distance uncle was able to recognize that she was not well and having eaten watermelon. On Sunday afternoon she had eaten the watermelon and within two days she got well.

My daughter Disha Agarwal was suffering from cough & cold and also got fever the next day. Uncleji diagnosed that she had eaten any corn food item. We said she ate corn puff & popcorn a day before the cough started. He told to apply sandalwood paste below the stomach, eat ghee

with sugar, green pista & kheer. And after Uncleji started the treatment she got alright in 3 days.

Once I was having a stomach ache & I was not able to bear it went to uncle and he said I took some readymade item. I said no I dint have anything. He said me hat you had jam or sauce (ketch up). I was thinking over it and then only I was able to remember I actually had the same. Within a few days I was absolutely well.

A few days ago I was suffering from heavy cold. I used to sneeze daily in the morning at least 15-20 times. After I was cured from cold my sneezing were not stopping. When I went to Uncleji he asked me do u go to play cricket and actually I used to go every alternative day. When I stopped playing I was perfectly alright.

Once I was suffering from severe head ache and I was not able to do my household work. when I went to uncle he was able to recognize that I had eaten "kanchi wada" which I myself was not able to remember. And then within one day the things which uncle gave me to eat made me perfectly fit & fine.

I was badly suffering from high fever of about 104. my mother wanted me to take Uncleji 's treatment and he said that it will take at least a week for me to cure. My family members were not satisfied with the same and took me to the doctor. Even that took one week to cure. And then when I went to Uncleji he immediately said that I will have to suffer from the same fever again. And actually it happened. I got the same high fever and by Uncleji 's treatment within a few days I got it right.

Once my sister was at school and suddenly she had bleeding in her mouth. She suddenly called my father and he took him to the hospital but dint give her any kind of the medicine. This incident took place at 9:00a.m. But still we waited till the evening and uncle diagnosed that it was due to some outside intake of food and also due to perfume and he was right. She had eaten "pani-puri" at Keshav and her friends used to apply perfume. She was cured by the next morning.

Once I was suffering from chicken pox and at the same time I even had high fever. He diagnosed that it was due to some outside food. At first I intended a no then I remembered that I had eaten Halwa from Rajasthan and then he cured me within 10 days and all other spots vanished in next few days.

## Diagnosis

Problem : My father had a severe toothache

Diagnosis : Uncle asked whether he had raw salt over some fruit

Fact : In the morning he had eaten pomegranate with salt.

Problem : My wife had a severe headache

Diagnosis : Uncle asked whether there was any strong smell in the house

Fact : We had got Pest control done in the house on the same day.

Problem : My wife had a swollen eye after getting up in the morning

Diagnosis : Uncle asked whether there was any smell in the room

Fact : She had put Mehendi at night&there was nilgiri smell throughout the room.

Problem : My father had blood in his stool.

Diagnosis : Uncle asked whether he had eaten jelly.

Fact : 2-3 days back he had eaten jelly with ice cream.

Problem : Severe pain in elbow after playing cricket and all doctors said that it is fracture.

Diagnosis : Uncle said that it is not a fracture

Fact : After uncles treatment cured within 10 days.

Problem : I had severe fever

Diagnosis : Uncle asked whether I had eaten olives

Fact : Previous day I had eaten sandwich with olives.

Problem : My mother had a very bad throat where the doctors had said that she will not be able to sing for the rest of her life

Diagnosis : Uncle asked whether she had been for a long time in smoke

Fact : 2 days back we had the Havan for our new office

I had severe body pain & eye pain and was feeling feverish, and when uncleji saw me he immediately told you had Mogar Daal Sabji with Rice combination as food , I was shocked to hear this as I had the same item in today's lunch.

I was traveling to Rajasthan and on reaching my native I had severer eye pain and when I called Uncleji, he told me that I had washed my eye with water and yes he was right. Then he advised me Badam Misri paste & very next day I was alright.

When I went for routine visit, on seeing my tongue Uncleji told me that I had eaten Saunf and "Mook Vaas" and yes he was right I had eaten the same.

His diagnosis are endless

Pani puri kayi kya – yes

Butter liya – No – ( later found that I was wrong,  
I had butter popcorn)

Colour item kaya kya – Yes

Mogan Daal Subji kayi – Yes

Have you changed your foot ware – Yes

ghar me jagadha hua hai kya – yes

bhaccha daar gaya hai koi guest aaye hai kya ? – yes

I wish to share my experience on Diagnosis with ZERO THERAPY. This happened with me around 4 and half years before when my daughter Disha Parekh was 8 months old. Disha was unwell for more than a couple of days, she was running high fever and was not taking in any sort of food. All the people at home were against me as they were not ZERO THERAPY followers. My daughter's condition was not improving at all and I decided to take our daughter to SHRI.VIPINJI for physical observation. I lived at the border of Andhra Pradesh in a place called Sullurpeta 80kms away from Chennai, the next morning I along with Disha's mother took her to SHRI VIPINJI. We put her in front of VIPINJI on his table, there was no movement with Disha and her eyes were closed. The moment VIPINJI touched her, she started crying and VIPINJI told that her health is alright, the reason for her ill health was the dispute between two whom Disha loves. Tears started pouring down as now I understood the cause, immediately I took Disha in my arms and left for the railway station, from there I called my mother and said sorry as I had a fight with her and was not talking to her for that last two days. The whole time changed as Disha opened her eyes and smiled after the phone call and by the time we all reached Sullurpeta she was completely alright. The right diagnosis's was the cause for Disha's recovery; the

diagnosis not only gave Disha back to us but also waked the human in me.

Dhir mehta had severe pain in stomach & also some temprature for consultancy we went to uncleji, on seeing him he immediately asked us did he ride bi cycle for long duration:? we were astonished that how could he know that dhir has on that particular day has rode for long duration bi cycle, because he rides bicycle daily but only on that particular day he had it for long duration.

When the age of arsh mehta was 15 days since body was hot we thought it is fever and we consulted uncle ji over the phone ,he diagnosed immediatley and said that he has no fever no treatment is required, it is only because of weather condition., next day morning he was allright . and as suggested by uncle ji no treatment was given.

At the age of two months he was constantly crying on consulting shri vipinchand bomb he diagnosied tha due to constant wear of diaper the baby was crying, as soon as diaper removed he stoped crying.

On a regular vist to shri vipinchand bomb for her vizing problem ,uncleji diagnosied that she was pregnant without touching or any kind of test , after that we went to lab and got tested then we came to lab result was positive.,

I had severe body ache, fever, cold, on visting shri vipinchand bomb on seeing tongue he said that u have had some aerated drinks, this is the reaction of all this, that was fact i had drank some aerated drink.

One morning a couple brought their little infant son to Uncleji. The child, as I gathered from their conversation to Uncleji, had smelt a Mosquito repellent earlier. But Uncleji looked at the child and said that this time it was something different. He inquired if the child had played in the sand. The parents admitted that he had played in the sand with his cousins. Even without knowing, the diagnoses was bang on the point.

The man had barely stopped and opened his mouth to speak when Uncleji said, "you have caught a cold? How do you sleep in the night?" The patient confessed, "I sleep shirtless." Uncleji muttered, "that's why." He then advised that one should always tightly cover ones chest up till the neck. That day forgetting this incident and advice I slept right under the air conditioner. The next day when I walked up to Uncleji he said, "You have a cold?" I replied, "I do feel heavy." Then I recalled my mistake.

My eye had become completely red. I did not know how that had happened. I went to Uncleji and he said it's either because of some injury or because of perfume or deodorants. I immediately recollected that two days earlier I had been in the presence of people who had sprayed extensive amount of perfume. In another two days my eye was fine through Uncleji's treatment.

My elbows and knees had started itching and had small spots all over it. I couldn't bear the itching it caused. I went to Uncleji he saw my tongue. He said I had eaten spicy Chinese food. I admitted I had.

One day all of sudden I had a temperature of 104.5 F. My head felt heavy and I could not see anything. I hadn't eaten anything wrong. Uncleji took one look at me. I had applied oil on head . Uncleji was right.

One night my stomach ached beyond my capacity to bear. I had been under zero therapy for a long time but hadn't been in touch with it at that moment. I called up Uncleji and just on the phone, without even looking at me he said that it was nothing but gas formation in the body. Next day I could actually feel light as Uncleji's treatment relieved my body of the gas.

I was waiting in the line to meet Uncleji when suddenly I happened to cough. Uncleji heard it and asked me what strong smell I had smelt. I couldn't remember at first as according to Zero Therapy I never used perfumes or talcum powders. Later I realised that I had mopped my house using a bit of kerosene and kerosene after all has a strong smell.

Once I was in Srinagar when I started having dysentery, and within two hours I was in such a state that I couldn't move. I called up Uncleji from Srinagar. He advised me to have one teaspoon ghee and sugar and a ripe banana. With great ordeal my husband managed to find a zero therapy ripe banana in Srinagar. After having that I slept and when I woke up it felt as if I had never been ill.

On my second day in Leh I had fever and I felt dizzy. Leh which is a high altitude place and travellers there often have High altitude sickness and have to leave from there at once. I called up Uncleji from there and he gave some treatment. The next day, thanks to Zero Therapy's miraculous ways, instead of returning home we went to the highest motor able road in the world.

Just before Diwali during the Monday session Uncleji was telling everyone some general remedies in case of burns. My father had attended that session. All the remedies came in handy when during the Puja on Diwali I accidentally held a hot diya in my hand. The diya had been so hot that there was a swastika imprint on my hand just like the one in the diya I had touched. As told by Uncleji I kept my hand under running water and then applied frozen ghee. By evening there were no ugly burn injuries at all.

Uncle had always stressed on the fact that Mehendi should not be applied anywhere else but the palm. During my brother's wedding I applied mehendi all over my arms as well. While the Mehendi dried my hands became very cold. And the next day my bones had a weird pain. The pain was such that my shoulder joints were also aching. Gradually as the Mehendi wore off the pain receded. When I told this to Uncleji he reminded me of what he had always said that traditionally it is only for the palm not on Bones direct.

There were some blisters on my knees. I asked Uncleji what could be the cause. He said that there was constant consumption of green chillies in my food. I could not remember what it could be. The suddenly I remembered that a certain place where I had idlis twice or thrice a week they added green chillies in the chutneys. From then on I avoided it and followed food treatment Uncleji had given. And the blisters started vanishing.

Ashok KumarJain

My belly was engulfed with small painful blisters. Wearing a saree had become impossible. Uncleji pointed out that it was due to some corn consumption in my diet. I had to agree that my niece's wedding was going on and in one of the functions I had had corn. My state was such that one hand was always on my tummy for soothing the irritation. After ten days in zero therapy the irritation started to calm down.

I was suffering from severe shoulder pain. I was unable to lift my hand even to eat. All Ortho doctors said your right shoulder is to be operated upon or steroid shot has to be given and even after that no guarantee and may be it will worsen. Uncle treated me and today I am able to do all my routine and also my office work as I am employed in bank.

I used to develop small boils on my palm and it used to be painful. Uncle saw my palm and asked me did you eat dry grapes (kismis). I said yes. That is the diagnosis of uncle.

On another occasion in the evening I came back from office and was quiet ok . Little later I developed severe stomach pain and vomiting sensation. I was unable to sleep even. Uncle asked me did you have anything outside which had smell and I said no. But little later I realized I had water in office which had GULAB JAL (ROSE WATER) added to it so that was the diagnosis of uncle. After his treatment I was alright. The more important is I am far away in Rajasthan and all this diagnosis even without scanning the tongue which is the usual routine at uncle's clinic.

Here not only the body even the soul , the mind and ultimately life gets better each day.

I was separated from my husband for 7 long years and after coming to uncle under Zero Therapy my quality of life changed and the turn around in my life was unbelievable. What was impossible became possible. My husband came and called me back Home. That is the effect of ZERO Therapy . Here the souls also gets purified .

One evening ,I went to meet Uncleji. Just by looking at my tongue, he asked me if I had green chilly. I was totally amazed because on that morning ,I had eaten Coconut chutney which contained green chilly.

Another incident happened which awestruck me. One evening ,I called up Uncleji and told him that i had severe toothache. Uncleji just told me that it was nothing and asked me to apply cold (refrigerated) ghee. Within half-an-hour ,I found the difference and the next morning I was completely alright and relieved from my 2 days pain.

I had frequent problem of liquid accumulation in my left knees. Whenever it happened the doctors just puncture my left knee and suck out the liquid, apply bandage and gave some medicines (pain killers). I had to do this for eight times and the real reason for this was not found. But, when I met Mamma (Zero therapy) within a span of seconds he asked me whether I had any problem in my liver and consumed eggs. Then the real cause was identified - liver problem and no problem in my legs. For past 3 yrs I never face similar problem and confident that I am perfectly alright.

My wife always had pain in her head. But when mamma saw her he just found that it was due to masala in tea. The day she stopped drinking masala tea, there is no pain in her head and she is living a great life.

Some days back my wife always complained pain in her foot. When mamma saw her foot he just told that it was due to new slippers she wore and they were not right for her legs. From next day she had no pain in her foot.

I had burning sensation below my feet. I went to uncle and he told " that it could be due to wearing wrong food wear, socks or walking bare footed in sunshine."

He was right, I had gone to the temple and I had to go barefooted from the parking place of my car to the temple . and it way very sunny that particular day.Uncle asked me to have jeera-misri boiled water at room temperature 3 time in a day.After 3 days the burning sensation had disappeared.

For the past 35 years I was sick. I had consulted varied Doctors of Allopathy , Ayurveda, Homeopathy and what not , but with out any improvement in my health condition, Initially I had severe head ache and when I took pills for head ache my pain stopped but vomiting started , then I consulted Neuro Doctor in one of the most reputed Hospital and with the pills I got temporary relief for few days and after that it was as usual. And latter the Neuro Doctor prescribed me sleeping pills and many more other tablets (Total 20 pills a day) this way years passed and in between I was suffering form heavy giddiness and later from jaundice and body become so week that I could not even hold a glass of water and was admitted to a leading Hospital on greams road and was injected heavy steroids. My cholesterol level also sky rocketed . This way I was totally depressed in my life and in the month of may 2007 my Neuro doctor also said that beyond this he could not do any thing and asked the to leave it to god and then zero therapy came in form of god in my life.

Initially when I consulted Uncleji for giddiness he asked me to start in take of ghee and said that the whole body's pipe line got rusted so ghee is must for friction and gradually one by one diseases were thrown out of my body and today its almost 3 years under Zero therapy, imagine a person who was taking 20 pills a day and now zero pills a day. That is the power of "Zero" Therapy.

Today I sleep well and I am more active then ever kudos to Zero Therapy.

I vomited for 6-7 times & had about 5 loose motions in 3hrs. the next day when uncleji saw me , at the very first sight he told, "you washed your hair on the next day of your fast".

I noticed blood in my urine .I immediately collected sample & went to uncleji .Without seeing the sample he just told me , "you have taken fig (anjir)".

I had severe ear pain & headache from 4-5 days .I went to uncleji .He told, "you went beach on a two-wheeler".

I had constipation problem from 1 month.I consulted uncleji & he told, "you have taken almonds (badam) with milk/water".

I had pain in my calf . when I told uncleji about this, he immediately replied saying, "you run while climbing the staircase".

I had fever when I was in Rajasthan .I called up uncleji & he told, "its due to the cold whether".

My 2yr old son had fever and was not eating anything at home. I consulted uncleji & he told, "its due to paint smell (from neighbors house)".

When I was pregnant my hemoglobin went down .when uncleji saw me ,he told, "you had pickle".

My son had about 15 loose motions when he was 4months old . uncleji told, "its due to baby body massage".

My son was 1yr 9month old when he was admitted in play school . He stopped eating his food , had constipation & weight loss .I took him to uncleji & he just told , "he is meeting new people".

I had severe pain in my gums . when I called up uncleji , he told, "its due to fasting".

My bhabi was not in station. When she returned both of us went to uncleji for consulting & he immediately replied saying , "both of you had the same readymade item".

I had pain in my back-hand nerve .when I told uncleji , he took no time to reply saying "you sprinkle salt over your food just before eating it".

One morning I couldn't hear my son's voice while he spoke .when I told uncleji , in a flash of second he told, "there was something around burning & its due to that smoke".

I noticed ringworms on my body .I consulted uncleji & in a fraction of second he replied; 'you had mango pickle"

My 2½ yr old child vomited everytime after intake of food/milk . This continued for 2 days .On day 3 I took him to uncleji & he took no time to reply saying , "its due to smell ( artificial sandalwood)".

My son had worms in his stomach .I consulted uncleji & he just told, "he had only sugar (not in syrup or any other form)".

I had severe throat pain for minimum 25 days in a month .This went on for 3 consecutive yrs .I went through many remedies but nothing worked and it rather increased . I then started following zero therapy & it vanished within 7days without consulting uncleji .

My son (born zero therapy) had a oral health check up in his school . His friends were asked to undergo filling , extraction , etc... and he had one of the best oral health.

I had about 10 loose motions in 4hrs (3.00a.m–7.00a.m) , when I was in Ooty in November .I then called up uncleji and was perfectly alright by 8.00a.m .

My gums were badly swollen and had troublesome pain . I consulted uncleji and he simply replied , "its due to masala tea".

I was then asked to stop intake of any item which was either crisp / hard or hot by property / temperature .

At the age of 6 months my son had a blood clot in left thigh. When he was 1 year old, the thing grew to a ball shape. Uncleji's comment on it was 'its all because of medicines and injections given to my son and wife during operation.' Uncleji converted this puss into liquid form very easily. My son went through no pain. We were asked to massage it with ghee or oil based on climate and nothing else. Today it is almost cured. I couldn't believe my eyes. It's a miracle for us and is impossible for medical science to cure it without any form of surgery. Out of my family pressure I had even consulted the doctor once, and he told it couldn't be cured without the surgery. Today I feel proud for having faith in Uncleji.

I had sinus problem for 7-8 years. Later, I met uncleji and his immediate diagnosis was that I had no sinus problem. It was only because of having cold water after sweating on sunny days.

Uncleji was the only one to figure out that my son at the time of birth did not have a connection between he brain and the rest body. We did not know, we found it normal because he was infant and not supposed to be stiff. That thing could have resulted in a kind of paralysis. I'm very much thankful to uncleji for helping me out.

My son was 3months old, he was in Ahemdabad. One day he kept crying a lot, so my wife called up uncleji, he happened to be in train. He figured out that it's just because the room was packed, so let the fresh air come in. We did the same and the child stopped crying.

One day while we were at uncleji's clinic, just by looking at my son he told that the child was upset because of room freshener or perfume's smell. When I recalled, we actually were in a shopping mall for few hours

Once my son was in Ahemdabad and he was crying, wasn't eating. My wife called up uncleji and he figured out that the child was scared of noise. When we recalled, it was sound of mixer.

My wife had constipation problem for 10-12 years. Uncleji asked her to stop taking saunf. She did and got relieved from constipation problem.

Once my son was not having any food. The next day we met uncleji in the 'Get Together' meeting. He just looked at him and fond the reason. The child was scared by some stranger, who had actually come for cylinder leakage problem at my place.

I once had a severe stomach ache. Uncleji found that it was because of the body heat and not because of the food I ate. His remedy was to apply oil on my stomach, which actually worked out.

My elder daughter was practicing dance for annual day. She got cramps in her neck, she couldn't dance. Uncleji's treatment cured her pain and she could dance on annual day.

I was in Bangalore and all of a sudden I had a bad eye pain. It was red, watery and swollen. The next day I returned and visited uncleji. He told that eye was watery because of dust and swollen due to cold temperature.

Once my father-in-law came down to visit uncleji for the first time. Just by looking at him, uncleji found out that he had been taking trifla powder from a longer time, which he actually did.

My son had watery eyes one day and had cold. Uncleji found that it was because of the fragrance and actually that same day guests happened to be home.

Once my elder daughter had stomach ache. When we visited, uncleji, he immediately she had maggi recently and she actually did have maggi just a day earlier.

Whenever we take our son to uncleji, just by looking at the child he could guess out if his weight was increased or decreased. And every time it happened to be correct

My younger daughter had cough during Diwali. After a few days it was severe, she couldn't stand it, couldn't talk or tolerate. Uncleji told it was because of some chemical in the body, looking at the tongue. And yes, it happened due to bursting crackers during Diwali.

I had severe body pain & eye pain and was feeling feverish, and when uncleji saw me he immediately told you had Moḡar Daal Sabji with Rice combination as food, I was shocked to hear this as I had the same item in today's lunch.

I was traveling to Rajasthan and on reaching my native I had severer eye pain and when I called Uncleji, he told me that I had washed my eye with water and yes he was right. Then he advised me Badam Misri paste & very next day I was alright.

When I want for routine visit, on seeing my tongue Uncleji told me that I had eaten Saunf and "Mook Vaas" and yes he was right I had eater the same.

One evening, I went to meet Uncleji. Just by looking at my tongue, he asked me if I had green chilly. I was totally amazed because on that morning, I had eaten Coconut chutney which contained green chilly.

Another incident happened which awestruck me. One evening, I called up Uncleji and told him that I had severe toothache. Uncleji just told me that it was nothing and asked me to apply cold (refrigerated) ghee. Within half-an-hour, I found the difference and the next morning I was completely alright and relieved from my 2 days pain.

1. I had frequent problem of liquid accumulation in my left knees. Uncleji diagnosed

I was coughing with severe intensity

Uncleji diagnosed that this type of cough is due to having chilka vali item may be badam or something

I had taken kaju which had chilka

I had taken after removing but still it had it own effect

The point here is it was diagnosed out of the world on dot about item

I have attended 2008 seminar , came to know about ZT from my cousin. Since than i have been trying to know more about it and also trying to follow the essence and lifestyle of zero therapy.

It has been only 6 months, i have settled in Chennai. Originally i m from Trichy.

2 days back about to start a new business venture for which already initiatives were also taken. A day before, happen to meet Vipin uncle @ his office and along with others, i just shared my idea of this new venture i m about to start with. A small discussion with uncleji, his idea, his pathway, his concept, i was totally convinced and i could realise the reality and this small discussion had changed the whole concept. It made me understand the pros and cons, and finally in no time, i ended up taking the decision not to continue with the venture.

Had i entered in to this venture, it would have been a big mess and a blunder for me in near future.

More than wat ended up, i was all the while thinking – HOW a man without any selfish motive, selflessly, for nothing in return, can give so much ideas, show the right path, give right advice... is definitely not possible and hard to find such a person, in the present living world.

Attending or listening to Monday session is also so very equally important and more than using the word, important, i feel, it is beneficial for our ownself. For instance – one Monday session, uncleji had said, when two persons speaks, or when we speak to any person, it is not important, what and how do we speak. Most important and most essential here is – WHY ??? why are v speaking. If one try to think and analyse this in

everyday routine, lot of questions, confusions and problems will be automatically answered to and there is a bright chance that a person is saved from doing a mistake or a blunder upon which he regrets at a later stage.

There are many such small small things, which though seems very small, it is indeed really very big for ones life and his lifestyle.

Regards

Arihanth

Halo

First of all thank you soooooo much Uncle for zero therapy.

Here I would like to share my experience

Since the day I started following zero therapy I got a kind of mental control over my body.

Many instances when I fell sick now ( due to unavoidable circumstances as every single person is bathed in perfume here so either I met them on road or in public transport or at party)

I just wait one or two days for to be cured . And if I feel no good within two days( in some instances then) I think in my mind that I will ring uncle tomorrow . And with this thought only I get cured . And sometimes when it's not cured with uncle's thought then his voice works out for me.

Zero therapy is perfect . It's absolutely logical . And all thanks to Vipin uncle.

And the best thing is that I never met uncle only I talk to him over the phone . But my heartily wish is that at least once I meet him just to personally say him a note of thank you for helping me out every time.....

Thanks uncle

Always want to follow zero therapy

Seema

On 05 June 2016 as Sunday session went for breakfast and as completed. As Vipin uncle ji saw me found that I have consumed something wrong on my diet and as I have touched his feet and shake hand uncle ji said u have eaten something wrong as your palm is too heat. First I said nothing. As uncle ji knows what I have eat wrong but wants me to tell after few seconds I recognise I have went to my cousin sister home at dinner two days before I have consumed garlic on the Tamil sapad which she cooked.

No one in the world can diagnose the cause of the problem as uncle ji does.

Date: 10/11/2014

During a casual conversation with Uncleji (Me, Uncleji, Rajesh Sirohiya) at Uncleji's office. Rajeshji showed uncleji some rashes kind of think on his hand & legs. Uncleji immediately said it is due to some mistake (ate some non zero therapy item). within seconds it was diagnosed he ate australian grape 3-4 days back & the rashes appeared after that.

Respected Uncleji,

I am kajal from sowcarpet. I am 23 years old. I am suffering from various problems related to indigestion.

It started before 6 years and it is still the same. Initially the symptoms were loose motions and within 6 years backpain, stomachpain, weakness, gastric formation and indigestion added with the loose motions.

Uncleji I have undergone all kinds of treatment possible in INDIA from my streets jadawala to the specialist of kolapur. have undergone all the tests. Every report was normal not a single report showed my illness. Every doctor said that I will be alright after the course none of them succeeded. My health was the same.

I have attached an excel file which includes all the treatments I have undergone in the past six years.

I came to you at 2010. I had a feeling that how can someone get alright without medicine. I had no faith and I discontinued with the treatment. You said me to have rasgullas and I did had them but my mentality restricted me to recover.

From the Zerotherapy website I got some recipées for myself(rawa upma,rawa uthapam) these dishes were helpful to me but it dint cure my pain.

Today I have lost all my hopes. I very well know that you have stopped treating people and I have already broken your trust, So expecting you to take my case will be too much to ask for.

I have been looking the Zero therapy site from a month. You have amazing observing power. You define the words like nobody can, giving life to every word.

Looking at the miracles happening in your site, I just wish for a miracle for myself so that I can get back my life.

Doctors have taken my six years and I was such a fool that I thought only doctors can get me through this problem.

I know that its like I go to all the doctors and when things arent going gud I come to you. Believe me uncleji I no longer want to disturb anyone for my health because I have been disturbing everyone fom past six years. I have mailed you instead of coming to you beause I know that I will lower down your energy by approaching directly.

If you feel like making me blessed with Zero therapy(magical & spiritual way of living) then I promise to give 100% from my side, doing what you ask for and if you feel that I will lower down your energy again then I will be sad because of missing the only oppurtunity offered by you in 2010.

Uncleji you have already done a lot for the society I know and asking you for another help is not a fair part from my side.

You are already helping us through the website.

Thank you uncleji,  
kajal R Jain.

Continues Hiccups for 3 days and Nights (20 Feb 2015)

I went to coimbatore from chennai for a marriage for 3days. As soon as I returned, I started getting Hiccups. Normally drinking water stops it but it did not stop and kept coming. Also, nothing was staying in my stomach. Everything was coming back as vomit. I also had some temperature.

I went to Vipinchand uncle and explained the problem. He said that I have two problems. I have cold in the lungs and my lever is effected due to either Masala Tea or Agino Moto (A Chinese Spice) in the food at the marriage.

Following is what he asked me to do :

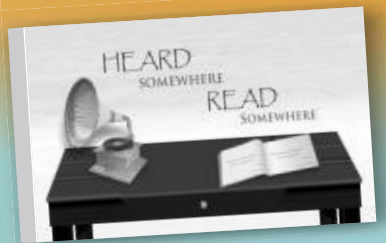

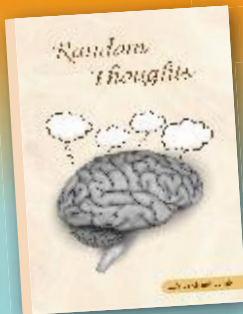

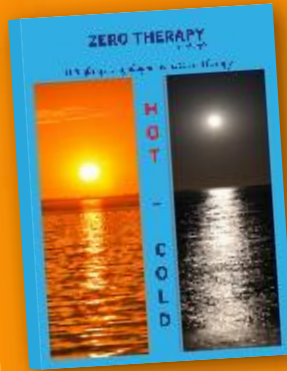

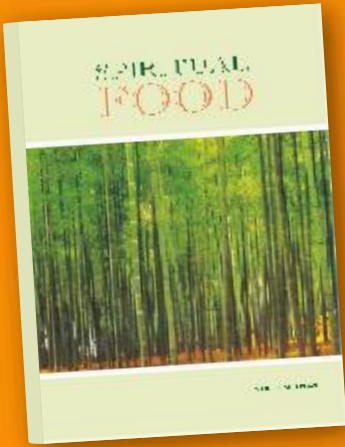

1. He asked me to buy a hair blower. He told me to warm my feet and chest with the blower as long as it feels good. Then I should put a towel on my head and blow hot air from below into it as long as it feels good. I did that for 2 or 3 times for two days and the hicupps stopped to a great extent. Now they were intermittent.
2. He told me to eat or drink what stays in stomach and stop what comes back. I followed that and was able to eat some things.
3. He told me to drink milk while eating Pista (Pistacio).

Following his advice I was fine in 4 or 5 days. Hicupps and Vomit both stopped

## **Zero therapy is a Lifestyle and Not a Treatment.**

The ratio of Hot and Cold for each individual is fixed at the time of birth. If this ratio gets imbalanced by wrong food or lifestyle, the resulting expansion or contraction in the body can be balanced by the right food.

The ground rule followed in Zero Therapy: what one should do, is (take care of) what one should not do. The individual following the Zero Therapy lifestyle knows what one should not do, by listening to the body. When proper diagnosis is done, necessary chemicals are released from within the body, that improve the immune system and the body is back to normal.

This is Zero Therapy founder Vipinchand Bomb's principle – Healthy is Heal Thy (yourself). The fact that nothing external is used for healing or curing makes this the 'Ultimate Therapy'. In your hands is "The Proof".
